THE BEAUTY of cherry furnishings, so long associated with elaborate styling, has been rediscovered and adapted to current tastes. Past and present, both Europe and America have influenced these designs. Scaled to today's homes, many of these pieces can be mixed and matched for use in any room. The hand-rubbed finishes combine the patina and mellow charm of tradition with the classic contemporary line. Whatever your style preference, solid cherry is a wise and practical choice.

Cherry Goes Contemporary

The lovely lines of an important wall grouping belie its utility. Stacked, two pieces with drawers, cupboards, open bookshelves, and desk provide ample storage.

Simple turned legs and classic lines give provincial flavor to a contemporary dining group. Baluster-backed chairs are adapted from the traditional Windsor.

Get after Athlete's Foot *FAST!*

BEFORE THIS—

Raw, red cracks between the toes, itching or peeling are the first signs you've got Athlete's Foot. At this early stage, Athlete's Foot is easy to treat—if you act *fast!*

BECOMES THIS!

Left untreated, Athlete's Foot organisms burrow, spread—may even get into your blood stream. In advanced stage, like ringworm of the foot above, see your doctor

Absorbine Jr. kills 100% of Athlete's Foot fungi in laboratory test tubes in less than 5 minutes!

That tingling sensation tells you Absorbine Jr. is busy killing *all* the fungi it reaches—even in tiny cracks.

For a famous laboratory grew millions of Athlete's Foot fungi of every known type in test tubes and reported *every single one killed by Absorbine Jr.!*

And in carefully controlled clinical tests on patients, doctors reported Absorbine Jr. brought successful relief to the great majority of sufferers. Absorbine Jr. also comes in familiar family and hospital size bottles. At all drug counters.

New bottle ends risk of spreading Athlete's Foot. Simply dab Absorbine Jr. on infected area with sponge tip. No drip . . . no mess . . . you treat Athlete's Foot without touching it with your hands
