
WOW — a room of his own — a yard to play in — plus a place to keep a dog! No wonder our artist was so excited about his family's new house. And Johnny's thrill and pride are multiplied many times over in the hearts of his Mother and Dad.

Home ownership is one of the *big* things in a family's life, and one of the many big dreams that will come true for you — *if* you invest regularly in United States Series E Savings Bonds.

Say you start buying a Bond a month at $37.50, 5 years from now you'll have Bonds worth over $2,300 in cash — in 9 years and 8 months, over $4,900 — enough to turn your castle-in-the-air into a brand new ranch or split-level home.

Your principal invested in Savings Bonds is absolutely *safe* — not subject to market fluctuation. Your returns are *sure* — an average 3% interest compounded semiannually when held to maturity.

So stop just dreaming about buying a house and start making that dream come true for yourself and the whole family. Do it the safe and sure way by buying U.S. Savings Bonds regularly where you bank or sign up for the Payroll Savings Plan where you work.

For the big things in life, be ready with U.S. Savings Bonds.
