Senate Appears Likely To Reject All Tax Cutting Bills

WASHINGTON (AP)—The Senate appeared likely today to reject all tax cutting efforts and pass a bill to extend present corporation and major excise tax rates for another year.

That action would send the measure to President Eisenhower well in advance of the June 30 date the levies would drop automatically. The House already has passed the bill.

Before debate began yesterday, one amendment had appeared to have a chance of adoption—a proposal to eliminate the 3 per cent freight tax and the 10 per cent levy on passenger travel.

But sponsors of this amendment conceded it had lost considerable ground because of combined pressure from the Eisenhower administration and Democratic and Republican Senate leaders against it.

Before reaching it, the Senate considers an amendment by Sen. Pat McNamara (D-Mich.) to end the 10 per cent tax on automobiles and have a similar levy on trucks. Supporters held little hope it would be adopted.

The Senate defeated 65-23 yesterday the first floor amendment—a proposal of Sen. Paul H. Douglas (D-Ill.) for a six-billion-dollar tax cut to stimulate business in the recession.

Sen. Harry F. Byrd (D-Va.) floor manager for the bill, said this could lead to an 18-billion-dollar federal deficit in the next year and require a boost in the debt limit to 300 billion dollars.

Sen. George A. Smathers (D-Fla.), a chief backer of the transportation tax repealer, told newsmen that proposed amendment "is in grave danger."

Smathers said an effort might be made to separate the two parts of the amendment. In that case, he predicted the freight tax repealer would get the biggest vote.

The freight levy brings in about 470 millions of annual revenue, the passenger tax about 215 millions.

Douglas, arguing for his broader proposal, said he believed the unemployment situation would grow worse in the next month. In such a situation, he said, "failure to cut taxes is a great act of human folly."

Byrd said adoption of the amendment probably would cause "terrific inflation." If an 18-billion-dollar deficit resulted next year, he added, "I doubt if any senator living on this floor will live to see a balanced budget again."

Rain Covers Most Of US

By THE ASSOCIATED PRESS

The nation's weather today shaped up like a sandwich of two thin slices of sunshine filled with a gargantuan spread of rain.

Sunny skies were in store for Pacific and Atlantic coastal regions.

The vast area between found the weather menu confined largely to rain, showers, thunderstorms, cloudy skies and below season temperatures.

A shipment of cool Canadian air entered the plains region and was expected to keep temperatures from making any significant rises. However, the outlook was for some warming in the area from the lower Great Lakes and Ohio Valley into much of New England.

There were storms aplenty Wednesday night, from the Rockies eastward to southern New England and into North Carolina and Virginia.

The whirling funnels of tornado winds were seen in Lenora and Hill City, Kan., and near the central border sections of North Carolina and Virginia.

KILLED

NEW YORK (AP)—Michael Rocisano, 7, was treated to three rides on a small merry-go-round mounted on a truck parked near his home yesterday.

It was great fun, Michael didn't want to quit.

He leaped on the rear of the truck as the merry-go-round operator started to pull away from the curb.

His hands slipped and he was crushed to death by a rear wheel.
