Built and operated by U.S. Bureau of Reclamation, Montana's new Hungry Horse Dam generates over 280,000 kilowatts through its enormous power plant.

## It takes a GIANT...

It takes a giant to develop the massive amounts of power today's production requires. But it takes no less a giant to generate the sales power your advertising requires. When it comes to sales power, the newspaper stands like a solitary giant—a giant who lives in every town. Newspaper circulation is at an all-time high. Over 55,000,000 newspapers are bought daily. No matter what

you sell, you'll be able to sell it faster with newspapers. Last year advertisers spent \$2,695,000,000 in newspapers—more than they spent in radio, TV, magazines and outdoor combined! Today, every selling job is a giant selling job. Use a giant to do that job. Use the newspaper! All business is local... and so are all newspapers.
