

Flossy Kills 13 During Brief Show

By THE ASSOCIATED PRESS

Hurricane Flossy, downgraded to storm status with half of its punch gone, swirled into the Atlantic today off the South Carolina coast. The season's sixth tropical storm left 13 dead and at least that many missing, plus property damage in the Gulf estimated at several million dollars.

The Miami Weather Bureau said the storm would regain some force after reaching the ocean north of Charleston, S.C., but probably not enough to get back into the hurricane class.

Flossy formed suddenly in the Gulf Saturday, aimed its center for a time at New Orleans, then swerved eastward and slammed the northwest Florida coast with 100-mile-an-hour winds late Monday. The storm's northeasterly journey brought drought relief to Georgia before skipping out over the Atlantic. More than 5 inches of rain were dumped on parched farm lands.

Belated reports of deaths and property damage sent both totals soaring. Latest victims listed were Mrs. Vera Daniels, 45, of Columbia, Miss., who drowned when her car plunged into a water-filled ditch; George Stewart, 21, and Robert Washington, 24, who toppled overboard and drowned when a wind gust hit their tug near Jacksonville, Fla.; and Capt. Robert D. Willerford of Sepulveda, Calif., who died in the wreckage of his plane after it collided with a second jet which crashed into a home near Tallahassee, Fla., and killed a mother and her three children.

The hurricane hit Grand Isle, popular Louisiana vacation resort, destroying the Grand Isle Hotel and many houses and boats on the six-mile-long island. Damage was estimated at several millions of dollars.

Flossy churned high tides in its wake near Panama City, Fla., and caused damage estimated at \$300,000. Damage to oil drilling equipment in the Gulf had previously been estimated at two million dollars.

Still missing were about a dozen fishermen and an undetermined number aboard the tug Rosalie E. somewhere in the Gulf.

Citizenship Class To Start

An American citizenship class will begin at 7:30 p.m. Tuesday, October 2, in Room No. 308 in KUHHS. A \$10 charge per person will be assessed for the 10-week course.

In charge of the course will be Paul Deller, KUHHS American Government instructor.

In addition to the above class, persons wishing help with the English language may call Don Ross at TU 4-9785.

SPLIT FAMILY

MILLINGTON, Ill. (AP) — When the James Kepka family sits down to dinner, half of them are in Kendall County and other half in LaSalle. The county line runs through their dining room and also between several bedrooms. The Kepkas pay their real estate taxes in LaSalle County and their personal taxes go to Kendall County.

DIRT FLEW when this crew got busy on shovel handles for laying pipe at the new Kiwanis Park on Kit Carson Way last weekend. Hundreds of feet of pipe for the underground sprinkling system is being laid with volunteer help. This group was on hand Saturday. Front row, left to right, are Larry Brown, Mike Ladouceur, Local Union (plumbers) No. 191, Dick Pearson, Paul Hanna, plumber's union member, Floyd Wilson, resident manager of Carlson Products Corporation and Stan Miller, president of the Klamath Falls Kiwanis Club. Back row, same order, Dr. E. M. Causey, George Wardell, Vinc Bousquet, Marion Grant, Greer Drew, John Holzgang, John O'Neil and Lowell Kaup. "Red" Franklin is in the grader cab.

Full Rally Program Set

A full program of events is scheduled for the United Fund-Red Cross rally scheduled for next Monday night, according to Bill McSpadden, rally chairman.

The evening rally, which is planned to launch the 1957 "Operation Fair Share" and dedicate the United Fund drive symbol, will start at 8 p.m. with a parade down Main Street. Marchers will proceed from Main and Spring and Second and Klamath and converge at Eighth and Main.

Rally officials said Eighth Street will be blocked from Main to Pine during the rally to allow for the program.

"Genial" John Houston will act as master of ceremonies, and entertainment will feature the Barbershoppers, widely acclaimed Klamath Basin song group.

Officials of the fund drive, including Noel Flynn, chairman and his associate chairmen, T. J. McCarty and Jack Otterbein, will be introduced.

McSpadden said participation is planned from all over the county.

and that the public is urged to attend.

Izaak Walton League Head Favors Snake River Dams

WASHINGTON (AP) — The president of the Oregon Izaak Walton League told the Federal Power Commission Tuesday his group favors construction of dams at the Pleasant Valley and Mountain Sheep sites on the Snake River.

In a statement read at an FPC hearing on the Pacific Northwest Power Co.'s application to build dams at those two sites, Rollin E. Bowles of Portland said the league felt the benefits of the two dams "would outweigh any harm" to wildlife and fish resources.

Bowles' statement was read at the hearing by Arthur G. Higgs, an assistant Oregon state attorney general.

Another Oregonian, Gordon H. Fernald, an Army engineer from Portland, was questioned closely by Mrs. Evelyn Cooper, attorney representing private power groups advocating the construction of federal dams on the Snake, about the Army Engineers' main control plan for the Columbia River system.

Fernald said Army Engineers estimate there is a need for reservoirs impounding 21 million acre feet of water on the Columbia system if complete flood control is to be attained.

He said reservoirs which would impound 10 million acre feet now have been constructed or soon will be.

Touching on other points in the overall plan, Fernald disclosed the following in response to questions from Mrs. Cooper:

1. The Army Engineers do not plan to recommend construction of a federal dam at Nez Perce on the Snake River because such a structure would interfere with a valuable salmon run.

2. Downstream flood control benefits would be realized from Columbia River dams proposed by Canada at Mica Creek and Arrow Lake.

3. The Army Engineers have submitted favorable reports to Congress on federal construction of dams at Brucers Eddy and Penycliffs on the Clearwater River in Idaho and has completed studies on proposed federal projects at Mountain Sheep, Pleasant Valley and Kookkia.
