

OREGON MOUNTAIN WILD PLUM PRESERVES

BY CRATER LAKE POTATO DISTRIBUTORS, KLAMATH FALLS, ORE.

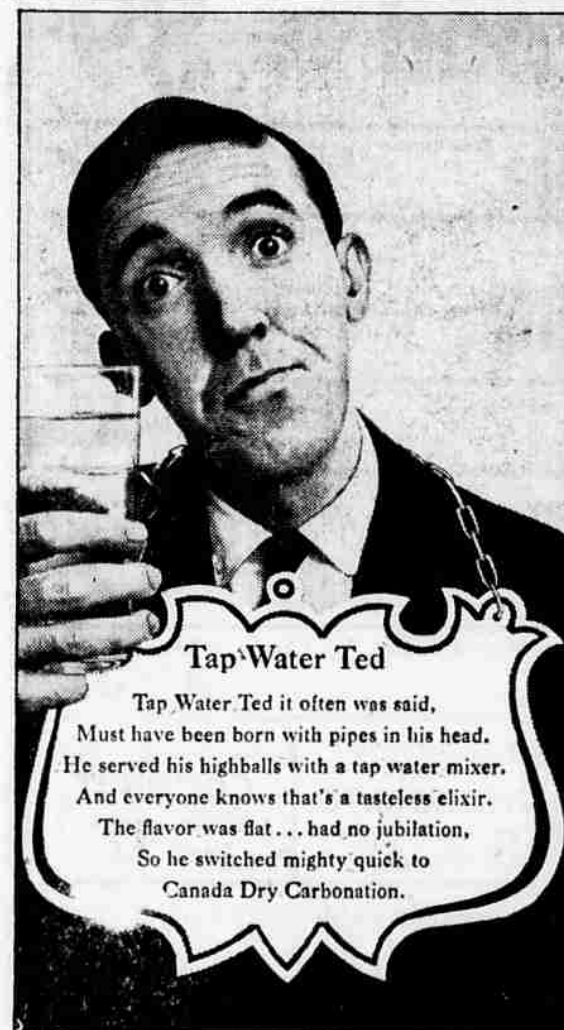

WANT TO GIVE a gift that is representative of our high country? Wild plums are seldom found except on our mile-high desert country east of the Cascades. The preserves are made by adding only sugar to the fruit in the cooking process and they are cooked in small batches to insure quality. Wild plum jam and preserves are typical of our region as an accompaniment for wild game, venison or birds, and are delicious served on hot biscuits or toast. The preserves make a delightful surprise topping for ice cream sundaes for dessert. Call Crater Lake Potato Distributors, TU 4-5321, to place your order or have order blanks mailed to you.

CHEESE
When you're cheese shopping, remember that the softer and more moist the cheese, the more perishable. The cheese you buy is either a natural cheese, a process cheese or a process cheese food. Natural cheese, such as cheddar, contains almost all of the protein, butterfat, sugar and minerals of the whole milk from which it is made. Process cheese is made by heating and mixing cheeses with a blending agent. It can contain fruits, vegetables, meats, spices or flavoring. Process cheese food or spreads resemble process cheese, but have more moisture and less fat and milk solids. Seasonings and relishes are also sometimes added.

RIPE OLIVE SANDWICHES
Combine 1/2 cup finely chopped ripe olives, 1/2 cup chopped sweet pickles, four hard cooked eggs, chopped, two tablespoons chili sauce, one teaspoon salt and 1/4 cup mayonnaise. Yield: two cups of sandwich spread.

FLUFFY SAUCE
Whip 1 cup heavy cream. Beat in 2 egg yolks. Blend in 1 cup confectioner's sugar. Makes 2 1/2 cups of fluffy sauce to serve on warm steamed pudding, gingerbread or whatever you wish.

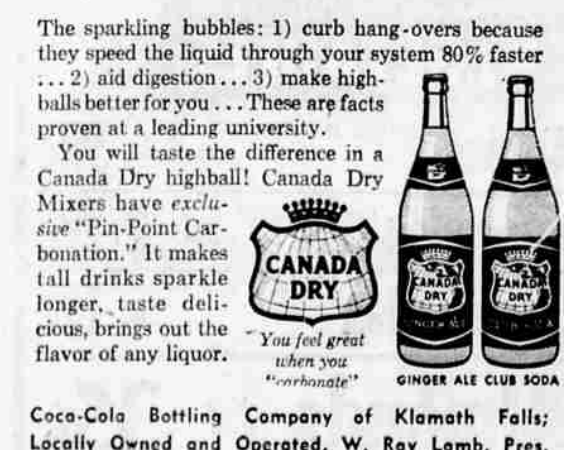

Tap Water Ted

Tap Water Ted it often was said, Must have been born with pipes in his head. He served his highballs with a tap water mixer. And everyone knows that's a tasteless elixir. The flavor was flat... had no jubilation, So he switched mighty quick to Canada Dry Carbonation.

You'll feel good in the morning if tonight's drinks are made with Canada Dry Ginger Ale or Club Soda

The sparkling bubbles: 1) curb hang-overs because they speed the liquid through your system 80% faster... 2) aid digestion... 3) make highballs better for you... These are facts proven at a leading university.

You will taste the difference in a Canada Dry highball! Canada Dry Mixers have exclusive "Pin-Point Carbonation." It makes tall drinks sparkle longer, taste delicious, brings out the flavor of any liquor.

CANADA DRY

You feel great when you "carbonate!"

GINGER ALE CLUB SODA

ZIPPER DAMAGE

Brown spots and holes that mysteriously appear in cotton garments may be due to aluminum zippers, according to textile analysts at American Institute of Laundering, research and educational center for the professional laundry industry.

BERETS

Good news for those of you who like to wear berets and turbans, for those two silhouettes rank high among the success millinery styles for fall and winter. The rule regarding the angle a hat is to be worn seems to be this — when in doubt, push the hat back from the hairline.

BAKER'S CHOCOLATE

Ever since 1780 homemakers have been using Baker's Chocolate. The package still carries the famous symbol of quality—La Belle Chocolatiers.

liquid starch, some detergent not removed by rinsing, or some of the materials contained in hard water. Pure water will not conduct electricity.

When these three factors—dissimilar metals, water and a substance which conducts electricity—get together, acid is formed. The amount of acid is small and weak, but when a hot iron is applied, the acid is strengthened to a point where a brown spot or a hole appears.

For damage to occur, it is necessary that the damp fabric lie in contact with a zipper containing two metals. If in doubt about the metal contained in a zipper, technicians at American Institute of Laundering advise the homemaker not to sprinkle and roll a laundered garment. Instead, dry quickly and press as soon as it is dry enough to iron. If the garment must be dampened and rolled, fold with the zipper outside, keep the fabric around the zipper dry and iron soon.
