### Farm Family Aid Studied

WASHINGTON (AP)—The Committee for Economic Development suggested today the government should explore the idea of offering financial aid to farm families who want to quit an overexpanded agriculture.

It suggested also that the government study the possibility of encouraging industrialization in rural areas.

The committee—which describes itself as a non-profit, non-political research and education organization supported by business concerns—said agriculture's present economic distress reflects too much production of some farm products, too much instability of farmers' income and too many full-time farm families with very low incomes.

There were, meanwhile, these other developments in the politically explosive farm situation: 1. A group of about 25 Midwestern Republican House members arranged to call on Secretary of Agriculture Benson to present proposals for emergency action to bolster prices. "We want action, and action now," said Rep. Lovre (R-ND), heading the unofficial nine-state delegation.

2. Sen. Young (R-ND) said "it will be a miracle" if Congress can act on new farm legislation before crop planting time. Young noted that the Senate Agriculture Committee on which he serves has just started to draft a bill, which then will require action by the Senate and the House.

### Anthony Eden Sails For U.S.

SOUTHAMPTON, England (AP)—Prime Minister Eden sailed today for the United States and talks reportedly will seek a pledge of joint U.S.-British air action against any major aggression by Israelis or Arabs in the troubled Middle East.

In a statement before leaving aboard the liner Queen Elizabeth, he said he hoped his trip would contribute "not only to the happiness and welfare of both our countries, but also to the peace of the world."

British informants said Eden will ask that the United States join Britain in a warning that air arms of the two big powers would move against any aggressor in the Arab-Israeli dispute.

These sources said he is ready to designate some Royal Air Force units based on Cyprus for such action in the event of large-scale violation of the Palestine armistice agreements or frontier lines. They said he may suggest similar stand-by instructions be given U.S. planes on two aircraft carriers of the U. S. 6th Fleet in the Mediterranean.

According to the informants, Britain feels that the 1950 U.S.-British-French declaration that they will prevent any forcible change of existing frontiers in the Holy Land already forms a commitment for the Western Big three, and that a pledge of air action would strengthen the existing guarantee.

Secretary of State Dulles said yesterday the U. S. and British governments have been talking out a possible formula for limiting atomic and hydrogen bomb tests and that subject may come up in the talks with Eden.

### Kefauver Raps Farm Policy

LA CROSSE, Wis. (AP)—Sen. Kefauver (D-Tenn.) said last night that the Republican administration "is leading the American farmer to the brink of bankruptcy."

The only immediate relief, he said, is the reinstatement of 90 per cent price supports for agricultural products.

The Tennessee senator, who captured the entire Wisconsin delegation to the 1952 Democratic National Convention, started his campaign for the state's 28 delegate votes this year with an address to about 300 Democrats.

The speech, first of five he plans in three days, was devoted entirely to farm problems and what he contended was the administration's failure to do anything about them.

Earlier, at a news conference, he said emphatically that he had no intention of withdrawing from the April 3 Wisconsin primary race in the event Adlai Stevenson decides to enter it.

He also said he was considering entering the Minnesota primary March 20, even though he had been advised by Sen. Humphrey, Democrat of that state, not to run there.

In his address, interrupted frequently by applause, he quoted from Department of Agriculture figures which he said showed that farm income had dropped four billion dollars from 1952 to the end of 1955.

"Obviously," he said, "this is another 'brink' policy of the Eisenhower administration."

"While Secretary Dulles brags about leading the nation to the 'brink' of war and then miraculously pulling it back, the administration and Secretary Benson are leading the American farmer to the brink of bankruptcy."

"I am convinced that the only immediate relief for the farmer will come from a reinstatement of 90 per cent price supports."

### EXPENSIVE VOTING

KANSAS CITY (AP)—The voting was pretty expensive at yesterday's special election in the Sixteenth Precinct of Kansas City's Second Ward. Only one vote was cast in the precinct among 530 persons registered. Bad weather held down the vote on issuance of bonds for city and state improvements but the proposals were approved. It was estimated the lone vote cost \$58 in precinct election expenses.

Eden and Foreign Secretary Selwyn Lloyd will fly to Washington immediately after reaching New York Monday.

### OLYMPIA GROCERY

Your Friendly Grocery Store  
**OPEN FOR BUSINESS AGAIN**

New Location — 2123 Holly St.  
between East Main and Martin

100% Food Store — Not a "Variety" Store

Best imported and domestic groceries, finest wines and ice cold beverages — fresh fruits and vegetables . . . finest genuine salami.
