

# In The Day's News

By FRANK JENKINS

In two Algerian cities—Constantine and Algiers—General (now Premier) De Gaulle pledges that Algeria's NINE million Moslems and ONE million Europeans will henceforth have the same RIGHTS AND DUTIES.

That is to say—

If he means what he says and is able to make good on his pledge—

BOTH will have the right to VOTE in free and unhindered elections.

So far, so good.

But here is the catch:

In Constantine, the speech was received with clamorous applause by the crowd, more than half of which was made up of MOSELEMS.

In Algiers, where the crowd was made up almost entirely of ALGERIAN FRENCH, his pledge was received with marked coolness.

Over the years, this has been the situation in Algeria:

About a million French have been running the affairs of about nine million Moslems.

But—

If De Gaulle makes good his pledge of EQUAL rights and duties (including, presumably, FREE elections) the nine million Moslems WILL RUN THE AFFAIRS OF THE ONE MILLION FRENCH.

That's where the rub will come. Will the French stand for it?

We'll have to wait and see. At the moment, it looks a little doubtful. If De Gaulle can make good his pledge and can MAKE THE FRENCH LIKE IT he will be entitled to a place in history among the world's GREAT leaders.

## Trucking Suit Starts Again

A suit by Pioneer Truck Rental, Inc., Klamath Falls, against the Oregon State Police and State Public Utilities Commission was resumed yesterday and this morning in circuit court.

Pioneer seeks a permanent injunction restraining the state police from stopping its trucks and arresting drivers.

So far the truck firm has refiled for about 35 police tickets, ranging in probably fines from \$5 to \$20 for not having PUC plates on its trucks, PUC lawyers said.

Pioneer claims it has been arbitrarily denied the plates by the utilities commission, even though it has paid the required fees for permission to operate.

Attorneys for the PUC contend that under the law, a truck rental agency is not entitled to PUC plates, but rather, they are to be paid for and received by those renting the trucks for business reasons.

Pioneer feels it should get the plates and not lessees, of whom many rent trucks for short trips only.

Most of the outstanding tickets will not be settled until outcome of the suit has been decided by Judge David R. Vandenberg.

Judge Vandenberg earlier this year issued a preliminary injunction in favor of Pioneer. However, state police continued to tag its trucks, until three officers were cited for contempt of court.

The three have been found guilty, but sentencing has been postponed until outcome of the case is known.

Both sides are expected to finish presenting testimony today.

## Crash Victim, 5 Still Listed 'Fair'

DeWayne Pruett, 5, Searcy, Arkansas, was still in a semi-coma, and "fair" condition this morning at Klamath Valley Hospital, where he was taken Monday morning after the truck-auto crash on Mt. Hebron, which cost the life of his mother and brother.

Ralph L. Robinson, 30, Fresno, driver of the truck which toppled over on the Pruett car, which he was attempting to pass, has been released on \$5,000 bail by Yreka Justice Court, where he has been charged with involuntary manslaughter. The trial date is reportedly June 6.

## PHONE BOOST

BOSTON (UP)—Nearly 45 per cent of the 2,100,000 telephones in Massachusetts today were installed since the end of World War II.

## Local Employment Chief Says Basin Jobs Increase

"It is estimated that total employment in Klamath County is equal to employment at the end of May, 1957."

These words appear in the May labor market bulletin prepared by Guy Barker, manager of the Klamath Falls office of the Oregon State Employment Service. Barker reports that employment in the area increased rapidly during May, as the construction, lumber and logging, and retail trade and service industries added to their payrolls.

"This area is fortunate in having new projects under way and in maintaining high employment in lumber and logging," Barker said. "This condition has attracted many new workers to our area, causing unemployment to show a higher figure than last year. But at the same time we have favorable employment figures."

Barker said that additional employment gains were expected to develop during the next two months.

By industries, construction showed the most increase in employment during May, with more than 220 registered workers called back. Lumber and logging called back over 120 workers last month, and several small operators are getting ready to start during June, with other, larger operators planning to increase their labor force.

# Unity Appeal By De Gaulle Carried East

CONSTANTINE, Algeria (AP)—Premier Charles de Gaulle carried his drive for Algerian unity eastward into this hotbed of Moslem Nationalist resistance Thursday.

But already rebel spokesmen abroad were rejecting his offer.

Nationalist sources in neighboring Tunisia said there will be no halting of the 3½-year-old rebellion.

In Cairo, spokesmen for the Algerian National Liberation Front (FLN) said they could not accept De Gaulle's program for integrating Algeria's European and Moslem populations with equal rights and equal votes for all. The front has spearheaded the revolt. It demands independence as the price of peace.

De Gaulle spoke for five minutes from the balcony of the municipal theater here to a massed and cheering throng of 7,500, about half of them Moslems.

He declared that "even those who were swept up in the flame of despair"—the fighters for Algerian independence—should rally to his program.

Shouts of "De Gaulle, De Gaulle," were followed quickly by equally massive shouts for Jacques Soustelle, the Gaullist deputy and political strongman of the Algerian insurrection who was not made a member of the De Gaulle cabinet.

Soustelle, standing at the right of De Gaulle, waved his arms in an effort to calm the crowd. De Gaulle frowned.

Later, in the northeast coastal city of Bone, a crowd of more than 100,000 cheered De Gaulle as he rode through the streets. He waved to the crowds and made the now familiar "V" sign with both arms held upward.

The Premier told a crowd of about 100,000 in Algiers last night that all residents of this North African territory are Frenchmen with equal rights and equal votes and with France their motherland.

His visit set off an unparalleled emotional binge in Algiers. But Moslems fighting for independence from France indicated he had not offered enough.

De Gaulle spoke only in generalities that left Algerians in the dark on details of his plans for ending the 43-month rebellion. But there was no doubt the general captured and fired the imagination of Algiers residents more than anyone had done in a long time.

"I open the door to reconciliation," De Gaulle proclaimed in offering a program designed to win back rebels whom he praised as courageous. This was the program.

Within three months the nine million Arab and Berber Moslem Algerians and the 1½ million Algerians of French descent will join with 45 million residents of France in voting on the constitutional reforms he is pledged to draw up.

At some future date all Algerians will ballot on a single voting list for "representatives to the public administration."

"With these elected representatives we will see how to do what must be done," De Gaulle added, presumably meaning negotiations on Algeria's future relationship with France.

## Officials See Little Hope Of Red Trade

WASHINGTON (AP)—Administration officials saw little possibility today of granting large-scale credits to finance Soviet purchases of industrial machinery and consumer goods in the United States.

They also said privately they think Soviet Premier Khrushchev has greatly exaggerated the possibilities of increasing trade.

But they did not rule out any chance of a buildup in U.S.-Soviet trade. They said that most, perhaps all, that Khrushchev says he wants to buy here could be sold without any violation of Allied agreements which prohibit the export to the Soviet Union of strategic or potential war material.

Khrushchev told President Eisenhower in a letter this week that trade between the two countries could run into several billions of dollars in the next few years.

He offered to sell a wide variety of raw materials and some machinery to this country and he asked to buy considerable quantities of industrial equipment and consumer goods to speed up expansion of the Soviet economy.

He said the deal would help overcome the U.S. recession.

He offered to exchange Soviet products, largely raw materials such as furs, ores and lumber for some of the Soviet purchases. But he proposed that the President consider financing Soviet orders to U.S. factories by large-scale, long-term credits in order to speed up trade expansion.

Administration officials, after initial study of the Khrushchev message, estimated that the value of raw materials which Moscow could sell here would be far less than that of American goods which Khrushchev seeks to buy. Thus the question of credits becomes a key issue in any actual trade arrangement which might be negotiated.

They said any move to grant credits to the Soviet Union would involve serious political and policy issues. The initial reaction within the administration appeared to be against any extension of credits.

The things Khrushchev put on his shopping list included machinery for the production of consumer goods and finished products, refrigeration equipment, air conditioners, equipment for making synthetic fibers and plastics, paper and wood processing machinery, textile equipment, food processing machines, automatic vending machines, and equipment for the manufacture of building materials.

The Boeing workers, represented by the IAM's Aero Mechanics Union, had been scheduled to meet Sunday to vote whether to strike if they do not come to contract terms with Boeing by June 21, when the current agreement expires.

Harold J. Gibson, general vice president of the IAM, whose authority extends over seven Western states and Alaska, ordered cancellation of the Sunday meeting and resumption of contract talks.

"The present contract with Boeing has until midnight of June 21 to expire," Gibson told the Seattle aero mechanics. "I am certain that realistic and responsible negotiations between the union and the company between now and that date can result in an agreement that will be satisfactory to all parties."

"Too much union-management unrest already has plagued the Northwest. Our economy demands that any strike action against Boeing be the last resort."

## Nasser Approves Cyprus Freedom

CAIRO (AP)—President Nasser of the United Arab Republic last night expressed his support for independence of Cyprus from Britain.

Nasser spoke at a dinner honoring Archbishop Makarios, leader of the Greek Cypriot independence movement. The archbishop, an exile from the British island colony in the east Mediterranean, came here to confer with the U. A. R. chief of state.

"Freedom of Cyprus is for us confirmation of the principles in which we believe . . . and also is for us reaffirmation of peace in this part of the world," Nasser said.

He added that security of the eastern Mediterranean is a bond means "safety to our borders" and charged Britain's occupation of Cyprus means aggression.

## Democrats Hope To Gain More Congressional Seats

SAN FRANCISCO (AP)—California Democrats held hopes today of increasing their congressional representation in the November election as mounting returns from Tuesday's primary swelled the party strength.

Five Democratic incumbent congressmen won two-party nomination, tantamount to reelection. Two others trailed by close margins on the Republican side after winning their own party's nomination under the state unique cross-filing system. Most candidates ran on both tickets.

Republicans held 17 of the state's 30 congressional seats. But the definite party-line trend of Democratic voting Tuesday posed a threat to the GOP majority.

Democratic Rep. Harry R. Sheppard of San Bernardino's 27th District was unopposed for renomination in his party and was running a close race with Republican Robert M. Castle, San Bernardino, for the GOP nomination. Sheppard led in early returns on

the GOP ticket but Castle went ahead by about 1,100 votes last night.

A similar situation existed in the 11th District, where Rep. John J. McFall won Democratic renomination easily but trailed Frederick Van Dyke of Stockton for the GOP nod.

Among those renominated on the Democratic ticket were Rep. James Roosevelt, Los Angeles, son of the late President Franklin D. Roosevelt, and D. S. Saund of the agricultural 29th District, the only India-born member of Congress.

Winning nomination on both tickets were these Democratic incumbents: John F. Shelley, San Francisco; John E. Moss Jr., Sacramento; George P. Miller, Alameda; Harold Hagen, Hanford; and Clyde Doyle, South Gate in Los Angeles County.

Mrs. Rudd Brown of La Canada, a granddaughter of the late William Jennings Bryan, was leading for the Democratic nomination in the 21st District of Los Angeles County. Bryan was a Democratic presidential aspirant.

Other Democratic nominees by districts were:

Clemend W. Miller, 1st; Harold T. Johnson, 2nd; George W. Collins Jr., 4th; Howard H. Jewel, 6th; Jeffrey Cohelan, 7th; Elma D. Oddstad, 9th; Russell B. Bryan, 10th; B. F. Sisk, 12th; William K. Stewart, 13th; Melvin Lennard, 16th; Cecil B. King, 17th; Chet Hollifield, 19th; Raymond R. Farrell, 20th; T. R. Boyett, 25th; and Lionel Van Deerlin, 30th.

Republican nominees by districts were:

Frederick DuPuis, 1st; Curtis W. Tarr, 2nd; William S. Maulsland, 4th; John F. Baldwin, 6th; John F. Allen, 7th; J. Arthur Younger, 9th; Charles S. Gubser, 10th; Daniel K. Halpin, 12th; Charles Teague, 13th; Donald L. Jackson, 16th; Leonard DiNelle, 17th; Craig Hosmer, 18th; Harry V. Leppke, 19th; H. Allen Smith, 20th; Edgar H. Hiestand, 21st; Joe Holt, 22nd; Glennard P. Lipscomb, 24th; Crispus Wright, 26th; James B. Utt, 28th; John Babbage, 29th; and Bob Wilson, 30th.

## House Plans Vote On Army

WASHINGTON (AP)—House members backing a big Army move to a roll call today to rivet into a defense appropriations bill enough money to prevent a 30,000-man drop in Army strength.

Both sides on the issue said the outcome may be close.

Except for that roll call, the House yesterday finished work on the biggest appropriations bill of the year.

The extra 99 million dollars earmarked for a bigger Army would boost the over-all defense total to \$38,409,561,000. This is \$212,614,900 more than President Eisenhower asked.

The group favoring a big Army won an initial victory when an amendment carrying the 99 million was approved tentatively by a 108-79 vote.

The added funds are intended to maintain Army strength at 900,000 men during the next 12 months instead of the 870,000 recommended by Eisenhower and the House Appropriations Committee.

On other phases of the big bill, the House has approved larger allotments than Eisenhower requested for a speedup in submarine and missile programs and for more National Guardsmen, Marines and reservists than the President had proposed.

Both the Appropriations Committee and the House turned down Eisenhower's request for 35 million dollars to start work on a second nuclear-powered aircraft carrier.

The bill, with the bigger Army funds counted in, would provide these allotments:

Army, \$3,716,626,000; Navy, \$11,042,210,000; Air Force, \$17,317,775,000; office of the secretary, \$536,050,000; and interservice activities, \$796,900,000.

## White Collar Pay Hike Seen

WASHINGTON (AP)—Congressional approval appeared assured today for a 10 per cent pay increase for the government's one million white collar and supervisory civil service employees.

The Senate, which previously voted for a 7½ per cent increase, accepted yesterday the 10 per cent figure approved by the House while adding some amendments.

The House is expected to accept the Senate changes and send the bill to the White House, possibly today.

The pay boost, applying to all classified civil service workers, is expected to cost the government \$42 million dollars a year.

Eisenhower, who recently signed a bill giving postal workers a 10 per cent raise, had recommended a six per cent boost for both postal and classified employees.

The bill also would increase the pay of congressional and judicial employees, Foreign Service officers, Veterans Administration medical personnel and Tennessee Valley Authority employees not paid under wage-board hourly wage rates.

For bottom grade classified employees, the bill would boost pay from \$2,690-\$3,200 to \$2,960-\$3,530. The top would be increased from \$16,000 to \$17,500.

## House Rejects Army Slash

WASHINGTON (AP)—By a roll call vote of 224-158, the House rejected Thursday President Eisenhower's plan to cut the Army's strength to 870,000 men during the next 12 months. It then passed a \$38,409,561,000 defense appropriation bill.

The roll call vote nailed into the measure an amendment to finance a 900,000-man Army during the year starting July 1 at an additional cost of 99 million dollars.

Passage of the bill was by a 389-0 vote which sent it on to the Senate.

The vote on the issue of the Army's size upheld a tentative decision made Wednesday without a roll call. This question was the only controversy in the bill.

Voting for the amendment boosting Army strength were 173 Democrats and 51 Republicans. Against it were 32 Democrats and 126 Republicans.

## Storms Abate In Wisconsin

By THE ASSOCIATED PRESS

Storms abated in the tornado-stricken sections of northwestern Wisconsin today in the wake of violent weather which dealt destructive blows to a four-county area.

Twisters skipped across a 90-mile-wide area, killing at least 10 persons, injuring more than 100 and causing extensive property damage. Colfax, a community of about 1,000 about 10 miles north of Menomonie, appeared "the hardest hit. The storm battered areas in St. Croix, Eau Claire, Chippewa and Dunn counties.

The clashing of cool Canadian air moving southward into Minnesota and Wisconsin with warm humid air in the region set off the violent weather in the two states. Strong winds lashed north central Minnesota. Skies cleared in western Wisconsin late last night as the thundershowers moved northward into Upper Michigan.

## BLOOD DONORS

HAVERHILL, Mass. (UP)—Prospective fathers don't have time to pace the floor at Hale Hospital. While waiting for the big event, they are called on to donate a pint of blood.

## Ike Explains Aid Measure

WASHINGTON (AP)—President Eisenhower wants authority to send foreign aid money in Iron Curtain countries but wants it separate from the mutual security bill now under Senate debate. Republican congressional leaders said Thursday.

Sen. William F. Knowland of California, Senate Republican leader, reported the President's stand after the weekly White House conference of key GOP members from the Capitol.

Knowland himself is opposing an amendment, offered by Sen. John F. Kennedy (D-Mass) to put into the foreign aid bill a section allowing the President to spend in satellite countries if he finds it would help or encourage them on a course independent of Moscow.

Senators backing the Kennedy amendment, with an understanding it had administration support, indicated a feeling they had been let down by the President's stand as reported by Knowland.

Kennedy told newsmen the White House position "indicates the President is not in charge but that Senator Knowland is in charge of foreign policy."

Knowland told a news conference Eisenhower would support such a proposal if it came up as an amendment to the Battle Act. That law bans U.S. aid to Iron Curtain countries.

But Knowland said his own opposition would extend to a proposal separate from the mutual security bill.

Knowland has offered an amendment to strike the provision from the \$3,712,000,000 foreign aid bill now before the Senate.

The provision would permit the President, if he deems it in the national interest, to provide financial and economic assistance to any country except the Soviet Union, Red China or Communist North Korea.

The bill survived its first test last night as the Senate rejected 36-16 an amendment by Sen. William Proxmire (D-Wis) to shift all military aid funds from the foreign aid bill to the regular Defense Department budget.

Proxmire argued that lumping military and economic aid together creates the impression that the foreign aid budget "is three times as large as it is."

## Last Rites For KF Man

Funeral services for James Bishop Foster, 62, a resident of Klamath Falls since 1914 will be held Saturday, June 7, at 11 a.m. at St. Peter's Episcopal Church, Red Bluff. Mr. Foster died in the Southern Pacific Hospital, San Francisco, June 4 following a three-month illness. He had been employed by the Southern Pacific since his arrival in this city and at the time of his death was general yard master.

He was a member of Klamath Falls Lodge, BPOE No. 1247.

Survivors include the widow, Mrs. Ada Foster, 725 Eldorado, Klamath Falls; a daughter, Mrs. Joe (Phyllis) Parker, Durham, North Carolina, two brothers, Herbie Foster, Klamath Falls, and J. R. Foster, Redding; a sister, Mrs. H. G. McCarthy, Fair Oaks, California, also two grandchildren.

Those wishing to may contribute to the American Cancer Fund, in care of Mrs. Violet Koehn, commander, Klamath County Chapter, Klamath Falls.

## Business Tax To Continue

WASHINGTON (AP)—A reluctant House was ready to vote today to continue business taxes at present levels for another year.

Many House members would like to cut personal income levies and other taxes this election year. But congressional leaders and the Eisenhower administration are teaming to hold the line in the face of anticipated big budget deficits this year and next.

The only other tax proposal due to come before the House would provide relief for small business firms. This, however, would be largely in the form of administrative relief, with no anticipated change in tax rates.

Under a rule prohibiting amendments, the House was called on to vote another one-year extension of rates imposed during the Korean War on corporation income and certain items such as automobiles, cigarettes, whisky, beer and wine.

The extension bill would avert a drop of \$2,600,000,000 a year in federal tax revenues if present rates expired June 30, as now scheduled.

The bill would cancel a 5 per cent drop in the present 52 per cent income tax rate on corporation profits.

## Talks Resume For Auto Pact

DETROIT (AP)—Contract negotiations covering more than half a million auto workers resume today, tempered with a union warning that the talks might go on for a long, long time.

Negotiators from the United Auto Workers met separately with General Motors, Chrysler and Ford, whose contracts with the UAW have run out.

The UAW met for nearly three hours yesterday, while the Ford-UAW session lasted only 30 minutes.

There appeared little reason to believe any of the Big Three or the UAW would make a quick move to break the stalemate.

Spokesmen for the various companies indicated they were standing firm on their offer of a slightly sweetened two-year renewal of the contracts that ran out.

There were no reports of incidents involving workers or management employees as the companies continued to operate.

## 2nd Mideast Case Facing UN Council

UNITED NATIONS, N.Y. (AP)—The U.N. Security Council turned today to its second Middle Eastern case in two days—Lebanon's complaint that the United Arab Republic sparked and supplied the continuing revolt against the Lebanese government.

Lebanon charges that the U.A.R. incited Lebanese rebels in a violent press and radio campaign to overthrow pro-Western President Camille Chamoun. The Egyptian Syrian union also was accused of sending arms and men to help the rebels. U.A.R. President Nasser has denied the charge.

The rebels have been confined to several sections of the country, but sporadic fighting continues. An undetermined number of persons were killed during a six-hour clash in Beirut yesterday.

The Council yesterday called a two-week suspension in its debate on charges by Tunisia and France blaming each other for recent clashes between their troops in Tunisia.

French delegate Guillaume Georges-Picot called attention to the exchange of messages between new French Premier de Gaulle and Tunisian President Habib Bourguiba, each expressing hope for a peaceful settlement. Georges-Picot suggested direct talks between the two governments would be the best thing and said France was eager for them, something the French had previously balked at.

The Tunisian representatives also were in favor of direct talks but made clear they would continue to demand the withdrawal of the 22,000 French troops in Tunisia.

## Goodwill Tour Delay Noted

WASHINGTON (AP)—Dr. Milton S. Eisenhower is delaying a planned good will tour of six Central American nations for the stated reason that it has not been possible to work out convenient dates for visits to all the countries.

After the delay was announced yesterday, State Department spokesman Lincoln White said he had no way of knowing whether the troubles Vice President Nixon met recently in some South American countries had anything to do with the decision.

Dr. Eisenhower, president of Johns Hopkins University, had been expected to head this month for Guatemala, El Salvador, Nicaragua, Honduras, Costa Rica and Panama as a personal representative of the President, his brother.

During a good will visit to some Latin-American countries recently Nixon ran into violent anti-American demonstrations in Peru and Venezuela. There has been speculation that Nixon's experience might cause some change in Dr. Eisenhower's plans.

## Graduation Day Set For One Pupil

FLANIGAN, Nev. (AP)—It's graduation week in Nevada and Flanigan Grade School doesn't have an eighth-grader to graduate.

But there's a happy ending.

Two Washoe County (Reno) school officials traveled some 65 sagebrush miles to the only one-room school. They will surprise 15-year-old Alfonso Cintora Jr. with the announcement today that he has done so well he can skip the eighth grade and go directly into high school.

So there'll be a graduation, after all.

## After 70 mph Chase, Youth Second Best To KF Officer

A wild auto chase, involving speeds up to 70 miles per hour on Main Street through red lights was climaxed here last night with a struggle between a policeman and a 19-year-old driver.

The youth, Vincent J. Hunt, of 830 Oak Street, came out second best against Klamath Falls Patrolman Floyd Pierce. The aftermath for Hunt came at headquarters where he was charged with four separate offenses.

Things got started when Pierce, patrolling East Main, spotted Hunt driving without lights and at high speed at 9:50 p.m.

The policeman turned on his red lights and siren and tried to stop the youth. But Hunt put on a terrific burst of speed, rocketed through a red light at Main and East Main
