

# Eisenhower Heads Into Dixie Today

By MERRIMAN SMITH  
United Press White House Writer  
WASHINGTON (UP)—President Eisenhower, declared in "excellent health" by his doctors, resumed his reelection campaign today with a one-day swing into the segregation-conscious Southland.

Mr. Eisenhower flew to Florida to address airport rallies at Miami and Jacksonville. On his return flight to Washington, he will speak at a similar rally at Richmond, Va.

There are 10 electoral votes at stake in Florida and 12 in Virginia. In 1952, Mr. Eisenhower won both states from Adlai E. Stevenson — Florida by a margin of 99,086 votes and Virginia by 30,360 votes.

## EXCELLENT HEALTH

Mr. Eisenhower spent part of Saturday and most of Sunday at Walter Reed Army Hospital undergoing a "head-to-toe" physical examination. Afterwards, his doctors announced that he had "every appearance of being in excellent health."

Dr. Paul Dudley White, the Boston specialist who treated Mr. Eisenhower after his heart attack, said that in view of the results of the tests he had no doubts about Mr. Eisenhower's ability to stand up under the rigors of the political campaign.

While Mr. Eisenhower was completing his physical checkup, he received and dispatched messages in connection with the mobilization of armed forces in Israel.

## CHIEF WITH DULLES

The Chief Executive, "gravely concerned" over the Middle Eastern situation, conferred several times by telephone with Secretary of State John Foster Dulles, and held a personal conference at the hospital with Undersecretary of State Herbert Hoover Jr.

The President planned to return to Washington late this afternoon. He will remain in Washington Tuesday before starting out on another one-day trip Wednesday, when he will speak in Dallas, Tex., Oklahoma City, Okla., and Memphis, Tenn.

On Thursday the President is scheduled for a nationwide television speech from Philadelphia.

THE SOCIETY OF AMERICAN FORESTERS wound up their Columbia River Section meeting in Klamath Falls Saturday after a two day meeting dedicated to the theme of "Progress in Pine Management." Shown at one of the afternoon sessions are (left to right) Roy Johnson, chairman; Jim Sowder, who was the main speaker at the afternoon meeting on Saturday; Robert Harris and George Meagher. During the meeting members visited the reservation for a study of timber cutting methods, took a tour through the lower Klamath Wildlife Refuge and indulged in a little extra-curricular duck hunting.

# Politicians Keeping On The Move In Oregon As Campaign Nearing End

By THE ASSOCIATED PRESS  
Political party leaders turned their attention on the Portland area Monday as the campaign went into its final full week.

Both Democratic Sen. Wayne Morse and Republican Douglas McKay, matched in the state's most heated race, announced their intention of concentrating on that area, which has the state's heaviest concentration of voters.

McKay started off on a hand-shaking tour of Portland industrial plants. He said he would do more of the same Tuesday, then make three speeches Tuesday night. His only departure from the Portland area will come on a overnight campaign trip to Bend Friday.

Morse was to speak before a labor group at San Francisco Monday, then to fly back to speak at a nighttime rally at Milwaukee, a suburb south of Portland. He will spend much of the rest of the week in Portland.

Morse spent the weekend campaigning in Southern Oregon. So did other Democrats, following Vice President Nixon's speech at Medford Friday night.

Morse spoke at Medford Saturday and in Curry County Sunday. Charles Porter, Democratic candidate for Congress, in the fourth district, and C. Girard Davidson, Democratic national committeeman for Oregon, spoke at a rally in Coos Bay Sunday night. Monroe Sweetland, Democratic candidate for secretary of state, spoke at

# UN Delegates 'Satisfied'

UNITED NATIONS, N. Y. (UP)—Western U. N. delegates expressed satisfaction Monday over the solid support they received both inside and outside the Security Council for their effort to end the bloodshed in Hungary.

Messages poured in from governments all over the world backing up the West's demands that Russia halt her military intervention. Some Western diplomats felt that this public pressure, plus the reported demands of the Hungarian government, might produce results.

The council recessed its discussions temporarily after 5 1/2 hours of debate in an extraordinary Sunday session. Private talks were in progress to determine what the next step would be.

In the council debate the Soviet Union failed to rally a single country to support her claim that the United States had started all the trouble in Hungary and that Soviet troops were only helping the Hungarian government restore order.

The Western delegates made no formal proposals to the council but directed their demands directly at Russia. In some cases, the language was sharp.

# White House Keeping Eye On Middle East As War Fears Flare Anew There

By JOHN SCALI  
WASHINGTON (UP)—President Eisenhower and his top aides were reported gravely alarmed today at the possibility that war may shortly break out in the Middle East.

Only the highest order of Israeli-Arab statesmanship, they were said to feel, could avert a Middle East explosion. Officials were described as looking mainly to Israel's Prime Minister, David Ben-Gurion, as the man who held the decision.

With war jitters mounting, Israel was reported to have mobilized from 150,000 to 200,000 men along its frontiers.

Eisenhower issued an unusual public appeal to Ben-Gurion that "no forceful initiative be taken which would endanger the peace."

"We have not heard of such large-scale mobilization in countries neighboring Israel which would warrant such Israeli mobilization," he said.

The State Department last night advised from 7,000 to 8,000 Americans in Israel, Jordan, Egypt and Syria to leave immediately unless they are "performing essential functions."

Secretary of State Dulles, minutes after returning to the capital from Texas, conferred by telephone several times with Eisenhower. He later summoned Israeli Ambassador Abba Eban to the State Department to back up Eisenhower's appeal with his own plea.

A responsible official, who is closely following developments, told a reporter it was impossible to overstate the seriousness of Arab-Israeli tensions. He said the next 24 hours would be critical.

The United States is urgently hoping, he said, that Eisenhower's public plea will cause Ben-Gurion and Arab leaders to take a sober second look at where their policies are leading.

This official, who asked not to

with Dulles he sent a personal message to Ben-Gurion. The President said this message expressed "my grave concern" and backed up a "previous recommendation that no forceful initiative be taken which would endanger the peace."

Eisenhower said he cabled his third appeal to Ben-Gurion yesterday after "additional reports which indicate that the Israeli mobilization has continued and has become almost complete."

Diplomatic officials said Israel's mobilization amounts to virtually complete calling up of all its armed forces. Israel has described it as "partial mobilization."

Israel has maintained that it mobilized because it fears a sudden attack by its Arab foes. In a speech last night after meeting with Dulles, Ambassador Eban told a Greater Washington Jewish National Fund dinner:

"We cannot agree that our neighbors have a right to send armed units across the frontier into Israel to kill, maim and plunder, and then claim the immunity of the armistice line to protect them against any defensive response."

"Not one single government which advocates such passivity for us would ever dream of applying it to itself."

Eban said it is Israel's policy "to start no war" but that it could not surrender what he called "the inherent right of self-defense."

He said President Gamal Abdel Nasser of Egypt has converted the Middle East into "a seething ocean of nationalist passion and anarchy," and that the Israeli's "have reason to fear an attack upon us by neighboring states."

Eisenhower reported that in addition to appealing to Israel, he sent special messages to "other Middle Eastern states"—presumably Jordan, Egypt, Syria and other Arab League members.

He said this government has started consulting Britain and France about the situation, in line with a 1950 Western Big Three pledge to take joint action to maintain peace and curb any aggression in the Middle East.

# Chill Air Covers PNW

By THE ASSOCIATED PRESS  
Chill air and rain was reported in the Northwest today while the rest of the country had generally warmer weather with partly cloudy skies and scattered rain.

A cold air mass hovered over the Northwest from the Dakotas, Colorado and Utah into most of California. Temperatures ranged from the 20s in the north to the lower 50s in southern California. Showers were expected in Washington, Oregon and northern California and scattered snow flurries were on tap for portions of the Rockies.

Lower temperature readings were forecast today from Minnesota to Iowa and Kansas and in the Far Southwest.

## RETURNS

HONG KONG (UP)—Pakistan Prime Minister H. S. Suhrawardy returned from Peiping Monday but had little to say about his 12-day visit to Communist China.

### ARE YOU INTERESTED IN THESE DOCUMENTED FACTS? (They Concern You)

#### FELLOW AMERICANS: ARE YOU SURE FLUORIDATION IS WHAT YOU WANT?

**FLUORIDES:** "Fluorides are a virulent poison to all living tissues because of their precipitation (removal) of calcium." (From "Dispensary of the USA, 24th Edition.") Boiling concentrates fluorides in water. Chlorine is a chemical destroying harmful bacteria, and is itself destroyed when heated.

The American Water Works Assn. Journal of September 1951, published: "Fluoride solutions have been found to DESTROY STEEL PIPE rapidly."

A letter, dated Feb., 24, 1955, from John F. Raper, Attorney at Law and former City Attorney of Sheridan, Wyoming, states in part:

"People here in Sheridan are very much concerned as to what, if any, damage sodium fluoride has done to our entire water system. We have had an epidemic of bursted water pipes, and our Water Commissioner exhibited to our City Council certain pieces of our water equipment which clearly indicated it had been eaten out and completely damaged and destroyed by sodium fluoride. There has also been an epidemic of bursted hot water tanks. I discussed the matter with several reputable plumbers in our community, and they were completely at a loss to understand why these water tanks which had been in service only a short time failed, and it became necessary for the home owners to install new hot water heating equipment. Many garage men informed me there was an unusual amount of automobile radiators which appeared to have been eaten out by some chemical."

The Washington State Anti-Fluoridation League reports that Kennewick, Wash. discarded fluoridation after six months usage because PROPER DOSAGE COULD NOT BE MAINTAINED. Fluoride was trapped in dead-end pipes, indicating OVERDOSE upon dislodgment. (Release of May 12, 1956)
