

Air Patrol Tells Schedule

The Klamath Falls Squadron of the Civil Air Patrol has recently been assigned a new headquarters at Kingsley Field and will hold its first meeting there Monday evening. The new location is in the base publications building, directly across from Kingsley Field headquarters. The meetings will be held on the second floor which may be reached by the outside stairway.

The local squadron, under the command of Capt. Everett Peery has become increasingly more active and better organized. At present, weekly lectures are being given on various subjects relating to aviation in general and air search and rescue in particular. Classes are also given in military courtesy, etc., since the CAP is an authorized auxiliary of the Air Force.

Application for membership may be made by any U.S. citizen at least 14 years old. The cadet group is open to men and women over 18.

The local squadron has members representing many different fields, such as the teaching, medical, and engineering professions. Police officers, housewives, farmers, businessmen and others have volunteered part of their spare time to help build the Klamath Falls squadron into an efficient organization.

The next meeting will be in the new headquarters Monday at 8 p.m. The cadet meeting is at 7 p.m.

Pregnancy Before Marriage Outlined In Kinsey Report

NEW YORK — One in 10 American women becomes pregnant before marriage, the Kinsey Institute reported today.

Of those pregnancies which do not lead to quick marriages, 29 per cent end in abortion, the institute said, 6 per cent produce illegitimate children and 5 per cent end in miscarriage.

A copyrighted article in the current issue of McCall's magazine is based on the report, the first issued by the Institute for Sex Research at Indiana University since the death of the institute's founder, Dr. Alfred C. Kinsey, in 1956. The report, titled "Pregnancy,

Birth and Abortion," also said: Among all women of child-bearing age now alive, one in seven has had or will have a premarriage abortion.

Most unmarried women who undergo abortions continue sexual relations afterward. Only 3 per cent stop.

"Shotgun weddings" are comparatively rare. Only 19 per cent of single women who become pregnant marry during their pregnancies. Half these marriages eventually break up.

Women born during the Gay 90s were less sexually promiscuous than those who reached adolescence during and after the Roaring 20s. The flaming youth of the 20s apparently set a new sexual pattern for the nation.

Two thirds of the single women who have had abortions reported no unfavorable consequences whatever.

The more devoutly religious a woman is, the less likely she is to become pregnant before marriage.

Airliner Crash Story Said Hoax

ALEXANDRIA, La. (AP)—The report that a commercial plane crashed north of here was labeled a hoax by a government agency which asked not to be identified. Sheriff Sandford Jordan of Winn Parish (county) said, however, he planned to continue searching for the airliner today.

England Air Force Base called off the search last night. A forest ranger, the Air Force and the Coast Guard at New Orleans had received reports that a plane made a crash landing.

Civil Aeronautics Administration officials said call letters and the Forestry Service radio frequency used in the crash report indicated it did not come from a plane.

Of women who marry after reaching 30 years of age, 31 per cent having premarital sexual relations become pregnant and 30 per cent have abortions.

The magazine article is based on the third book in the famous Kinsey reports on sexual behavior to be published May 14.

The statistics are derived from the group of nearly 8,000 women interviewed for the institute's 1953 report, "Sexual Behavior in the Human Female." After eliminating certain women who remained was a sample of 5,293.

In its 1953 report of female sex behavior, the institute said half

the women questioned had sexual experience before marriage. Of these, one in five becomes pregnant, the new report said.

"Pregnancy before marriage is not just a rare problem, not just a mischance which affects an occasional ignorant farm girl—but a widespread social problem," the report said.

What kind of women are most likely to have sexual relations before marriage and become pregnant? It depends on many factors, according to the article, varying from "a chance fragrance in the summer air" to "a woman's own sexual appetite."

The report said that of women who become pregnant before marriage most are married and "presumably are as happy as any other wives."

In fact, more women with premarital sex relations married than those who never had any premarital sexual relations.

The report indicated that abortions were performed by physicians, persons who had attended medical school for a brief time, and some who had picked up a smattering of medical knowledge.

The price of abortions, the survey said is increasing. Up through

the 1920s, the median price of an abortion was \$75. In the 1940s, it jumped to \$143 and is considered even higher now.

Commenting on its findings, the institute said: "To keep one's self and-or one's suitors at a high pitch of emotional and sexual excitement for 5 to 10 years from
