Seating children during large family dinners is an exasperating task. To entice them to sit at their own table, use balloons. Write each child's name with nail polish and fasten the balloon to the back of each chair. The tendency to rush around these days, perhaps doing nothing, seems to speed the appearance of strain lines in the face. Housewife or career woman, it is best to balance working hours with hours of play and relaxation. Try 10 minutes a day of resting with the feet elevated as a refresher.

A FUTURE WEDDING is planned by Elsie Laura Vido, daughter of Mr. and Mrs. Tony Vido, 2433 Vine Street, when she will become the bride of Gerald A. Keeping fine hair under control is a problem. One way is to shampoo it every day or two. It seems that fine hair feels and looks thicker after a shampoo. When washing hair this often be alert to dryness, though.

A good night's sleep still works in keeping you healthy and happy. Doctors point out that when one is rested it is easier to face the myriad little worries of a day. And regular sleeping habits also will benefit the complexion and keep bags and lines from around the eyes.
