**Brutal Slaying Laid To Son**

FORT SMITH, Ark. (AP)—Police today pressed an intensive search for Billy Joe Burns, a 24-year-old former mental patient wanted for questioning in connection with the mutilation slaying of his mother. "We can't waste any time," said Chief of Detectives Clyde Grigsby. "We don't know whether he's dangerous to others or not."  
The head of Mrs. Edna Burns, 56, was found by some children yesterday in the vestibule of a Catholic church here. Police later broke into the locked Burns home and discovered the headless corpse in a pool of blood on the kitchen floor.  
Burns was released from a mental hospital last year, Grigsby said.

Topping a list of 13 projects valued at more than \$10,000 each, was construction of a microwave relay center at Haymaker Mountain. It is one of two centers in a new system which will increase long distance voice paths between Klamath Falls, Medford and other Oregon and California points.

More local switching equipment was installed at the Klamath Falls central office, along with five switchboard positions, power equipment and an expanded test and service center.

Local aerial and underground cable was added in eight other projects.
