

US Launches World's Deadliest Submarine In Race For Sea Supremacy

GROTON, Conn. (AP) — The United States continues its push for underwater military supremacy today with the launching of the world's fastest and deadliest submarine, the Skipjack.

The 250-foot sharklike atomic craft is expected to outperform all existing submarines and set new standards for the Navy's growing nuclear undersea fleet. She is named for a quick, sly, tough fish of the mackerel family. Her nonstop range is 60,000 miles.

Adm. Arleigh Burke, chief of naval operations, will give the address at the launching ceremony.

The submarine will be christened by Mrs. George H. Mahon, wife of Rep. Mahon (D-Tex.). The Electric Boat Division of General Dynamics Corp., builder of the vessel, says the craft's blimp-shaped hull and other innovations should enable her easily to smash records set by the first top speed only as in excess of 20 knots, but it is believed to be considerably higher.

The Navy lists the Skipjack's Six additional subs of her class

As the prototype of a new class, the Skipjack costs an estimated 60 million dollars. Subsequent models will be less expensive.

Rotary Club Fetes Two Yreka Students

YREKA—The two students honored by the Yreka Rotary Club for the month of May were Pat Swickard and Victor Grazier.

Pat Swickard, who was awarded a trip to New York this summer with the United Nations Pilgrimage for Youth as a result of her winning speech on the United Nations, is the daughter of Mr. and Mrs. Ivan Swickard of Yreka. She is a junior at Yreka High School. She plans to attend Chico State College to prepare herself for a teaching career. She has been one of the honor roll students during most of her school studies, and has been secretary of the California Scholarship Federation for two years.

Vic Grazier is the son of Mr. and Mrs. Wilson Grazier, and is a sophomore at Yreka High School. His future plans are to follow out his interest in flying and he hopes to attend an air academy when he leaves high school.

Announce Way To Help Drain All 8 Sinus Cavities Without Discomfort

New decongestant tablet for sinus congestion sufferers acts both to drain clogged sinus cavities and relieve distressing head pain

New York, N. Y. (Special) Announcement has been made of a new tablet development which has the remarkable ability to help drain clogged sinus cavities and thus relieve congestion and pressure. The headaches, pressure pains, stuffed-up head, nasal drip, clogged breathing—all the unrelenting symptoms the sinus sufferer knows so well—are attacked directly by improving drainage of the sinus areas.

Most remarkable of all is the fact that this is accomplished with extraordinary speed and without discomfort of any kind. This new tablet does its remarkable work internally, through the blood stream. It deposits into every drop of blood plasma a new medication which is carried to the sinus area, where it shrinks the swollen doors to the sinus cavities and helps drain away the pain-causing pressure and congestion.

The shrinking substance in this new tablet has been so successful typically in promoting drainage of the sinus cavities that it is now prescribed more widely by doctors than any material for this purpose. This new medication is now available at drug counters without the need for a prescription under the name, **Dristan Tablets**. Dristan Tablets cost only 98¢ for a bottle of 24 tablets. Buy and use Dristan Tablets with the absolute guarantee that they will drain away pain-causing pressure and congestion of the sinus cavities, relieve the pain and distress, or purchase price will be refunded.
