

World War Two Horrors Stirred Again In Trial Of Accused Croat Butcher

ADOPTED through the Foster Parents Plan by Mr. and Mrs. William Opie, 4630 1/2 Crosby Street, is 10-year-old Giovanni Maschietti of San Gregorio de Sassola, Italy. Through the plan the Opies' pledge to pay \$15 per month for one year in order to supply the lad with the necessities his family is unable to afford.

LOS ANGELES (UPI)—Stocky Andrija Artukovic, 37-year-old father of five, was the key figure today in a recounting of World War II horrors when tens of thousands of Serbs and Jews were butchered in Yugoslavia.

Rival attorneys Monday pictured the graying ex-official alternately as a cold-blooded, merciless butcher and as a simple administrator with no control over what the police and army did in the "independent State of Croatia."

Road Building Projects In North Slated

SACRAMENTO (UPI)—The Division of Highways has called for bids on three multimillion dollar road building projects in Northern California as well as several smaller jobs.

The largest of the projects, a \$1,450,000 job in Shasta County, involves grading and surfacing two sections of U.S. 299 between 2 1/2 miles east of Hillcrest and three miles west of Burney. A total of 5.3 miles of highway will be built, eliminating the remaining steep and winding sections over Hatchet Mountain.

Arrest Try Hits Snag

SACRAMENTO (AP)—A man charged with publishing obscene material won a round Monday night in his fight against extradition to Oregon.

The attorney said he would produce documentary evidence in the hearing to prove his charges. One of the proofs, Danielson said, would be a deposition from a young man who watched his entire family as they were tied together and burning them alive in their house.

The attorney claimed Artukovic was directly responsible for the slaughter of 47 Orthodox Greek priests and 40 Jewish religious leaders and an order to kill all egyptians.

Gov. Gordon Knight said he will not issue a warrant to extradite Sanford Ady to Eugene, Ore., unless the Fresno publisher first is placed under arrest.

A total of \$1,370,000 is available for construction of an interchange on the Bayshore Highway at Mountain View-Alviso Road in Sunnyvale. The project calls for construction of a bridge, ramps and sections of roadway to provide the interchange facility.

Artukovic's attorney, Edward J. O'Connor, said his client's service with the Croatian government from April, 1941 to late 1942 had nothing to do with killing. The attorney said that if there were atrocities they were political brought on by a civil war between the Croats and Serbs and were not Artukovic's doing.

After Ady appeared at a hearing in the governor's office, a spokesman for Knight said he has no objections to the extradition.

Another project calls for constructing the southbound freeway lanes on U.S. 99-50 in Sacramento County between 1.8 mile south of the Consumers River and 2 mile south of Elk Grove Road.

O'Connor said he would produce 14 witnesses, including two Catholic priests, to support his contentions.

As a matter of policy, though, Knight will not issue the warrant until Ady is arrested, the spokesman said.

A total of \$1,100,000 is available for the project. The northbound lanes on the same stretch of road are already under construction.

President Hector Trujillo, young Rafael's uncle, appointed him chairman of the Dominican joint chiefs of staff the day it was announced he "did not successfully complete the course" at Ft. Leavenworth. His father's yacht is now on the way to Los Angeles to bring him home.

Similar charges earlier were filed against Ady in a Fresno municipal court, but they were dismissed.

Bids also were called for on these projects:

Calaveras County: \$311,900, grading and surfacing 1.3 miles of Road 1150 on Murphys Grade between 3.3 miles northeast of Altaville and Murphys.

CHARLOTTE, N. C. (AP)—A driverless 11-ton bulldozer lumbered 180 yards from a construction plot, mowed down six oak trees, slammed through a station wagon and halted in O. W. Hedrick's kitchen. Officers figured teen-agers started it but couldn't stop it.

Nevada County: \$183,500, surfacing 3.4 miles of Brunswick Road between Route 49 near Town Talk and Route 35.

San Mateo County: \$82,000, landscaping 2.2 miles of the Bayshore Freeway in San Mateo.

ROUGH

Later, the charge was changed to "common murder" when it was found Artukovic could not be extradited as a political criminal. The U.S. Supreme Court recently ruled he might be extraditable as a common criminal.

Planes Hit; Two Perish

OPEN DAILY 7:00 P. M.

MOJAVE, Calif. (AP)—A jet bomber and a supersonic fighter smashed together high over the Mojave Desert Monday. Two men in the bomber died.

SHASTA TU-2 DRIVE-IN 3535

The F100C fighter returned safely to its base with one wing badly damaged from the collision. Its pilot was unhurt.

IDS TONIGHT!

Lt. Col. Boyd L. Grubough, 40, and Capt. Edward C. Gahl, 34, of Edwards Air Force Base, tried to bail out of their stricken B57 as it plunged earthward from 32,000 feet. They apparently ejected too late.

THE 'BLACKBOARD JUNGLE' INVADERS A "NICE" SCHOOL!

The plane smashed to bits in rough desert country. A helicopter found the two bodies five miles away.

TOMORROW

Capt. C.D. Crabb, pilot of the jet fighter, said he didn't see the B57 before the crash. Crabb and a wingman were flying a training mission from George Air Force Base at Victorville, 60 miles to the east.

WAR DRUMS

Grubough was chief of flight test operations at the flight test center.

REVOLT AT FORT JARAMIE

Great Lakes 'Cool Area'

ESQUIRE TU-4-4567

WASHINGTON (AP)—The coolest area in the nation during the next 30 days will be the Great Lakes region, the Weather Bureau forecasts.

DOORS OPEN TODAY AT 5:15

The bureau's prediction from mid-June to mid-July said:

Masterpiece of all motion pictures!

"THE GREATEST MOVING PICTURE I HAVE EVER SEEN!"

"A FILM OF REVERENT AND MASSIVE MAGNIFICENCE!"

Boys Whoop N Up In Back Room Of Soda Parlor

CHARLTON HESTON • BRYAN • BAXTER • ROBINSON

ENNIS, Tex. (AP)—The "boys" in Ennis High School's 1911 class were back at their old hangout yesterday, drinking sodas and swapping stories.

THE TEN COMMANDMENTS

The four were the only boys in a graduating class of 16. Back in 1911 they used to hang out in the Ennis Drug Store. It's now Hesser Drug, but it's in the same spot.

THE TEN COMMANDMENTS

The group decided to make the reunion an annual affair.

THE TEN COMMANDMENTS

They are Desk Sgt. Emory Shelton of the Athens, Ala., police department, Marvin Perry, a cotton buyer from Corpus Christi, Tex.; Vivian Barkhead, retired division superintendent of the Southern Pacific Railroad, Austin, Tex.; and John McLean, retired Internal Revenue Service employe of Midwest City, Okla.

Senior Trujillo Gnashes Teeth Over Son's Flunk

CIUDAD TRUJILLO, D.R. (UPI)—Dominican strongman Rafael L. Trujillo charges that the U.S. Command and General Staff College, by flunking his playboy son, branded itself a "political tool" and proved the good neighbor policy is dead.

Trujillo said Rafael Jr.'s failure will not hurt him in the eyes of the Dominican people, who revere him for his "honesty, industry, intelligence and high sense of responsibility and dignity."

President Hector Trujillo, young Rafael's uncle, appointed him chairman of the Dominican joint chiefs of staff the day it was announced he "did not successfully complete the course" at Ft. Leavenworth. His father's yacht is now on the way to Los Angeles to bring him home.

"The good neighbor policy of the late President Roosevelt has suffered and deteriorated completely, and there is now no hope that it will be restored," Rafael Sr. said.

A diploma granted by a military school, converted into a political tool at the service of passions and interests alien to its purely technical mission, cannot constitute an honor for anyone."

Young Trujillo, a lieutenant general in the armed forces commanded by his father, left Leavenworth last spring for a Hollywood rest cure after a minor operation.

He made headlines by lavishing fur coats and sports cars, bought out of hit \$50,000-a-month allowance, on such film beauties as Zsa Zsa Gabor and Kim Novak.

He is in the process of divorcing the mother of his six children.

FORGIVENESS DAY

CHARLOTTE, N.C. (UPI)—The Charlotte public library declared "forgiveness day" in an effort to get back overdue books. One person showed up with a copy of "Jock the Scot" which was due July 8, 1933.

Everett Peery Leaves For Hawaii Where He Will Be Education Workshop Aide

Everett Peery, supervisor of special education in Klamath County, left Saturday morning for the University of Hawaii in Honolulu where he will join the summer staff as a group leader of a five-unit Graduate Credit Aviation Education Workshop sponsored cooperatively by the Civil Air Patrol of the Pacific Region, the U.S. Air Force and the University of Hawaii.

Washington, D.C.: Dr. John H. Furbay, director of World Education, Trans-World Airlines, New York; Dr. Krafft Ehrliche, technical director, Astronautics Division, Convair, San Diego, California; and Dr. Roland H. Spaulding, professor of Aeronautical Education, New York University.

Captain Peery, commanding officer of the local Civil Air Patrol, will work with a staff of experts and experienced aviation education personnel who will explain the rapidly with which air power is developing and the scientific principles basic to flight to approximately 150 elementary and secondary school teachers and CAP members who are seeking to keep up with their pupils' knowledge of air power. The staff will also examine the social, economic, political and scientific implications of air power in terms of their relationships to elementary and secondary school curricula and problems.

John V. Sorenson, CAP aviation educationist for Pacific Region and workshop director commented that Captain Peery's experience with the Civil Air Patrol makes him especially valuable to the workshop.

Among the outstanding aviation personages with whom Captain Peery will be associated as workshop staff member include Dr. Werner von Braun, top U.S. space expert who put the Explorers into orbit; Maj. Gen. Walter R. Agee, CAP national commander; Dr. Mervin K. Strickler Jr., chief, Office of Aviation Education, CAP.

ASHEVILLE, N.C. (AP)—An official for Carolina Trailway buses says tourists in the Smoky Mountain National Park stop their cars when they see bears crossing the highway. The bears stop to examine the tourists and traffic piles up. The buses sometimes are delayed as long as an hour, the official says.

DOG SHOTS MAN

SYDNEY, Australia (UPI)—A dog shot his master dead during a hunting trip, authorities reported today. William McKenzie, out hunting kangaroos Monday with his pet dog, was standing outside his truck with a loaded shotgun lying on the seat. The dog accidentally stepped on the gun's trigger, causing the gun to discharge. The shot hit McKenzie in the side.

GUARDING VOICEWAYS WITH AIR—how we pump telephone cables full of dry air to make phoning more reliable for you

As your phone calls flash through many of today's telephone cables, they're protected by dehydrated compressed air. Reason: If even a tiny bit of moisture gets inside a cable it can interrupt your service, perhaps ruin the cable. So phone men like Bill Hamilton, top picture, keep cables filled with dry air. This cuts out moisture. The air does another job, too. Should much escape, the drop in air pressure sets off an alarm. This helps us find the damage fast, heads off possible trouble before it affects your calls. Using compressed air to protect cables is another way we bring you better, more dependable service. Service you enjoy more because you can always count on it.

Working together to serve you better....
