KUHS Class of '50 Reunion At Klamath Yacht Club

The Klamath Union High School Class of '50 Reunion at the Klamath Yacht Club, was an expertly engineered social success of the holiday season under the general chairmanship of Dick Petzoldt, who is studying architecture at the University of Oregon. Names and addresses of class members were compiled from information gotten by telephoning and writing letters. It took almost two weeks to complete the list—out of 280 students—there were only about 35 that could not be contacted. Plans were not made much in advance of the holiday season—and assessments didn't cover the expenses—but part of the difference was made up at the party—when a duck, donated by Mr. and Mrs. Scott Reed, was auctioned off—going to high bidder Jim Thornton for \$2.25. Take it from me girls... stay Smart and Healthy

By Bessy, the Basin Bossy Well! They've come up with a "new twist" in pedal-pushers, shorts and what have you. And darned if they aren't pretty cute. For the coming spring and summer, you'll be wearing shorts that are shorter than those you have been wearing in recent years. And you may also be wearing some shorts which are longer, too. Pedal-pushers have been promoted to the "knickers" class, and along with the long and short shorts, all are being designed for wearing with those "knee-highs" which came into style with the Bermuda Shorts, and prior to that, with the Scotch Kilts...

Down San Francisco way, Women's Wear Daily tells us, bold buttons on gray wools are the style—grays so dark as to look black under subdued lights. And, the good reporting paper has to say, popular at Palm Springs are both full and slim day dresses—with the fuller dress dominating.

Hairdos in Paris are stressing length once more. This time it is with volume at the sides, as opposing recent short length cuts and before that the age of pony-tail, the "sweep-back-behind-the-ears" and other styles.

Parisian emphasis this year may be heading the world toward more use of hair ornaments.

Designed to keep you in style healthwise all the time, anywhere, is nature's most perfect food. That's fresh milk, from grade "A" dairies. It is abundant, it's rich and you should be drinking at least three glasses of it every day. Take it from me. Bessy
