Scientifically Firms Back Holds In Your Abdomen Slims the Waistline

Slimtex with its revolutionary new design flattens out the waist and abdomen evenly and pushes the bulge back in where it belongs and not from one place to another. The tummy requires more hold-in in some areas and less in others. We designed Slimtex with variable stretch V panels—each having a different stretch to take care of the needs of each part of the abdomen. Those areas requiring more hold-in get a firmer V panel—those requiring less get a more flexible V panel. The result is an exciting and amazing new belt which for the first time really gives you a truly flat front, nips the waist and holds the back together firmly, but without constriction. You'll feel so comfortably light on your feet.

**HOW THE
VARIABLE
STRETCH**

**PANELS
WORK**

Imagine 3 pair of hands (see illustration) each holding a V shaped panel stretched across your abdomen. One pair of hands pull harder where there is more bulge. A second pair of hands pull another panel but less firmly. A third pair of hands now pull on the third panel they are holding but these pull just hard enough to even out what the other hands have re-distributed.

YOU NOW FEEL WONDERFUL—your own self again. Back, abdominal bulge and waist are properly and firmly but comfortably held-together. You feel so good and look inches slimmer. Once you slip into a Slimtex you'll never wear another belt. No steels, bones or buckles.
