

Adlai Reaffirms Stand On Segregation Ruling

LITTLE ROCK, Ark. (AP)—Adlai E. Stevenson carried his presidential campaign into the South today, and at his first stop, reaffirmed his belief the Supreme Court was "right" in ruling against segregation in the nation's public schools.

But the Democratic nominee also said he stands squarely on the party platform statement that "we reject all proposals for the use of

force to interfere with the orderly determination of these matters by the courts."

In an address prepared for delivery in MacArthur Park, Stevenson thus expressed in substance the same views he set forth last month a few days before he won his party's presidential nomination. He said today:

"The Supreme Court of the United States has determined unanimously that the Constitution does not permit segregation in the schools. As you know, for I have made my position clear on this from the start, I believe that decision to be right.

"Some of you feel strongly to the contrary.

"But what is most important is that we agree that once the Supreme Court has decided this constitutional question, we accept that decision as law-abiding citizens.

"Our common goal is the orderly accomplishment of the result decreed by the court. I said long ago, and I stand now squarely on the plain statement, adopted in the Democratic platform, 'that we reject all proposals for the use of

force to interfere with the orderly determination of these matters by the courts."

Stevenson set forth his position anew against the background of violence which has occurred in some sections of the South, where efforts have been made to integrate white and Negro school children.

The Democratic candidate noted that the Supreme Court's ruling "provides for the ways and means of putting into effect the principle it sets forth." And he expressed confidence "that this decision will be carried out in the manner prescribed by the courts."

Stevenson jabbed at President Eisenhower in declaring that he (Stevenson) has "repeatedly expressed the belief that the office of the presidency should be used to bring together those of opposing views in this matter—to the end of creating a climate for peaceful acceptance of this decision."

Eisenhower, while deploring the violence which has occurred in the South, has taken the position that the federal government should not intervene in any way unless it should become clear that the states and local communities are unable to deal with the situation.

Rain, Wind Hit Southeast

By THE ASSOCIATED PRESS

Heavy rain and strong winds swept sections of the Southeast again today but Hurricane Flossy appeared weakening since moving inland from the Gulf of Mexico. Nine deaths were attributed to the hurricane in its sweep across the Gulf to the northwest Florida coast.

Severe winds were reported in most of the area from extreme Western Alabama eastward to the coast and from north Florida northward into South Carolina.

The Weather Bureau said Flossy would continue to weaken as it moves into Georgia.

Pleasant autumn weather was reported in nearly all other sections of the country. There were scattered light showers in New England and at Amarillo, Tex.

HORRIBLE COLOR

CHARLOTTE, N. C. (AP)—Mrs. O. Z. Russell, 74, thinks yellow, except in flowers, is a horrible color. And when a yellow fire hydrant was installed in front of her home she telephoned her objection to City Manager Henry Yancey. He asked the highly respected retired school teacher the color she'd like to have the hydrant. She said white, and today it is the only white fire hydrant in the city.
