Dean Of California History Honored At Tulelake Lunch

The Klamath County Historical Society met with the Modoc County Historical Society at a luncheon meeting Friday in Tulelake to honor Dr. Rockwell D. Hunt, the 90-year-old dean of California historians, president emeritus of the Conference of California Historical Societies and president of the Historical Societies of Southern California.

Dr. Hunt has 18 books to his name on the subject of California history. He is completing his 19th book and has outlines for two more volumes on California history. Dr. Hunt still occupies a position on the faculty of the College of the Pacific and is a great inspiration for all students of western history.

Though having spent a lifetime in the study of California history, this trip was Dr. Hunt's first to northeastern California. He was accompanied by Dr. R. Coke Wood, executive director of the California Conference of Historical Societies and a faculty member of the College of the Pacific.

Dr. Wood spoke of the work of the conference and the importance of the local historical society in the preservation of local history. He told of the work of the Symposium of Northern California and Southern Oregon Historical societies with which the Klamath County Historical Society is affiliated.

Dr. Hunt briefly outlined the great epics of California history, the Spanish, Mexican, and American, then pointing to the fact that while the Spanish and Mexican eras were great epics that have attracted much interest from historians it is the American period which is of the greater importance yet an epic that has been largely neglected by historians. He pointed out that although the discovery of gold was an important event in California history, for the nation as a whole, the greater event was the fact that California's entrance into the Union as a free state was one of the great influences in the course of American destiny. It became the deciding action to establish personal freedom by breaking the tie that existed between the states that were free and the states that were slave.

Following the meeting Dr. Hunt and Dr. Wood were taken on a tour of the Modoc Lava Bed National Monument where they were able to see the country made famous by the Modoc War of 1872-73.

Plastic Holders Cure Closet Chaos

Teen-agers live a spontaneous life. A group can be lounging around doing nothing when someone will suggest going for a swim. Everyone likes the idea. But this is the time when Sloppy Sue is hurt. She can't find her bathing suit—and the gang won't wait.

It's not smart to be sloppy about your wardrobe. You miss a lot of fun, and you deserve to, if you're that indifferent. It isn't difficult to have a neat closet, and bureau drawers arranged so that you can select whatever article you're after with no trouble at all.

In your closet you can have clear plastic clothes bags and shoe bags and clear plastic hat boxes, neatly arranged. Because of the transparency, you can choose what you need to wear without unnecessarily opening containers. In your bureau drawers, various articles can be neatly separated with plastic envelopes or boxes, eliminating any reason for digging in with a heavy hand for a particular pair of socks.

Try it. You'll be "Johnny on the spot" for any last-minute date.

GETTING THE MOST out of a bath is an art. In this hurried existence of ours, a quick shower is the usual method of getting clean. That's only half the advantage to be had, however, and the other half is for your soul's sake—the spirit-lifter, morale-booster half. And, during the hot summer, add the joy of cooling-off via the tepid tub. Then towel-off slowly and as a final reward, splash on Jean Nate's delightfully refreshing, clean citrus-scented "Friction pour le Bain."

HOT WEATHER COLOGNE is a summertime necessity for the dainty woman. Dorothy Gray packages six delicate florals in generously-sized bottles meant for lavish use by the family at home or on vacation. There are Summer Song, White Lilac, June Bouquet, Summer Spice and Elation, all with matching dusting powders and soaps. A sixth scent, Natural, has a refreshing lemony tang that is popular with men, too.

SUMMER FRAGRANCE

Summer fragrance should be light and lovely, to create an aura of cool daintiness.

A good choice is one of the Hot Weather Coloznes, a group of delicate florals Dorothy Gray makes especially for lavish use in this season.

There are six fragrances. Summer Song, White Lilac, June Bouquet, Summer Spice, Elation, and Natural. All except Natural have matching dusting powders and soaps.

The packages are color-keyed to the most popular shades in home decor.

Summer Song, in pale green, is a floral with subtle note. White Lilac, pale lilac in tone, captures the freshness of the delicate white lily. June Bouquet, pink, is a light floral blend. Summer Spice, golden, is a clean, crisp spice. Elation, blue, is a more intense floral, and Natural, yellow, has a refreshing, lemony tang that is popular with men too.

These are fragrances that can be enjoyed by all members of the family and Dorothy Gray suggests an extra bottle of Hot Weather Cologne be kept in the locker at beach or pool and also placed in the glove compartment of the car for refreshment on long auto trips.

A Whining Voice Wins No Friends

Though we can't have the fresh beauty of youth once we're past 40, the poise and charm achieved through the years of living, plus an attractive, well-groomed appearance, make the mature woman pretty much of a femme fatale.

But there's one woman who will never be sought after as a welcome addition to any group. And that's the gal with the whining voice. A woman with such a voice allows herself no outlook on life but a dreary one, and must find it depressing even to live with herself.

The surest cure for her would be to change her point of view hit another vehicle, jumped a curb and plowed into a house. Damage: \$2,000.

Letterbugs destroy more picnics than ants do — the larger insect does visible damage to favorite sites, destroying the picnic before her around.
