Bob Smith of the United States Fish and Wildlife Service will be guest speaker at the regular monthly dinner meeting of the Klamath Falls Chapter of the Sportsmen Pilots of Oregon to be held Saturday, March 8, in the pilots lounge at Kingsley Field. Dinner will be served at 6:30 p.m.

Smith, who has been in Fish and Wildlife Service work for 22 years, began his career with the Bureau of Biological Surveys. For the last 16 years he has been a flying biologist, making waterfowl surveys in Canada and Alaska during the summer months and in the Southern states, the Arctic, Mexico and Central America tracing the flight of migratory birds.

Smith's work has taken him to every state in the union. His dinner talk will be illustrated with a film.

Members of the Sportsmen Pilots, concerned with the need for a new administration at the airport, have met with the city council and Klamath County Chamber of Commerce officials to seek cooperation in such a building program.

Ned Putnam, president of the pilots, and other flyers have offered use of planes to take chamber of commerce airport committee members on a survey flight to other cities in California, Oregon, Idaho and Washington where administration buildings similar to the one suggested for Klamath Falls have been built with joint, federal, state and county funds.

Anyone interested in flying is invited to attend the dinner. Make reservations with the Liston Aircraft - TU 4-5580; Klamath Air Service, TU 4-7858 or the West Coast Airlines, TU 4-7332 not later than 10 a.m. on Saturday, day of the dinner.

Henley Pupil Wins Award

HENLEY - Terry Byer, Henley High School senior and this year's valedictorian, has been awarded the certificate of merit for outstanding performance in the 1957-58 National Merit Scholarship Program. Two collegiate aptitude tests concluded by the senior boy, with high scores, led to the academic honors.

Some 256,000 of the nation's able high school seniors have been tested since last October. Over 1,000 of the finalists will be awarded five million dollars in merit scholarships. Winners will be announced May 1 of this year.

Merit scholarships are the most sought after award on the high school academic scene. Each is a four-year award and each merit scholar may choose any accredited college in the United States and any course leading to a baccalaureate degree. Each is based on the student's need. The stipend is variable and is determined for each merit scholar individually. The amount awarded is based on family resources, summer earnings and college costs.

Bunko Artists Working Area

YREKA - District Attorney Floyd Merrill has cautioned all county residents, particularly those in the Dorris-Tulelake areas, to be on the lookout for house to house portrait solicitors alleging affiliation with the Fredericks Company of Montana.

Merrill said he has received numerous complaints from Dorris and Tulelake residents, and from persons in other locations of the county, relating that the named solicitors get \$10 for pictures supposedly taken at individual homes with the understanding that the framed pictures will be mailed when processed at the home office in Montana. Complaining persons report that no pictures have been sent.

Merrill said investigation by his office indicates that the purported firm does not exist, and that the solicitors are evidently engaging in a profitable form of bunko. The district attorney advises that persons approached by the "picture salesmen" notify his office or the police immediately and get the license number and vehicle description by the cars being used by the salesmen.
