

GATHERED FOR THE ANNUAL MEETING of the Oregon State Advisory Committee for Oregon Technical Institute on the college campus on February 5-6 were: seated, left to right, Mrs. Albert Powers, Coos Bay, Mrs. Leigh Gustafson, Medford, O. I. Paulson, Salem, state director of vocational education, Mrs. Victor E. O'Neill, Klamath Falls, member of the State Board of Education, and William G. Ross of Vale. Standing, same order, Edward Branchfield, Medford, chairman of the committee, Allan Leake, Helix, A. S. Teller, Portland, Jess Bell, Portland, Fred Heilbronner, Klamath Falls and Harley Libbey of Jefferson, Oregon. The committee reviewed progress of the institute and discussed plans for the future.

EVA TAYLOR, manager of Craig's Ladies Ready to Wear in Klamath Falls, which closed in January, has been transferred to Boise to serve as manager of Craig's Inc. in that city. Prior to serving with Craig's, she was manager of Leon's Tots-Teens for nine years.

OTI Advisory Group Meets

The annual meeting of the State Advisory Committee for Oregon Technical Institute was held February 5 and 6 on the campus, according to Director W. D. Purvine.

Mrs. Victor E. O'Neill, Klamath Falls, member of the State Board of Education and O. I. Paulson of Salem, state director of vocational education attended.

Members of the State Advisory Committee attending were Chairman Edward Branchfield and Mrs. Leigh E. Gustafson of Medford, Harley Libbey of Jefferson, William G. Ross of Vale, Jess A. Bell and A. S. Teller of Portland, Mrs. Albert Powers of Coos Bay, Fred Heilbronner of Klamath Falls, and Allen B. Leake of Helix.

A reception on the campus Sunday evening opened the meeting. All-day sessions on the mile-high campus reviewed progress during the past year and discussed a plan of operation for electives, the report of the Department Advisory Committee for Engineering Associates which met last Friday, and other immediate and long-range plans and needs, according to Purvine.

Scouts Given Display Awards

Window displays depicting camping activities of Boy Scouts and Cub packs, commemorating National Boy Scout Week were judged and awards given this week. Outstanding arrangements on the theme were placed in business windows in Klamath Falls and surrounding towns.

Judges were members of the camping committee of the local Boy Scout Council headed by Bob Cooper, chairman. Others were Tom Garrett, John Berg and Ken Cochran.

First place winners among the Boy Scout and the Cub Scouts were given engraved plaques. Second and third place winners received certificates. All others entering the contest received ribbons.

The results follow: first place went to Troop No. 40 Keno, displayed in the Rodonna General Store, Keno; second place, Troop 33, Malin, Wilde's Store; third place, Troop No. 73, Riverside School, shown at Joe's Sporting Goods Store.

Honorable mention went to Troop 6, Salvation Army, at the Gun Store, and Troop No. 7, Brethren Church, at Drew's Manstore at the Town and Country Shopping Center.

Cub Scout honors went to first, Pack 4, Mills School, Montgomery Ward; second, Pack 11, Henley, Rudy's; third, Pack 18, Fairhaven School, Don's Menswear.

Honorable mention to cub packs and places of displays: Pack 73, Riverside School, J. C. Penney's; Pack 33, Malin, Laird's Drug Store; Pack 34, Fort Klamath, Loosley's General Store; Pack 7, Merrill, Merrill Clothing and Pack 9, Pelican School, Balsiger Motor Company.

Sacred Heart Notebook

By BARBARA YOUNG
The Academy Trojans will play Bly to determine their position in the county conference. If they beat the Bobcats they will be in second place. After the game the juniors are sponsoring a dance and refreshments.

Sacred Heart will be host to the St. Mary's Crusaders Sunday, February 12. The Trojans will play the Crusaders Sunday afternoon and later St. Mary's will be treated to a dinner and dance to be held in the parish hall.

CONE WILL BE MISSED
MILWAUKEE — The Green Bay Packers may be hurting for a kicker of field goals and extra points next season if Fred Cone sticks by his guns and retires. Packer backers say Cone was about the best in the National Football League. He surely is a class with Cleveland's Lou Gross, often rated tops.

Director Purvine Addresses Meeting Of OTI Engineers

Members of the new Department Advisory Committee for Engineering Associates held their first meeting Friday, February 3 at the OTI campus with Director W. D. Purvine, Supervisor of Instruction H. A. Pedersen, Albert McVey, Brooks Custer, C. Fred Foulon, Jesse A. Crabtree Jr. and Edmund Watson of the faculty.

The members of the committee, comprising professional engineers and associated technicians are: H. Loren Thompson of Stevens and Thompson; Bertram G. Dick, chief of inspection, Bonneville Power Administration; Edward J. Jares of John W. Cunningham and Associates; Glenn V. Laverly, chief draftsman in the structural design section of the U.S. Corps of Engineers office; James J. Bonner, surveyor with the Pettijohn Engineering Company; and Kenneth H. Spies, assistant chief engineer with the State Board of Health, as a consultant, all of Portland.

From Salem are G. S. Paxson, assistant state highway engineer, and Frank Hall, state highway design engineer.

In his address to the committee, Purvine remarked: "We at the institute develop the bases for our curricula and consult with advisory groups. We may overlook something important or include something they feel not important. OTI is the producer; you (the committee) represent the consumer. Your contribution of advice and cooperation enables us to turn out a better product to help your profession."

Suggestions stressed by the committee included broadening the base of education for technical associates. Members felt there is a great need for training technicians in writing concise, intelligible reports whether they be to cover inspection, testing, or whatever.

It was also recommended that technicians should be trained to do a variety of things, and that they should understand the theory behind what they are trained to do, according to Purvine. It was pointed out that the average engineering employer may not be aware of how much the technical institute graduate is prepared to do.

However, Fred Brown, the company's manager of rocket engine marketing, told an informal news conference that GE's share of the Vanguard program is on schedule and that his company is geared to meet the initial launching date.

Brown exhibited a scale model of a "typical General Electric rocket engine." The model, 31 inches long and 10 inches in diameter, was described as half the size of the real engine. This might indicate that the first stage for the Vanguard satellite would be a rocket engine some five feet long and 20 inches in diameter.

The Navy, in charge of the inter-service project, has awarded the primary Vanguard project to the Glenn L. Martin Co., Baltimore. Martin subcontracted the first stage to General Electric, and the second to Aero-Jet General, Azusa, Calif. The third-stage contract has not yet been awarded.

The first GE stage consists of a rocket of 27,000 pounds of thrust, with a burning time of 120 to 140 seconds, designed to boost the satellite to an altitude of 30 or 40 miles.

The second stage would carry the basket-shaped, 23-pound satellite to a height of 130 miles, and the third stage would shoot it beyond 200 miles and send it orbiting around the earth, like a tiny moon, to help global scientific studies.

The last meeting of the current year will be held on Friday, February 17 at the Bonanza-Langell Valley Garden Club for the February meeting. Mrs. Dorothy Riese was the speaker who told of their origin, development and culture. The roll call was "Name a New Flower You Intend to Grow This Year." Hostesses were Vi Brown, Jesse Spillane and Frances Jacobs.

The topic will be "How to Place Shrubs" by Betty Peppie. Beginning with the month of March the current new year starts and meetings will be held twice a month until fall. Members of the year book committee have had several meetings and the new books are about ready for the printers.

Eisenhower made no mention of that in a brief letter which extended his best wishes and praised Gardner for "the energy you have displayed in your work."

Gardner, completing three years as Air Force chief for research and development, will step aside Saturday. His successor has not been named.

Cadillac

His Favorite Investment!

"It's the wisest motor car investment I ever made!"
"I've owned a great many makes through the years, but Cadillac wins my vote as the finest investment of them all."
"In my book, it is the best dollar investment on the highway today!"

We can't tell you how many times we've heard it. In fact, Cadillac's value and economy have become favorite topics of conversation among Cadillac owners everywhere.

And their sentiments are based on some very substantial facts about the "car of cars."

First of all, there's the economy of *buying* a Cadillac. Many models are actually priced competitively with the "medium-priced" makes.

Then there is the economy of *operating* a Cadillac. Cadillac's gasoline mileage is simply phenomenal for a car of its size and stature

... and its dependability is truly extraordinary.

And, finally, there is the economy that comes from Cadillac's great value. In resale markets all across the land, the Cadillac car traditionally returns a higher percentage of its original cost than any other automobile built in America.

And consider what generous dividends Cadillac owners receive from their investments.

... Cadillac's superlative beauty and luxury ... Cadillac's magnificent performance and comfort ... and Cadillac's wonderful reputation among the world's motorists.

We suggest that you pay us a visit soon and investigate the latest and finest Cadillac investment of them all.

We have the car ... and the keys ... and the facts—and we'll be happy to give you all three at any time. Why not make it today?
