

### Churches To Pick Leaders

EUGENE — The Congregational Conference of Oregon was to elect officers as it continued its annual meeting here Wednesday.

The conference named Dr. Adelbert J. Buttrey, Grand Rapids, Mich., minister and superintendent Tuesday, and he accepted.

Dr. Buttrey, now pastor of the 3,500-member Park Congregation-

al Church in Grand Rapids, will succeed Dr. Paul A. Davies, who will retire Jan. 1 after 15 years in the position.

He will arrive in Oregon Nov. 1, which will enable him to be with Dr. Davies two months at conference headquarters in Portland before the latter retires.

Before going to the Grand Rapids church six years ago, Dr. Buttrey held pastorates at Park Ridge and Montclair, both in New Jersey. He has served on the executive committee of the Board of Home Missions of Congregational Christian Churches and was chairman of its committee on building new churches.

He is an Idaho native and a graduate of Stanford University, and of Union Theological Seminary in New York City.

The delegates from 50 Oregon Congregational churches elected John Schnell, Portland, president of the Laymen's Fellowship. The Women's Fellowship named Mrs. Paul W. Harvey Jr., Salem, president.

These delegates were named to the church's General Council, to be held at Boston late in May.

The Rev. Marshall McKinnie, Klamath Falls; Mrs. Levering Reynolds, Forest Grove; Mrs. Elizabeth Oliver, Beaverton; the Rev. Wesley Nicholson and Arthur Stillman, both of Eugene; Stanhope Pier, the Rev. Stanley Knot, Mrs. Edith Van Dooser, John Schnell, Loren Anslow and the Rev. Raymond Walker, all of Portland; and the Rev. Ralph Capolungo, Salem.

### Anti-Tobacco Bill Planned

WASHINGTON — A program of federal aid to educate children on the effects of tobacco and alcohol was proposed Wednesday by Sen. Richard L. Neuberger (D-Ore.).

The program is needed, he said, to combat "the constant torrent of skillful advertising which seeks to persuade young people to embark upon the cigarette and liquor habit."

In a speech accompanying introduction of a bill to establish such a program, Neuberger said the country was flooded with tobacco advertising but "comparatively scant distribution" was given a warning by Dr. Leroy E. Burney, U.S. surgeon general, on the possible relationship between smoking and lung cancer.

"It means that young Americans are constantly beseeched — by radio, television, signboards and printed advertisements — to commence upon a habit which the U.S. Public Health Service believes may lead eventually to the most dreadful disease which can befall large numbers of people in our modern state of medical knowledge," Neuberger said.

"Is this not a shocking situation?"

The Oregon senator — who neither drinks nor smokes — said Congress wouldn't outlaw cigarettes or their advertising "despite their peril to health."

Therefore, he said, the schools should be used to give facts on tobacco and alcohol.

"We owe at least that much to the health, tranquility and happiness of the next generation of Americans," he said.

Neuberger's bill would provide matching funds to states for establishing school courses on the effects of alcohol, tobacco or "other potentially deleterious substances." The bill mentions no specific amount.

### Keep Active Doctor Urges

PHILADELPHIA — The man who gets daily exercise keeps his heart's plumbing ready for the crisis that might otherwise cause a heart attack, a New York doctor said today.

Men who led inactive lives died at a younger age than men who led physically active lives, said Dr. David M. Spain, surgical pathologist at Columbia University.

This was a major finding of his study of 1,500 sudden deaths in Westchester County, N.Y. The survey was reported to the National Tuberculosis Assn., composed of doctors interested in many diseases of the chest.

Comparing men of like age groups, Dr. Spain found little difference in the amount of thickening or rusting of the arteries or pipes supplying blood to the heart. It didn't seem to matter whether a person had led an active life or not.

What did seem to matter was this: the active person seemed to have better supplementary pipes that helped detour blood around blocked or narrowed arteries.

You could assume that daily physical activity helped a person develop these supplementary blood lines, even though his regular blood vessels were becoming clogged just as much as the inactive person, Dr. Spain said.

On the other hand, the inactive person didn't seem to develop these supplementary blood lines and his heart's circulation system was less able to stand the added strain of a crisis. This would cause a heart attack.

### Last Rites For Actor Colman

MONTECITO, CALIF. (UP) — Relatives and friends pay their last respects to actor Ronald Colman today in final rites for the 67-year-old star at All Saints by The Sea Chapel.

The debonair film star, whose career on the stage, in movies and in television spanned three decades, died Monday of a virus lung infection at St. Francis Hospital in nearby Santa Barbara.

During his long career, which started on the London stage, Colman made more than 60 motion pictures. He received an Academy award in 1947 as the best actor of the year for his role in "A Double Life."

**Here's our BIG CHALLENGE!**

**IF YOU CAN FIND ANOTHER PICKUP THAT GIVES YOU SO MUCH FOR YOUR MONEY—BUY IT!**

Go ahead—shop around. Take a long, hard look at what you get for what you pay for any other pickup in town.

Then—come in and give the GMC the same kind of going over. Check its 22 full-value features—features that would cost you plenty of dollars extra in other trucks. They're all standard equipment in a GMC.

How important are these features? One is a fast-ratio axle for overdrive's economy—without its cost. Another is the heaviest front cross-member of any pickup. Still another's the heaviest rear axle.

These are things that mean greater haulability—lower running costs—longer truck-life. Yet remember—a GMC pickup is priced right down with the lowest.

But come in and check for yourself. Let the FREE Truck E-Value-ator show you your biggest buy in trucks. Don't put it off. Accept GMC's Big Challenge—today!

**FREE! It's new—and yours FREE for the asking!** It's the Truck E-Value-ator, a handy calculator that lets you simply dial the features you should expect to get in any pickup truck you buy.

Take the gamble out of truck buying! Get your Truck E-Value-ator at your GMC dealer's today!

**GMC AMERICA'S ABLEST TRUCKS**

200 Year Authorized GMC Dealer!
