

Adlai Renews Charge Of 'Big Business' On GOP

By THE ASSOCIATED PRESS
Adlai E. Stevenson renewed his charge today that the Eisenhower administration is a "big business single interest government."

President Eisenhower, who said Stevenson has been telling "political fables," promised to push a school building program "with all the force at my command."

The rival candidates made these statements in speeches prepared for political rallies as they stumped half a continent apart.

Stevenson, the Democratic standard bearer, was whistle-stopping by train through northern and eastern Ohio while Eisenhower continued to range the West Coast.

Last night both men hacked away with some of the most cutting words they have used so far in the 1956 political battle.

Stevenson's thrust at what he called the "creeping complacency" of the Republicans came in remarks read for a rally at Akron, Ohio.

The Democratic presidential nominee said Eisenhower has a "Cadillac Cabinet" that Stevenson said "fears nothing as much as change."

Eisenhower's pledge to go all out for his five-year school construction program which foundered in Congress last summer —

Railroad Pay Pact Looms

CHICAGO (AP) — An agreement for a three-year contract providing substantial pay increases for more than a million railroad workers was reported imminent Thursday between the country's carriers and a score of unions.

Reports that a tentative agreement had been reached with "package" wage increases totaling roughly 25 cents an hour over the three-year period, subject to approval by the full negotiating committees, were not immediately verified.

However, reports in the rail industry and union circles Wednesday night were that both sides had exchanged informal settlement offers.

There have been hints a settlement will provide a wage hike of about 10 cents an hour for the first year of a three-year contract, with provisions for adjusting the rates according to living cost changes.

Although current pay rates vary widely, annual earnings of rail workers are around \$5,000 to \$7,000 a year, depending on skills.

Some of the unions representing some 200,000 operating employees have also proposed the same welfare plan coverage as the carriers now provide the more than 800,000 nonoperating workers. These include hospital, medical and surgical benefits. Some unions have asked for holiday concessions and shorter working hours.

Navy Operation Hits Blizzard

AUCKLAND, New Zealand (AP) — A white-out blizzard Thursday, one of the antarctic's worst features, held up the third flight of U. S. Navy planes to McMurdo Sound for this year's Operation Deepfreeze.

Six Navy aircraft barely reached the airstrip after a 2,250-mile overnight trip from New Zealand, before communications almost blanked out.

A four-engine C54 Skymaster and twin-engine Neptune which left Wednesday night reportedly reached the antarctic about 8:30 a.m. About 2½ hours later four two-engine C47 Dakotas landed at McMurdo Sound on the Ross Sea. The flights were about two hours behind schedule.

LAKEVIEW WINNER

BOSTON (AP) — Ross Dollarhide of Lakeview, Ore., won the steer wrestling event at the touring world's championship rodeo Wednesday night. Dollarhide downed his steer in 5.2 seconds.

Danny Daniels of Medford, Ore., was runnerup to Dollarhide.

Mark Hatfield will serve ALL the people ... not just one party!

Putting it bluntly, the voters of Oregon are faced with choosing between Mark Hatfield, a man who will serve all the people of Oregon and another candidate who has been consistently a party tool. The Secretary of State's office is one that must operate with impartiality and with complete service to every one and every part of Oregon.

Nominated to the State Senate in 1952 by both parties and recipient of a substantial write-in vote in the Democratic Primary last May, Mark Hatfield is the man to do the job the way it can and should be done. We urge you to vote for him.

Many publishers support him. The Eugene Register-Guard says this of Senator Hatfield:

"We know him well enough to know that if he is elected he'll do everything he can to be the best Secretary of State any state ever had."

Railmen Support D. R. Vandenberg

More than 2,300 members of the Brotherhood of Railway Trainmen in Oregon have endorsed the candidacy of Circuit Judge David R. Vandenberg of Klamath Falls for justice of the Oregon Supreme Court.

Gerald Rutledge, representative of the brotherhood, said that when the legislative committee of the union met some weeks ago it was decided not to endorse a candidate for the supreme court post.

However, after Judge Vandenberg belatedly filed for the position, the union gave him its endorsement. In announcing the endorsement, Rutledge said:

"Judge Vandenberg has been circuit judge in Klamath County since 1941. He practiced law for 15 years before going to the bench. We feel that Judge Vandenberg would be an extremely valuable member of the Oregon Supreme Court because of his wide experience."

Final Festival Plans Made

MERRILL — Final plans and preparations for the 20th annual Klamath Basin Potato Festival were the main issue at the regular business meeting of the Merrill Lion's Club held on Monday evening, October 15 at the recreation hall.

Wilbur Brickner, Lions president and general chairman of the Potato Festival, presided over the meeting. Reports from various committee chairmen indicated that everything was in readiness for the three day festival, October 19-20-21.

Jim Chance, principal of Merrill High School, expressed hope that more people would attend the high school football games this year.

Nineteen Lions members were served a dinner prepared by the Merrill Business and Professional Women's club prior to the meeting.

Seaton Speaks On Needs Of Future Power Plants

CHICAGO (UP) — Secretary of the Interior Fred A. Seaton said today it will take "every penny dollar available" from public and private sources to "finance and build" the power plants needed for the nation's expanding economy.

Speaking before a meeting of the Audit Bureau of Circulation, Seaton said it would cost some \$40-billion in the next decade to construct facilities "to keep up with the demand" for electrical power.

The secretary also revealed that the Federal Power Commission estimated at least \$94 billion would be necessary during the next 20 years for investment in new power plants and transmission lines.

Seaton said public and private sources of finance necessary for construction of power facilities was the "compelling reason for the partnership or 'work-together' program" for which the Eisenhower administration stands.

Seaton also predicted water pipelines eventually will crisscross the nation as petroleum lines do now, transferring water to the thirsty areas of the country.

Water tables have sunk 25 to 50 feet in many sections of the country during the last 10 years, he said, "and if we are not careful ... we will one day find that we have mined out the water from under substantial areas of our land."

The average daily consumption has risen in the last 20 years from 128 gallons to 145 per person, and including farm uses and the "staggering amounts" required by industry, the daily per capita requirement stands at 1,200 gallons, Seaton said.

Only 27 per cent of the rainfall in the 17 western states is put to use, Seaton said, and only eight per cent of the water available in the eastern states is used.

"We are still a long way — though not a discouraging distance — from being able to furnish water from those sources for industrial and agricultural uses at a price which would permit economical utilization," he said.

But he predicted that networks

Coon Slates Talk Tonight

Congressman Sam Coon will continue his week-long campaign in this area tonight with an appearance at a "Meet your Candidate" public meeting at 8 o'clock at Twyla Ferguson School.

The lawmaker shared speaking honors Thursday noon with Senator Richard Neuberger at a Kiwanis luncheon at the Willard Hotel.

The Congressman and Mrs. Coon and other local candidates attended a series of coffee hours throughout Wednesday and Thursday at various homes in Klamath Falls.

A dessert coffee has been scheduled for tonight at 7 o'clock at the home of Mrs. Dick Henzel on Lakeview Highway, followed by the public meeting at Twyla Ferguson School.

Coon will talk to workers at the Bly lumber mill Friday afternoon, and then he and Mrs. Coon will be guests at another coffee hour there at the home of Mrs. Dave Campbell.

He will drive from there to Merrill for the annual Potato Festival banquet. The congressman will campaign in Malin Saturday morning and then be on hand for the Potato Festival Barbecue at Merrill that afternoon.

FALSE DRAFT CARDS

CINCINNATI (AP) — Police arrested Paul Curtis, 18, of Cincinnati, who, they said, had been selling "false draft cards" to juveniles.

Investigators said Curtis made reproductions of his own draft card using a photostat machine where he worked. Police quoted Curtis saying his "customers" wanted the cards for proof of age for leaving school and getting jobs.

Who uses your car? How is it used?

Your answers may save you money!

If you are a "careful driver" and use your car for driving to work and for pleasure ... State Farm insurance may save you money. Plan guarantees you pay only the minimum amount needed to protect car owners like yourself. Call me for complete information about State Farm rates.
