# Death Claims Film Pioneer

HOLLYWOOD (AP)—Al Lichtman, onetime burlesque house usher who became a movie pioneer and produced some of Hollywood's most successful pictures, is dead at 70 of a heart attack.

The producer of "Boys Town," "The Wizard of Oz," "Green Dolphin Street" and other films succumbed yesterday at his home.

Lichtman had been an executive and guiding force in such enterprises as Famous Players, Metro-Goldwyn-Mayer, United Artists and 20th Century-Fox and a key figure in development of wide-screen CinemaScope.

In 1919 he was associated with Mary Pickford, Douglas Fairbanks, William S. Hart and David W. Griffith in the formation of United Artists, distributing firm, of which he became president.

In 1935 he reorganized Metro-Goldwyn-Mayer and made the deal for the distribution of the fabulously profitable "Gone With The Wind." He was executive producer for M-G-M from 1938 to 1949. He joined 20th Century-Fox in 1949 and resigned as head of distribution in 1957. He returned last year to produce "The Young Lions."

Lichtman leaves his widow, Rosa; a brother, Fred, Suffern, N.Y., and a sister, Mrs. Sarah Katz, Bridgeport, Conn.

## "DENNIS THE MENACE"

# 'Life Of The Party' Called Sick Man By Psychiatrist

LOS ANGELES (AP)—Want to be the life of the party?

Dream of tossing off uproarious quips?

If you do, man, you're sick.

That diagnosis comes from a psychiatrist, Dr. Martin Grotjahn of the University of Southern California.

"A wit," says Dr. Grotjahn, "is an angry man in search of a victim. A witticism is his way of releasing repressed hostility. If he doesn't find a victim, he will probably suffer from a migraine headache attack."

German-born and educated Dr. Grotjahn has made a search of the cause and meaning of laughter and its relationship to the unconscious. He wrote a book about it entitled "Beyond Laughter."

"A witticism," he said yesterday in an interview, "starts with an aggressive tendency or intent—an insultlike, shocking thought. By clothing the insult with the veneer of laughter and the convention of a joke, the wit brings his bottled up hostilities to the surface in a manner acceptable to society.

"If the wit didn't have this outlet, a headache might occur. Thus, a thought murder (the witticism) a day keeps the doctor away."

Dr. Grotjahn has examined the gamut of comedians, amateur and professional. Some of his conclusions:

The kidder — One who expresses his own conflict with authority, usually his parents; he imitates his father torturing his "kid."

The caricaturist — He insults people, reduces them to the stroke of a brush or pen in a manner acceptable to society.

The clown — He represents the depreciated father figure; once big and powerful, the father is reduced to a ridiculous, impotent figure.

Do you blame a poor memory for forgetting jokes?

That isn't it at all, Dr. Grotjahn said. It's due to an unconscious desire to avoid the guilt of participating in an aggression.

"Laughter, as it provides a permissible release of unconscious aggressions, is one of the best safeguards of mental health," he said.

"In fact," he added, "the entertainer is a friend of psychiatry even though he is sick and doesn't know it."

# Lloyd Ouster Move Grows

LONDON (AP)—Pressure for the ouster of Foreign Secretary Selwyn Lloyd was reported rising today following what the London Times called "one of his more inept performances" in the House of Commons.

Prime Minister Macmillan had to intervene in a House foreign affairs debate last night after the Laborite opposition attacked Lloyd bitterly for refusing to outline proposals the government has made to Britain's allies to pave the way for an East-West summit conference.

"Lloyd's future as foreign secretary is now in doubt," declared the Daily Mail, an all-out Conservative supporter. "His reputation has reached rock bottom."

The pro-Conservative Daily Express asserted Lloyd had further damaged his parliamentary reputation and declared many Conservatives "feel Macmillan cannot with the best will in the world keep him for long."

Concerning British conditions for a summit conference, Lloyd would only say that (1) these were being discussed with the NATO allies, and (2) East-West talks on suspension of nuclear weapon tests and on safeguards against surprise attack would be useful preparations for a top-level meeting.

Macmillan supported Lloyd's refusal to go into details and reiterated that careful preparation must precede any summit meeting.

**REPORT ON FLU VACCINE**

LONDON (UP) —The British Medical Journal reported today that Asian flu vaccine tested during last year's major epidemic was 66 per cent effective. The Journal explained the term "effective" as meaning either preventing the illness or easing its effects. About 3,000 persons were treated with the serum at the time, most of them teachers and students.

# Experts Air A-Blast Threat

SAN FRANCISCO (UP)—Two leading California scientists debated on television last night about the danger of nuclear tests and whether they should be continued.

Dr. Linus Pauling, who opposes additional atomic blasts, said afterwards that "it's too soon now to say" whether Dr. Edward Teller's arguments had changed his mind. Dr. Teller said he is nearing 50 and finds it increasingly hard to change his.

Dr. Pauling, 56, declared that each superbomb explosion dooms 15,000 children to be born with defects in brain or body. Last month the California Institute of Technology chemist and 1954 Nobel Prize winner submitted to the United Nations a petition by 9,235 scientists who asked a ban on nuclear tests.

Dr. Teller, Hungarian-born nuclear physicist at the University of California, contended that "The moment we stop nuclear testing, Soviet Russia will feel so strong it will want to and will take over the world."

He held that the radioactive damage by tests has not been great when measured against such hazards as smog.

The broadcast over San Francisco's educational station, KQED was filmed for distribution across the nation.

---

**AUTOMATION FOR DINNER**

HOLLYWOOD (UP)—The toastmaster was taking no chances that speakers at the National Standard Parts Assn. convention would overrun their allotted time. The orators knew they had to sit down when a traffic signal in the rear of the room turned amber then red. For added emphasis, a bell clanged vigorously.

# Sir Winston Said Improved

ROQUEBRUNE - CAP - MARTIN, France (AP) — Sir Winston Churchill has shown "very definite improvement" in his battle with pneumonia and pleurisy, his physicians reported Friday.

A terse medical bulletin added: "There are signs that the pneumonia is resolving. After a good night he is more comfortable, and his progress is so far satisfactory."

The bulletin was signed by Lord Moran, his personal physician who flew from London, and Dr. David Roberts, his physician on the Riviera.

The 83-year-old former prime minister became ill Monday.
