

Actress' Son Getting Much Action With Drama Career

By BOB THOMAS
HOLLYWOOD (AP) — Young James MacArthur, who quit college because he was "vegetating," is getting plenty of action with his dramatic career.

He's not so sure his mother, Helen Hayes, approved. But he quit Harvard, anyway. "I went back last fall," said Jim, who was entering his sophomore year. "But I just couldn't get engrossed with what I was doing. I was just vegetating."

College Fetes Eisenhower

EMMITSBURG, Md. (UPI) — Mount Saint Mary's College today President Eisenhower for standing "a modern colossus against petty aims and mean ambition" in his efforts to maintain the free world alliance.

The citation accompanied an honorary doctor of laws degree to be presented to the President before he delivered the commencement address at the sequentennial graduation exercises of the small Roman Catholic college for men about 10 miles from his Gettysburg, Pa., farm.

Eisenhower arranged his schedule to stop off at the college and deliver the commencement address en route to the White House after a relaxing Memorial Day week end at his farm.

The President flew here by helicopter late Friday after leading the nation in honoring two American unknowns who gave their lives for their nation in World War II and the Korean War. He chose to return to the capital by limousine with Mrs. Eisenhower. The President and the First Lady attended morning services Sunday at the Gettysburg Presbyterian Church.

AERIAL TRIBUTE
CAMBRIDGE, England (UPI) — A British Royal Air Force plane Sunday dropped 2,811 flowers on the graves of Americans buried near here. The flowers, one for each of the graves in a World War II American cemetery, were dropped as more than 5,000 Britons and Americans stood at attention below.

Leading Capitals Nervous Over French Policy Course

By CHARLES M. McCANN
UPI Foreign News Analyst
France, as personified by Gen. Charles de Gaulle, is likely to be the chief center of world attention for some time to come.

There is an atmosphere of uncertainty, and some nervousness, in the capitals of the leading powers over the course of French policy.

De Gaulle's policies may affect profoundly the future of the North Atlantic Treaty Organization, relations between the Western allies and Soviet Russia, relations between France and Germany and the negotiations for a summit conference on world issues.

The uncertainty in Washington and London over De Gaulle extends also to Moscow. Though the French Communist Party, and the Communist parties of other Western European countries, attack De Gaulle savagely, Soviet Russia seems to have decided on a hands-off attitude for the moment.

In a most unusual official statement broadcast from Moscow, the Press Department of the Soviet Foreign Office said: "The Soviet Union does not interfere, and has no intention of interfering, in the internal affairs of France or any other country."

Even a Communist propagandist might have blushed in putting out that statement. What it means, apparently, is that the Soviet government will wait a while before it decides whether its best course is to attack De Gaulle or to try to use him for its own purposes.

Russia may be expected first to try to weaken the ties between France on one hand and the United States and Great Britain on the other.

It may try to get De Gaulle's support in its attempt to neutralize Germany, especially by making it part of a Central European zone in which nuclear weapon bases would be barred.

Aside from such questions as these, there will be keen world interest in De Gaulle's success in establishing himself as France's authoritarian leader.

Experts on France seem agreed on at least one thing — that De Gaulle, always a lone operator, will not pit himself to be made the tool of any faction. That remains to be seen.

Club Celebrates First Birthday

LONDON (UPI) — The "James Dean Worldwide Club" Sunday celebrated its first birthday—complete with cake.

About 40 members of the club, formed in memory of the late American movie actor, held a quiet anniversary meeting in a London coffee bar.

Club President Jimmy James, 29, said "people say it is morbid to worship a dead star. But we don't worship him. We just collect references to him as you would any famous person who has died."

Then he passed around pictures of Dean's grave.

Pilots Take Refresher

LOS ANGELES (UPI) — Pilots of Western Air Lines (WAL), idled 100 days by the longest complete shutdown in commercial aviation history, took refresher courses today to get the line back in operation by June 10.

The pilots, members of the Air Line Pilots Assn., went back to work Sunday, ending a walkout which had grounded WAL service to 47 cities in 13 Western states, Canada and Mexico since Feb. 21.

Company officials began calling back furloughed hostesses, clerks and mechanics as they were needed. They hope to have complete service restored over the airline's 9,153-mile system in about 10 days.

ALPA negotiators signed a back-to-work agreement shortly after midnight Sunday calling for arbitration of issues unsettled in lengthy negotiations for a new contract.

It was understood one of the questions submitted to arbitration was the "third pilot" issue for prop-jets which Western plans to put in the air sometime next year. The pilots insisted in negotiations that a third pilot be employed when prop-jets are put into service.

Israel Police Shoot Arabs

JERUSALEM (AP) — Israeli police today fired on a party of Arabs near the Hadassah hospital compound in the Mt. Scopus demilitarized zone. One Arab was reported wounded.

An Israeli army spokesman said the Arab band of about 120 was carrying knives and this account. The incident developed about dawn after a smaller Arab group from the Jordan sector of the demilitarized zone had been turned away by Israeli guards.

The group returned with reinforcements. Israeli police fired after the Arabs had ignored calls to halt and were about 20 feet from the Israel sector. The Arabs then scattered, carrying the wounded man with them.

It was in the Hadassah Hospital area that Lt. Col. George Flint of Canada, the chief U. N. mediator between Jordan and Israel, was killed May 26 while trying to arrange a cease-fire in an Israeli-Jordanian firefight.

Lt. Col. James Earl Rickey of Canada today was appointed chairman of the Israeli-Jordan Mixed Armistice Commission, succeeding Flint. Rickey has been a U. N. truce observer previously at Tiberias, in Galilee.

Korean Student Launches Rocket

YONGDONG-PO, Korea (UPI) — Kim Ki Ryong, an 18-year-old Korean high school student, is trying to match the Soviet and U.S. earth satellite programs all by himself.

Kim claimed today that he succeeded in launching a 7.2 pound test rocket equipped with a radio to a height of 40,000 feet March 18. He said it soared into the sky at a speed three times faster than sound.

Police found out about his experiments April 3 when his second rocket exploded.

Free Cooking School Slated

A free cooking school will be held on Wednesday afternoon, June 4, starting at 2 p.m. at Kirkpatrick's East Side Appliances, Seventh and Klamath Avenue.

Demonstrator will be Beverly Lyons, home demonstrator for California Oregon Power Company, who will cook a standing rib roast and a rolled roast in a new Hotpoint range. She will also demonstrate the new Hotpoint dishwasher which has been introduced this year.

Meat for the demonstration, USDA choice and prime grades, has been contributed by Charlie Miller of Miller's Market, 701 Pine, according to Don Kirkpatrick, host for the cooking school.

Convenient parking without charge has been arranged by Kirkpatrick for guests at the cooking school. Those attending are invited to drive into Coleman's Union Station at the corner of Sixth and Klamath and leave their cars.

Mrs. Lyons is well known in Southern Oregon as a homemaking expert and will be glad to answer any questions from the audience. There will also be free gifts for guests.

AUCKLAND, N.Z. (UPI) — De Gaulle's position improved today in New Zealand. A race horse of that name who finished last in a race Saturday placed second today in a steeplechase.

HE DID IT
MIAMI (UPI) — Niles Barry Jr.'s do-it-yourself effort to repair his windshield wiper failed miserably. It took a garage mechanic and a doctor two hours to free him after a finger became caught under the dashboard.

Still Want To Teach School Says TV Singer Pat Boone

By PAT BOONE
NEW YORK (AP) — When you get a television show of your own, as it happened to me this year, there's a question refrain that comes with it: "How's it doing?"

In my case there was a second refrain that went with the first like a Siamese twin: "Why do you do it?" Meaning, Why with all the load of rehearsing and performing the weekly show, making recordings, personal appearances, filming and the rest, did you decide to continue at Columbia University until you got your degree?

What good will a college degree do you or your show? Or maybe it's just a publicity stunt? You don't make the Dean's list by just showing up at class with a bright smile. Man, I just don't dig that college degree business. What'll it do for you? Man, right now, you've got it made.

I've tried answering, explaining. And sometimes I think I've made my point. But I'm not sure. So I just have to go on doing my days in the way that feels right for me and my family—a wife and four daughters.

I know what they mean when they say, "You've got it made." But I don't believe I've got it made by things outside me—by name or fame or ratings or possessions or even a college degree. Finally, you only "have it made" by what you are, by what you have in you.

Long before I found I could make my way as a singer, I wanted to teach. Working with youngsters was my ambition when I started at North Texas State College. It still is. Maybe someday I'll be able to do it directly in the classroom. Right now, in every way I can — through the show, through talks with youth groups, through correspondence.

Doing this is a responsibility. Just as being a father is a responsibility. Just as being a citizen. To handle these responsibilities and to handle them maturely, I need to know as much as I can learn and keep on learning. College is one of the preparations I can make to meet this constant responsibility.
