

BISCUIT FASHIONS vary from one part of the United States to another. In New England, biscuits are tall and fluffy, while in Georgia rich small rounds are in vogue. Betty Crocker suggests recipes for various types of biscuits.

BISCUITS

North, south, east, west—explore other parts of America by recipe! Experimenting with regional cookery in your own kitchen will take you and your family on excursions in good eating.

Start with biscuits. From Maine to Georgia to Texas—round the country—biscuits vary in size and shape. Regional differences in type and amounts of ingredients transform biscuit dough into layers of fine texture—or into small rich and crisp rounds. Travel with regional recipes as your guides.

First, on hand for the South where biscuits are crusty thin, brown and pebbled. The recipe will probably call for bacon fat and sour milk or buttermilk, for home-makers south of the Mason Dixon line prefer a very flaky flavorful biscuit. Bake them bite-size and serve hot with a dab of butter—Southern biscuits are a perfect accompaniment to almost any meal.

Then, when a biscuit for butter and jam is in order, travel the New England road. There, dough is rolled or patted thick, about 1/2 inch, for a tall and fluffy biscuit that splits open into layers of delicate texture. In New England biscuit dough also teams up with fruit, cobbler and meat pies.

Want to visit the great plains? Cornmeal plays a role in midwestern recipes. And instead of the usual biscuit rounds, dough is often cut into diamonds—a nice way to add biscuit interest. Smother these cornmeal diamonds with creamed chicken or ham to spark a Sunday night supper.

These regional recipes have been tested in the Betty Crocker kitchen using Gold Medal flour:
