DEL MONTE has come out with the new family size can of Spanish style Tomato Sauce. Ersel Hallsted, Del Monte sales representative for Southern Oregon, has arranged local distribution of the new product.

BIGGER SIZE TOMATO SAUCE

How often does the recipe you are using call for two cans of tomato sauce? Usually, we'll venture to say.

That's why Del Monte has come out with a new 15-ounce size can of Spanish style Tomato Sauce.

The No. 300 can contains approximately 1 1/2 cups of tomato sauce, especially designed for cooking purposes. Del Monte's Spanish style Tomato Sauce is an exclusive and unique flavor blend of ripe tomatoes and spices, simmered down to a rich, smooth sauce.

This flavorful cooking sauce adds good ripe tomato flavor to spaghetti sauce, Spanish rice, casseroles and many, many dishes in combination with eggs, macaroni, beans, meats, fish, chicken and even soups.

Helpful Hints

SHINE

Colorful costume jewelry should be sused often to keep it bright.

YOUNGSTERS DELIGHT

Maraschino cherries frozen in orange juice in ice cube trays to serve in glasses of ginger ale, Seven-Up or other soft drinks.

EXOTIC NOTE

Add a rose geranium to your house plants. Later on, put a leaf in each glass of apple jelly for a delectable flavor.

POPOVERS

Use Pyrex custard cups for popovers if you don't have regular popover pans. Fill them one-half to two-thirds full of batter.

CAKES

Overmixing a cake squeezes out the air bubbles and makes it hard for the batter to rise during baking.

RALPH WAGGONER, production manager for the Klamath Falls Creamery, is shown inspecting some of the several thousand two-pound loaves of Crater Lake Cheese on the aging shelves in the cheese plant in Klamath Falls.

Your Need For Milk You Never Outgrow

Mothers, don't forget that the school milk program has stopped until September and that your youngsters are used to having regular servings of milk at school.

Milk is a complete food and very necessary for energy and good health for growing children, particularly. Milk is every bit as important in their diet during the summer months as it was all fall, winter and spring. During the school year, the school milk program takes care of seeing to it that the youngsters get that extra

milk they need.

It is up to you mothers to see that the family drinks enough milk during the summer vacation period. Be sure there is plenty of cold milk in the refrigerator at all times.

Make milk a welcome part of every meal and you'll receive dividends in a healthy and happy family. Hot chocolate or cold chocolate milk add variety to the servings. Let the youngsters have their own milk shakes and malted milks at home. Your grocer has all the

flavors in fruit syrups and even buttercotch and chocolate for easy mixing.

June is Dairy Month and school is out, so it is a good time to start the home milk program. Milk provides up to 15 per cent of the protein requirements of the body and it is such an easy way to add the important vitamins and minerals to the daily menu.

Milk is important at all ages in life. If you are watching your waistline, use milk with low fat content, but keep milk in the diet for your health's sake.

And make it easy for your family to have just lots of milk this summer and help the whole family to good health, good dispositions and extra energy for the summer's activities.

CHEESE BUSINESS IS BIG BUSINESS

More than 1,000 pounds of Cheddar Cheese a day, every day in Falls Creamery's cheese factory the week is the record established on Klamath Avenue.

DON'T BROIL in the summer sun to get your tan this year. Shulton's Bronztan contains silicone with "Dura-Sil" to give long-lasting protection with a minimum number of applications.

BRONZTAN

You and your family can enjoy the summer sun to the fullest this year without broiling and blistering to get that healthy-looking tan.

Shulton's Bronztan allows you to tan safely and quickly to a good-looking golden bronze without burning or becoming a slave to the sun lotion bottle.

Bronztan is the new silicone sun product designed to use by the entire family. Bronztan will not wash away in fresh or salt water or excessive perspiration.

The clear, cooling liquid is not messy, oily or greasy, so the men in your family will not object to using it. Bronztan will not stain clothing. It is packaged for safety, also. The white plastic container, with bronze figures and a yellow cap, cannot break.

Use Bronztan before going swimming and avoid painful burns. With the swimming season upon us, it is well to take precautions before burning rather than afterward. The "Dura-Sil" base enables Bronztan to give long-lasting sun protection with the least number of applications.

CREAM SOUPS

When you are making a milk or chowder type soup for your family, add another 1/4 cup of nonfat dry milk solids to each cup of regular fluid milk used and you will add to the nutrients in the dish.

The cheese is all aged in a special curing room where the humidity and temperature is maintained to insure the right development of the fine Cheddar Cheese flavor.

Crater Lake Cheese is sold locally and is distributed by the Kraft Foods Company on the Pacific Coast.

"A very favorable year for milk production, combined with the tendency toward larger dairy herds among the local Grade A milk producers has produced this apparent phenomenon in the agriculture economy of the Klamath Basin," stated Percy Murray, manager of the local dairy operation.

Recently described as one of the finest small cheese factories in the country by an inspector for the Kraft Cheese Company, the local cheese operation has continued to move ahead while most other cheese factories in Southern Oregon have closed.

Murray pointed out that probably one of the most outstanding factors of the local operation is that all milk used is Grade A milk, making it possible to manufacture a very uniform, high quality cheese the year around.

All of the cheese is marketed under the Crater Lake brand and is made in several sizes, starting with the small two-pound loaf up to and including five-pound loaves.

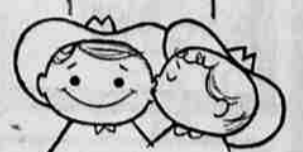

Twenty-five pound daisies and 40-pound blocks are the big sizes for commercial sales.
