Barn Destroyed By Grass Fire

MONTAGUE—A brush and grass fire started by a Siskiyou County out grader on the three-mile lane out of Montague destroyed a barn and outbuildings on an unoccupied 100-acre tract.

Charles Phillips, operator of the out grader, reported the fire to the Montague Fire Department, which sent two trucks, and to the U.S. Forest Service, who had three trucks at the scene.

The grass burned to the house owned by Castle E. Stewart, of Southern California, but did not destroy it. There is no estimate of the damage from the barn and outbuildings, which were burned to the ground.

This was the second fire started by the grader on Wednesday, but destroyed it. There is no estimate of the damage from the barn and outbuildings, which were burned to the ground.

The forest service trucks were standing by to see that no dormant sparks would start another fire.

Letter Clarifies Police Position

DORRIS — Byard Kelly, Dorris police chief, received a letter Monday from the office of the attorney general of California which cleared up a controversial point of law for all California police departments.

A recent ruling, handed down by the Attorney General, Edmund G. (Pat) Brown, relative to jurisdiction and powers of a policeman beyond the territorial limits of his municipality, states that not only does a policeman have the power to arrest beyond his municipality, but has a duty to arrest under conditions specified in Section 406 P.N.C.

The need for protecting officers' benefits in case of injury or death in such situations assumes greater importance than ever before.

Prints Foil Applicant

KANSAS CITY (AP)—The Police Department recently got authorization to hire an additional 100 patrolmen.

In its search for applicants, the department painted bright red signs on its white patrol cars advertising the job.

Among others, the sign attracted 26-year-old John Scott Timmons, a 230-pound ex-convict salesman.

Yesterday, two policemen and an FBI agent picked up Timmons at his hotel room. The FBI said it had been looking for him since May 11, 1957, on a charge of deserting the Marine Corps at San Diego.

A check of Timmons' fingerprints, taken as a matter of course when he applied for the policeman's job, gave him away.

Timmons was arrested on a charge of deserting the Marine Corps at San Diego.

Father-To-Be Aids Capture

SAUFMAN, Tex. (AP)—L. W. Bowman of the federal correctional institution at Seagraves, Tex., was rushing his expectant wife to a hospital early yesterday.

Speeding along the highway, he noticed two men beside the road who looked like a pair who escaped from the minimum security prison nearby Sunday.

After depositing his wife at the hospital, he called the prison. L. Wood Beasley and Clyde Eaxson went into action and soon picked up the pair.

The men, James Morrison, San Angelo, Tex., and Jose Acosta Jr., McAllen, Tex., told FBI agents in such situations assume greater importance than ever before.

HEAT CANCELS WORK

BIRMINGHAM, England (UPI)—A hundred workers at a chocolate factory were told today to stay home from work today, because the heat was too hot for the chocolate to set.

Day Of Flood Still Mystery

BAGHDAD (AP)—The date of Noah's flood still is a mystery. That is the conclusion of a team of German archaeologists who have completed two years of excavations in southern Iraq. They have been working in Uruk where nearly 3,000 years ago a Sumerian epic poem was written describing a flood.

The hero of the epic was Gilgamesh, a king who reigned in Uruk around 2600 B.C. Dr. Heinrich Lenz, head of the Baghdad German Archaeological Institute, says the date of Gilgamesh's reign had been fixed almost exactly, but the date of the flood remains a mystery.

Lenz explained that Gilgamesh, in the poem, actually hails from the flood from an ancestor. The problem is to find out when this ancestor lived and when he built his ark. His story is so similar to Noah's that they probably refer to the same event.

Stroller Finds Traveler Checks

SALT LAKE CITY (AP)—Joseph C. Johnson was strolling down the street, thinking about his recent spinal surgery when he saw a wallet on the sidewalk.

The problem is to find out when this ancestor lived and when he built his ark. His story is so similar to Noah's that they probably refer to the same event.
