

### Fort Rock Power Hiked

FORT ROCK — Substantial growth in electric power use in the Fort Rock-Silver Lake area, largely for pump irrigation, has been reported by Midstate Electric Cooperative, LaPine.

The 350,770 kw-h sold in this area in May was the highest month yet, exceeding any month of the 1957 season, according to figures released recently by George M. Larimer, manager of the electric utility.

Power use for the month of June, however, dropped to 136,966 kw-h, less than half the May figure, for the two north Lake County communities. The unusually heavy rains which fell during the month apparently reduced irrigation requirements.

The Fort Rock-Silver Lake region in June had 21 per cent of Midstate customers and accounted for 30 per cent of power used and brought in 51 per cent of the month's revenue, according to Larimer.

For May the percentage of users was the same, but power sold was 48 per cent and the income of \$9,917 was 55 per cent of the entire system.

Midstate Electric serves slightly over 900 consumers in southern Deschutes and northern Klamath counties. There are 197 served in the Fort Rock and Silver Lake areas. May was the first month in which the system's North Lake County operation brought in more revenue than the other segments.

Larimer noted, pointing out that six additional pumps are coming on the line too late for the June tabulation.

### Cuban President Hopefuls Beating Brushes For Votes

HAVANA, Cuba (AP) — Four men who want to be president of Cuba are starting to beat the

brushes for votes in the elections scheduled Nov. 3.

The climate for campaigning isn't good.

Sporadic rebel bombings, sabotage, killings and the guerrilla war in Oriente province still go on.

Constitutional guarantees are suspended and a state of emergency is being enforced.

This means press, radio and television are heavily censored. Police can raid homes, arrest Cubans without a warrant, loss them into jail indefinitely and never say why.

Public assemblies are barred. The government has virtually un-

limited authority to take whatever action it deems necessary to maintain order and crush "subversive movements."

But the government is determined that nothing will stop the elections.

The Supreme Electoral Council, established to arrange the November voting, is permitting candidates to address public assemblies whenever such authorization is requested.

This is the lineup of candidates: Former Premier Andres Rivero Aguero, 53-year-old lawyer and historian, has the personal support of President Batista and four parties backing Batista's government.

Dr. Ramon Grau San Martin is 76 and was president from 1944 to 1948. He is the choice of the Cuban Revolutionary Autentico party.

Carlos Marquez Sterling, backed by the Free People's party, is a shrewd, 58-year-old lawyer who served as president of Cuba's Constituent Assembly in 1940.

Alberto Salas Amaro, 43, is a

long-time journalist and nominee of the Union Cubana party.

Outside of the Cubans actively working in the parties, little interest has been demonstrated. Probably most Cubans think the election already is in the bag for Rivero Aguero, Batista's candidate.

Batista has promised the elections will be fair and honest. Cubans who try to be impartial say Rivero Aguero is virtually certain to be elected president because his opposition is divided.

All four candidates are plugging the general theme of work, peace and progress.

NEW UNITED FUND PRESIDENT Rollin Cantrall is being congratulated here by Richard Laudenschlager, chairman for this year's drive. Cantrall was appointed at the Monday meeting of the United Fund Board of Directors at the Willard to take the presidency, vacated when Ralph Hemmesch, Great Northern superintendent, was transferred to a similar post in North Dakota.

### Rollin Cantrall Appointed Klamath County UF Chief

Rollin Cantrall was appointed president of the Klamath County United Fund at its board of directors meeting Monday noon at the Willard to replace Ralph Hemmesch, Great Northern Railway superintendent, who is being transferred to a similar post in Minot, North Dakota.

Cantrall, lifelong Klamath Falls resident and assistant manager of Klamath Lumber and Box Company, has been active in community affairs for a number of years. At the present time, he is also a newly elected member of the Klamath Falls Elementary School Board.

Upon accepting the new job, Cantrall said, "We all realize the importance of the United Fund in Klamath County and I am more than happy to accept this position with the thought in mind that teamwork will play the biggest role in making this year's campaign a success."

Kickoff date for this year's drive was announced Monday as Tuesday, September 16, and the avowed goal was set at \$150,000.

This year's budget is 2.3 per cent higher than the \$146,000 goal of last year, and is 18 per cent greater than the actual amount of money collected in last year's campaign.

A special highlight of the Monday meeting was the report of the citizen's committee on the "Total Man" approach to disease and medical research. This group, appointed in light of the recent withdrawal of the American Cancer Society from the local United Fund, was allocated \$5,410 in the new United Fund budget.

A. D. Addison, member of the study committee, said, "The allocation of \$5,410 given us by the budget committee represents only a small portion of our budget, but we felt it is virtually important. The basic purpose of the United Fund was to arrive at a means of satisfying basic needs through a proper perspective and united contribution."

"The problems of conquering disease through medical research are many," he continued, "and the United States owes it to the community to equitably disperse funds from a local level so that all of the dread diseases may be combated effectively."

### Vacation Bible School Begins

SUMMER LAKE — Daily Vacation Bible School commenced July 7 at Paisley under the auspices of the Methodist Church. Classes are being held at the Paisley school with group worship at the church.

Mrs. Mike Palmer is superintendent and is being assisted by Mrs. David Green, Mrs. E. M. Carlson, Mrs. Tom Brattain, Mrs. Richard Bradbury, who has charge of crafts materials, and Mrs. Herbert Nelson and Mary Morgan, song leader and musician, respectively. Junior high girls have charge of the very small children, aged 3 and 4, and are also helping with other classes.

More than 60 youngsters have enrolled and average daily attendance is 50.

The two weeks session will close with a program at the Methodist Church, Thursday evening, July 17, at 7:30 to which the public is invited.

NOW HE KNOWS JACKSON, Miss. (UPI)—James Henry Young, charged with bigamy, told a court Monday he took a second wife last November because he was unaware of any law against it.

### Oil Executive Quells Fears

HOUSTON, Tex. (UPI)— A spokesman for the Texas oil industry told Americans Monday night they have nothing to fear "about oil supplies as a result of the new Middle East crisis in Iraq."

Charles W. Alcorn, of Houston, president of Texas Mid-Continent Oil & Gas Assn., claimed "the Texas petroleum industry has the capacity to meet whatever real needs may arise for additional oil."

Mrs. Margaret Sheridan, chairman of the admittance, budget and quota committee stated that the group had arrived at this year's goal in a sound manner. "Each of the participating agencies went over their budgets with the group, and the amount allocated to each agency was based on their actual needs," she reported.

Several agencies were denied admittance to the Klamath County United Fund. In refusing the request, the admittance, budget and quota committee stated that while these agencies have submitted their budgets to the National Budget Committee and have asked for their fair share as established by the National Quota Committee, the local group could not justify including such organizations until they were more nearly able to meet the basic needs of those agencies of a more local nature and those which are already affiliated with the local United Fund - Red Cross Chapter.

Agencies denied admittance were the United Seaman's Service, Council on Social Work Education, American Hearing Society, International Social Service, Blinded Veterans Association and the National Parole and Probation Association.
