

One-Way Grid Plan Vetoed

DUNSMUIR — Willow Street, which bounds the new post office on the south side, will not be made into a one-way street or widened to its full limit at present, a committee of city officials decided on Friday.

The matter was brought up at the council meeting last week when the council heard a plea from Postmaster William Welch that the post office had been designed with two way traffic in mind.

When post office construction was started last fall, a 10 foot width was added to the north side of the street. The council committee decided against a 10 foot widening on the south side on the basis of costs to the city, inconvenience to the south property owners and present street adequacy.

George Mannee and Louis Oberkamp, council incumbents, have announced they will seek to retain their posts at the city election, April 8. Both were appointed to fill unexpired terms last fall and thus far they are unopposed.

The council has also voted to place a 10 cent special tax boost to purchase fire equipment and a 12 cent special tax boost for street equipment before the voters in April. Both rates are to run five years.

GRANGE NEWS

FORT ROCK
Fort Rock Grange meeting Saturday, February 8, again took up the question of telephone service to North Lake County. Members were urged by J. D. Corum, county commissioner for this area, to attend the hearing in Lakeview set for 9:30 a.m. February 25 in the matter of an application by Beaver State Telephone Company and West Coast Telephone Company.

The phone companies have applied for a PUC order authorizing the transfer of West Coast property in the Lakeview District, including Lake and Klamath counties, from West Coast to the Beaver State Company.

Neither Fort Rock nor Silver Lake are served by any telephone company although Silver Lake was until recent years served in a limited way by West Coast. Service came to Fort Rock via LaPine some 25 years ago. The Fort Rock Grange has been continually active in attempting to bring adequate service to North Lake County.

Plans were made to begin Wednesday to lay the new floor in the grange hall. C. W. Boley is chairman of this project.

Mrs. Richard Morehouse was obligated at the Saturday meeting. Mr. and Mrs. Bill Kimsey of Summer Lake were guests. Kimsey is master of Summer Lake Grange.

SNOW CLOSING

RICHMOND, Va. — When a sudden January storm dumped four inches of snow on Richmond, many local employers let their workers off early so they could get home safely. One of the first firms to close for the day was the Eskimo Pie Corp., manufacturers of ice cream bars.

Medics Study Heart Disease

Two scientists from other parts of the world are at the University of Oregon Medical School in Portland seeking the answer to heart and other diseases. Both are here under grants from the Oregon Heart Association.

Dr. Ototaka Higashi, member of the faculty at Tohoku University Hospital in Japan, has been at the medical school for 18 months. Karen Marie Karlson, from Oslo, Norway, working with the doctor in the coagulation research laboratory, which is under the direction of Dr. Arthur J. Scaman, associate professor of medicine. Miss Karlson has worked as a technician for the internationally famous Dr. Paul Owren who has developed methods in prevention of second attacks for healed coronary heart patients through the continuous use of anticoagulating drugs.

Dr. Higashi is studying the feasibility of advance prediction of intravascular clotting during life. If some system for identifying persons having great hazard for clotting can be discovered, it would be possible to institute preventive therapy, it was explained. Dr. Higashi and Miss Karlson symbolize what is transpiring throughout the world in the fight against heart disease. Heart Fund Sunday is scheduled for Sunday, February 23.

High School Selects Play

GILCHRIST—The play "It's All in the Family" has been selected for presentation at Gilchrist High School this spring. This will be under the direction of Anna B. Dolezal and tryouts will be held in the near future.

Barbara Hoseny, a senior at Gilchrist High School, was the winner of the Betty Crocker Home-maker of Tomorrow examination given in December. Her paper will be entered in the state competition which will name Oregon's candidate for the contest. Barbara received an award pin designed by Trifari of New York, and a personal letter of congratulation from Betty Crocker.

Junior and senior students of Gilchrist High School were judges for a local cartoon contest on water conservation which seventh and eighth grade pupils entered. The cartoons were an outgrowth of study of water conservation by the seventh and eighth graders.

First prize was won by Sandra Moebius, and second prize by Richard Hardman. Honorable mentions were awarded to Ellen Kendall, Delphine Fletcher, Jon Harris, Jane Anding, Sharon Page, Sharon Mount, Sandra Moebius and Reuben Tina.

Assassination of President James A. Garfield in 1881 was by Charles Guiteau, a disappointed Federal Office seeker.
