Siskiyou Problems To Be Talked

TULELAKE—The proposed one per cent sales tax, completion of the Hill Road into the Lava Beds National Monument and discussion of assessment rates on commodities in storage as of March 1, will be taken up with the Siskiyou County Board of Supervisors by a Tulelake committee on February 14.

Members of the newly created Business Men's Committee which will function with the Tulelake Grower's Association, J. Pitts Elmore, manager of the Klamath Project, U.S. Bureau of Reclamation, Klamath Falls, James Stearns, Tulelake, Modoc County supervisor and Clifford Jenkins, TGA manager, will be among others meeting with the board.

James Allen, Dorris, is chairman of the board.

The Tulelake Growers Association has gone on record as opposing the one per cent tax, passed a year ago by the California state legislature to be added upon discretion of counties and cities of the state to the three per cent tax already in force on all commodities sold except food.

While the tax is not mandatory, it provides for acceptance by either the county or city, the tax to revert to the county in event it is turned down by the city. Revenue from the tax would go into the general fund, and would not be earmarked for special appropriation.

Tulelake's annual income from the tax would approximate $15,000. Many of the cities in the state have already accepted the added assessment.

The delegation will also discuss at length, with Babe Taylor, Siskiyou County assessor, assessment rates on agricultural commodities which will be in storage on March 1 in the interest of establishing a fair valuation on holdover potatoes, grain and hay.

Completion of the Hill Road, into the Lava Beds National Monument, one of the main arteries into the monument, with federal funds will be taken up.

A stretch from the Ainsworth corner to the East West Road, was completed last year with Siskiyou County road funds. Continuance of the road from the E. Webb Staunton ranch into the monument will be sought with the representatives suggesting the use of government money for the hard surface job, future maintenance to be the obligation of Siskiyou County.

Assistance of U.S. Congressman Clair Engle and California State Senator Randolph Collier on the road project is being asked.

The stretch, now rough, with a gravel surface, is between seven and eight miles in length.

Officers of the new Business Men's Committee that will work in the interest of business promotion and community service are Dick Moore, president; Lloyd Barber, Webb Bowen, Don Poiter and Bill Ganger.

Autopsy Set On Duffy

Dr. George H. Adler, Kamath County coroner, announced he would perform an autopsy Monday afternoon on the battered and frozen body of Edison Duffy, 50, which was discovered by two school boys Saturday, 1 mile north of Klamath Falls.

Investigators believe Duffy may have been the victim of foul play. Bobby Clark, 12, and Don Jones, 13, discovered the body while gathering bottles at the foot of an embankment near Highway 97. They called state police.

Investigators believe Duffy may have been killed elsewhere and the body dumped over the embankment from an automobile.

County jail records show the victim was sentenced to Oregon State Prison after conviction of manslaughter in 1933. He shot Josephine Jackson of Beatty. Last month Duffy served a county jail sentence for drunkenness.

Minor Wrecks Mar Weekend

There were no injuries in any of the three minor traffic accidents reported on Saturday and Sunday by Klamath Falls and Oregon State Police.

Oregon State Police officers cited Jay Edgar Thomsom, 3224 Cortez Street for being drunk on a public highway after autos driven by him and Delbert Everett Case, 3003 Harvard Street, collided at the intersection of Highway 97 and Riverside Street.

Police said Thomson's southbound auto hit Case's vehicle headon while Case was stopped at the stop sign on Riverside.

Robert Allen Pierson of Eugene was cited by state police on charges of failure to yield right of way after an accident at 1 p.m. Saturday at the intersection of Shasta Way and Avalon Street.

According to the police report, his auto, northbound on Avalon, collided with an auto driven by Mrs. Margaret P. Elliott, 2686 Radcliffe. Mrs. Elliott, westbound on Shasta Way, skidded for about 36 feet when she applied her brakes, police said.

Both autos were heavily damaged.

In the accident reported by city police, a pickup truck driven by Rolla Larkey rolled backward into a parked auto owned by Virginia Gutenberger, 710 Main Street. The driver of the pickup told police that the engine on the truck failed and wouldn't start. While the driver was attempting to start the vehicle, it rolled into the Gutenberger car, police said.

Weed Police Nab AWOL's

WEED — Two men, wanted by the Presidio at San Francisco on charges of being AWOL, are in custody of the Weed police today.

The soldiers, Don Galloway, 21, former Weed resident, and William Thomas, 21, home address not known, were apprehended by Weed police and members of the California Highway Patrol after patrolmen spotted the car Thomas was driving as tallying with the description of a stolen car.

The car was seen about 11 p.m. Sunday night approximately four miles south of Weed. When the patrolmen signaled the driver to stop, he turned off the highway onto a side road west of the Fawn Club. The fleeing car became trapped in the snow after a two and one-half mile chase during which Galloway escaped.

Thomas and Galloway's wife, who was a passenger, surrendered to the officers and were returned to Weed. Galloway was arrested in Mount Shasta early this morning by Mount Shasta police.

Army headquarters in San Francisco reported on January 30 that Galloway and Thomas were AWOL and might be driving a car which had been stolen in San Francisco about that date. The bulletin stated that Galloway was already under investigation on AWOL charges that he had left the U.S. Army in Germany without permission.

When apprehended, Thomas was driving the stolen car which had been repainted. The California license plates had been replaced by Oregon plates said to have been stolen in Klamath Falls.

The Presidio has been notified and the men are being held for the Army.

TRANSFERRED

ALTURAS — J. W. Trask, district engineer for the California Division of Highways since 1950, has been transferred to Marysville to take charge of the district office there. He replaces A. M. Nash who is being transferred to the San Luis Obispo office.

Trask faces the job of repairing the storm-damaged state highways in the Marysville and Yuba City district in his new post. He will be replaced by H. S. Miles, assistant district engineer from San Francisco.
