"Roger has a sort of half convertible—the top won't go up!"

Long Dispute Over Water Rights Appears Near End

SACRAMENTO (UP)—A four-year deadlock between two Northern California water districts over Feather River's South Fork development appeared near an end today.

Both districts agreed at the end of a two-day hearing to consult with local interests and meet again next Tuesday to give reactions to a mediation proposal advanced by the Water Rights Board chairman, Henry Holsinger.

Holsinger suggested that a "third part," probably the Department of Water Resources, act as "watchdog" over construction of the project by the Oroville-Wyandotte Irrigation District to make certain no money was loosely spent.

Attorney P. J. Minasian, Oroville, said his group would agree to proceed with its plan to construct its \$46,410,000 water project under this proposal.

But attorney Martin McDonough, Sacramento, representing the Yuba Water District and the Yuba County Board of Supervisors, asked for additional time to consult with his two boards.

The Oroville - Wyandotte plan, first advanced Dec. 20, 1956, calls for construction of four diversion tunnels, four reservoirs, two diversion dams and a power plant but does not include definite plans for utilizing Dry Creek water for Yuba County.

For the most part, it was on this ground that the negotiations have been tied up, resulting in the two-day hearing between the two districts and the Water Board.

Without the Dry Creek Project, which would cost an estimated \$3,100,000 to construct, Yuba Water District would receive 3,800 acre feet of water. McDonough said 15,000 acre feet was the minimum requirement for operation of the district.

Meanwhile, civil engineer Ted Schwartz of the Yuba District submitted to the board Wednesday afternoon an entirely new plan.

Beck Jr. Trial Nearing End SEATTLE (UP)—The grand larceny trial of Dave Beck Jr. neared its climax today and both prosecution and defense agreed the case would reach the jury by Friday.

The 37-year-old son of the outgoing Teamsters Union president Dave Beck, is accused of selling two Teamster-owned Cadillacs and keeping the money.

He took the stand on his own behalf Wednesday and testified he sold the cars on orders from his father.

Beck said the 1951 Cadillac owned by Joint Council 28 was sold to John Stratton of Seattle for \$1,850 and paid for by check made out to him because no instructions had been given on how the transaction should be made.

He said he gave the money to his father a day or two later and asked "someone" in the union office to take care of a transfer of title.

AF Disputes Army Plans

NEW YORK (UP)—The New York Times said today the Air Force has placed a policy paper before the Joint Chiefs of Staff "taking exception to Army proposals for a major program to develop anti-missile missiles."

A Washington dispatch to the newspaper added that "the Air Force disputes the arguments for a contramissile advanced by Gen. Maxwell D. Taylor, Army chief of staff."

The story also said in part: "Studies on this weapon have figured in service budget presentations this week before the Joint Chiefs."

The Air Force presentation—made at the same time as the Army's—disputes the Army plan on strategic grounds. It also questions whether Army development of a weapon to destroy long-range enemy ballistic missiles is advanced for enough to warrant huge expenditures.

One Army estimate was that it would cost about six billion dollars to develop a ballistic missile "killer" by 1961. The Army's advocacy of this program was prompted by reported Soviet advances in ballistic missiles.

The Times printed a Washington story yesterday saying the Eisenhower administration was being urged by the Army to spend between six and seven billion dollars to produce an operational anti-missile by 1961.

Secretary of Defense McElroy, asked yesterday for comment on the story, said the story "is something I need enlightening on also."

McElroy denied that Taylor had placed the anti-missile missile program before him. The Times story of yesterday said Taylor made the proposal to McElroy and the Joint Chiefs of Staff.

McElroy said: "There is a great deal we need to know in terms of development before there can be any such program" put into production.

Special Union Fund Reported

ST. LOUIS (UP)—Top officers of the International Brotherhood of Teamsters have acknowledged a legal defense fund is being raised and may reach \$150,000.

President-elect James R. Hoffa predicted the fund would total \$75,000 to \$100,000 and Harold J. Gibbons of St. Louis, an international vice president, said he will be very happy if the union can raise \$150,000.

Both denied Chicago Tribune reports the fund will be as much as two million dollars.

Hoffa said in Detroit the union expects a wave of legal cases involving officials and business agents, especially if the Teamsters are kicked out of the AFL-CIO.

He said the fund "won't be used for my defense in pending trials. It will be used for the benefit of business agents."

Gibbons said only full-time, paid officers of the 800 Teamsters locals in the United States and Canada are asked to donate.

Doctor Says New Device May Give Sight To Blind

NEWARK, N. J. (UP)—"Oh, I can see the light." It was in these words that a woman blind for 18 years described her reaction to a new electronic device, her surgeons said.

The woman, Betty Corstorphine, 35, underwent a series of tests in Cedars of Lebanon Hospital, Los Angeles, last month using a photoelectric cell connected to wires in her brain.

"I saw flashes, at one time a bright flash like an electric light bulb, and at another time a gray-

ness as though a light had just gone out," she said.

Dr. John C. Button said the test showed that brain cells did not atrophy like unused muscle cells but could be stimulated.

Saying that the test "opens the door to the possibilities of electronic vision," he predicted that with adequate funds medical science could refine the apparatus so that within five years almost all blind people could "see" by means of electrical stimulus of the vision centers.

"Eventually," he said, "I'm sure we'll get real sight."

Miss Corstorphine expressed a cautious optimism about the experiment.

"I went out there knowing, of course, that I was not going to get my sight back," she said. "I knew it was only a test, that much more research will have to go into it. But someday—we're hoping it's soon—there may be vision aids for the blind like there are hearing aids."

Button, a 46-year-old neurologist who lives in nearby Maplewood, described the device that may eventually be developed as "something like a radarscope or television set."

Miss Corstorphine, who volunteered for the tests begun last Oct. 28, has been blind since 1939 because of the pressure of an inoperable, benign tumor on her optic nerve.

"It is my understanding that there are different kinds of blindness," she said. "I seem to have alternating days—one day in which everything seems bright and another day in which it seems dark."

But, she added, "what I saw in Los Angeles was different—I saw flashes."

Button, who is also an ophthalmologist, conducted the experiment with Dr. Trancy Putnam, former professor of neurosurgery at Harvard University and presently chief of neurosurgery at the Cedars of Lebanon Hospital.

First, Button said, wires about half the thickness of a human hair were passed through drilled holes into Miss Corstorphine's brain.

They were then pushed about two inches into the back of the brain to the centers of vision.

The wires were attached to a transistor amplifier which, in turn was connected to a small photoelectric cell. The theory was that up light and convert it into a mild electric charge, thereby stimulating the brain.

Jury Dumps Three Cases

The Klamath County Grand Jury Thursday dismissed indictments against three men, one of whom had been arrested by city police and charged with murder in the second degree.

Foreman Peter Rowe said the indictments were dismissed because of "insufficient evidence."

The accused murderer is Tom Alfred, 41, whose address was listed as 326 Spring Street. Alfred was arrested in October for the slaying of James Nave, 49, of 520 Broad Street.

Alfred had told authorities that he found Nave at the home of his estranged wife.

The two others released are OTI student Fred Alexis, charged with larceny and itinerant laborer Chiles Myles, of Los Angeles. Myles is alleged to have stolen \$15 from a Bonanza service station.

Alexis, 20, Lakeview, was charged with the theft of car parts from an East Main Street car lot.

The jury said that it also had given true bills, or indictments, but requested that publication of those indicted and their crimes not be made known at the present time pending the serving of warrants by the sheriff's office.

Morty Meekle

Two Men Held For KF Police

Sheriff's deputies are making arrangements for the return of two prisoners to Klamath County on charges involving violation of probation and obtaining money under false pretenses.

Being held by Eugene police is Lew Hatfield, who was recently placed on probation involving charges of obtaining money under false pretenses.

Being held by Kingman, Arizona police is Benny R. Hill, 24-year-old Klamath Falls man who is wanted in this county on charges of obtaining money under false pretenses.

POLLUTED AIR CITED NEW YORK (UP)—Dr. Leonard Greenburg, New York city commissioner of Air Pollution Control, said today that city air pollution from gasoline and diesel exhaust fumes is apparently a major factor in causing not only lung cancer but other pulmonary diseases.

Being held by Eugene police is Lew Hatfield, who was recently placed on probation involving charges of obtaining money under false pretenses.

Death Takes Basin Pastor

The Rev. Charles Austin Waterhouse, 78, who has served the Keno Mission and other churches in the Klamath Basin as visiting pastor for a number of years, died at Klamath Valley Hospital, November 20, following a long illness.

He had been a resident of Klamath Falls for 15 years and had followed the ministry since he was 20 years of age.

Survivors include two daughters, Mrs. J. C. Freeman of this city, and Mrs. Lillie Kridler, Medford; two sons, Roy Waterhouse, Klamath Falls and Albert Waterhouse of Lakeview; a sister, Mrs. Rose Savage, Everett, Washington; also 11 grandchildren.

Funeral services will take place from the First Baptist Church on Saturday, November 23, 2 p.m. with Ward's Klamath Funeral Home in charge. Final rites and interment will be in Klamath Memorial Park.

Court Hears RR Conductor

Weyerhaeuser railroad conductor, Dale Hoover, 2145 Darrow Avenue, testified Thursday morning that he had failed to notify Clinton D. Edwards that their logging train was in the process of backing up on June 13, 1956.

Edwards who subsequently lost his right leg four inches below the knee as a result of the accident that occurred in the vicinity of Camp Nine, 49 miles east of here, has filed a \$175,000 damage suit against his company, charging the timber firm with negligence.

Meanwhile, attorneys Edwin E. (Pete) Driscoll, Klamath Falls and James A. Meyers, of Oakland, said that they believed the trial, which began in circuit court Monday morning, would not be ready for jury deliberation until the middle of next week.

Still to testify are other members of the train crew and Meyers, reputed to be one of the finest railroad damage action attorneys on the West Coast, if not the United States, is subjecting each witness to hours of examination and re-direct examination.

Meyers has yet to call the plaintiff, Edwards, who sits in Judge Vandenberg's courtroom with his wife, Alice.

Longtime Basin Resident Dies

Frank Gabriel, who homesteaded in the Swan Lake area in 1911, and farmed much of his life, died at the family home near Olene, on November 19. He had suffered a heart condition for about three years.

Mr. Gabriel, who had lived in Klamath County for 48 years, was a native of Dolni Ostrevic, Czechoslovakia. Immediately prior to his death he had been employed by Dant and Warnock, Incorporated, manufacturers of lumber products until the dry kiln closed last summer.

Survivors include his widow, Mrs. Sylvia Gabriel; two sons, Frank Jr., and Lincoln Gabriel of Olene; a brother, Joseph, in Czechoslovakia; a stepdaughter, Ruth Rosecrans, Ashland; a niece, Patricia Wiggins of this city; also two step-grandchildren.

Funeral services will take place from the chapel of Ward's Klamath Funeral Home at 2 p.m. on Friday, November 22, with the Rev. James Overdorf of the First Presbyterian Church officiating. Final rites and interment will be in the Lost River Cemetery, Bonanza.

Scout Troop Plans Event

FORT KLAMATH — At the public monthly pack meeting of Fort Klamath Scout Troop 34, to be held in the C. I. Clubhouse at 7:30 Friday evening, November 22, achievement night will be celebrated.

Handmade articles fashioned in various projects by scouts during the past year will be on display and Boy Scouts will give a demonstration of knot tying.

Awards of achievement feathers will be made by Cub Scoutmaster Gail Culver to Cub Scouts Kim Kizer, Wayne and Kenneth Scott.

Refreshments will be served at the close of the meeting by scout mothers Mrs. Lloyd Nicholson and Mrs. Gail Culver, the latter being troop secretary, also, Claude Shepherd is scoutmaster for the Boy Scouts of the troop.

Anyone interested is extended a cordial invitation to attend the pack meeting.

Oil Royalties

UNBELIEVABLE PROFITS! NO EXPERIENCE NECESSARY! Under a Federal Ruling, Oil Companies have been reaping profits from public lands for years. You, too, can profit from this little known opportunity.

These speculative leases are unusually attractive because of the Booming Area in which they are located. Utah's incredible discoveries have led to description of the Fabulous Paradox Basin as one of the LARGEST POTENTIAL OIL RESERVOIRS in the country.

A total investment of only \$150 (time payments if desired) has a potential pay-off in royalties which is nothing short of fantastic. For information write: Wm. S. Burness, 1017 American Bank Bldg., Portland, Oregon.

MAN SENTENCED Joseph E. Wahl, a 41-year-old Klamath Falls man who was originally charged with driving while intoxicated and later picked up on a bench warrant on charges of jumping \$400 bail, was sentenced to nine months in the county jail and a \$300 fine Thursday morning. The sentencing was in the district court of Judge D. E. Van Vactor.

HELD FOR JURY District Judge D. E. Van Vactor bound Rodney T. Holter, 19-year-old local youth, 2135 Orchard Street, over to the grand jury on charges of larceny and set bail at \$2,000. Holter was arrested a few weeks ago and charged with stealing automobile parts from an East Main Street used car lot. Arrested with Holter was Fred Alexis, 20-year-old OTI student from Lakeview, who has been released by the grand jury.

REALLY BUILT LONDON (UP)—The foreman of a construction gang complained today that his workmen are getting too arsy.

They're working too close to a window of a classroom whose students are drawing a nude female model.

Rock 'N Roll Hits Africa

NEW YORK (UP)—Rock 'n' roll is taking over in South Africa, according to a Zulu disc jockey.

King Edward Masinga, 41, who conducts a daily Zulu language program in Durban, is in this country on a special State Department grant to study American drama and broadcasting.

Masinga said his program in Durban features the old folk music, but that it is losing out to rock 'n' roll. Even the natives in the back country, he said, buy rock 'n' roll records when they come to town.

Court Seeks Lost Evidence

SAN FRANCISCO (UP)—Police today were investigating the disappearance of five pounds of opium from the court of Superior Judge Walter Carpenetti where it was to be evidence for a trial.

The opium—worth \$5,000 on the illegal market and contained in two paper bags—vanished yesterday.

It had been placed under the counsel table for safekeeping.
