SEARS ROEBUCK AND CO.

better because . . .
Precision tilting-arbor cuts—table always stays level, work lies flat regardless of the angle being cut

better because . . .
Single-lever, double-locking fence squares against table, not guide bar for perfect alignment

better because . . .
Floating motor mount eliminates need for special motor controls. Bell tension, smother vibration

better because . . .
"Mano-Control" for easy adjustment. Single wheel controls lowering, raising and tilting of blade
