Knowland Tells Election Stand

WASHINGTON, N. C. (AP)—Sen. Knowland (R-Calif.) says he thinks President Eisenhower can be re-elected through a television campaign but that other Republican office-seekers might be hurt if the President fails to make a more active campaign.

1. He is not a candidate for vice president. 2. He assumes the GOP presidential ticket again will be Eisenhower and Vice President Nixon. 3. The Republicans can beat the Democrats again.

Knowland said the administration has made a good record in the last three years. He said the budget has been reduced, taxes have been reduced, wages and price controls have been abolished and a good business system has been restored to the federal government.

Knowland said the "present course of the Democratic Party means that it will be taken over by the Americans for Democratic Action and the CIO with its being modeled after the British Labor Party."

AF Globemaster Wheel Collapses

PORTLAND (AP)—The nose wheel of a mammoth Air Force Globemaster plane collapsed on landing here Wednesday night, and 28 of about 70 men aboard suffered hand burns from sliding down an escape rope.

The airman, returning from training in the South, were ordered from the plane because of the possibility of fire. Some of them slid down the rope too fast and suffered painful burns. One airman suffered a bone fracture in a heel in his rapid fall.

The plane, its tail in the air as high as a two-story building, was towed to the maintenance line where mechanics said repairs would require about 10 hours of work.
