

# Nikita Says He's Ready To Hold Summit Confab Immediately Anywhere

By KINGSBURY SMITH  
Vice President  
United Press International

NEW YORK (UPI)—Soviet Premier Nikita S. Khrushchev said Wednesday he was prepared to have the United Nations summit meeting held in Geneva or New York, or "immediately in any place."

The Soviet ruler clarified his willingness to attend such a meeting within the framework of the United Nations Security Council in an exclusive statement to United Press International.

Answering three questions submitted by this correspondent Tuesday, Khrushchev said the possibility of having the Security Council appoint a summit subcommittee composed of the three Western leaders, himself and Nehru was "of interest."

Stressing the importance of Indian Premier Nehru's participation in the summit meeting, Khrushchev predicted the Indian leader's presence "would without doubt contribute to the achieving of a settlement in the interests of peace."

Khrushchev, in answer to one question, showed much more respect for the United Nations than was evidenced by the Soviet government organ, Izvestia, earlier Wednesday.

He said "the Soviet government considers that one must not act in divergence from the U.N."

## Police Search For Convicts

FOLSOM (AP) — Highway patrolmen, sheriff's deputies and prison officers searched today for two Folsom prison inmates who escaped Wednesday by cutting through the barred gates of a storm drain.

A third escapee, 40-year-old William P. Sullivan was found perched on a rocky ledge over the American River at the outlet of the drain shortly after the break. He told prison officials the water was so cold and swift he didn't think he could make it across.

Still sought were Donald Robnett, 39, sentenced for robbery and escape in Los Angeles County, and Ray D. Johnson, 31, convicted of robbery, burglary and carrying a weapon in San Joaquin County. Both were serving 5 year to life terms.

It was the first successful break from the maximum security prison since November 1952.

A pair of shoes found downstream from the storm drain led officers to believe the fugitives headed down the river and were hiding in the brush between the prison and Folsom.

Warden Robert A. Heinze said the three men, all of whom worked in the prison metal fabrication shop, used a cutting torch to enter the drain near the shop. The exit gate was cut with a hacksaw.

The tools had been checked out from the prison shop for experimental work on oil drums.

The storm drain runs the length of the prison, then empties into the river outside the walls. Heinze said guards check it every few days.

The three men first were reported missing after a head count at 3:30 p.m. Sullivan was caught at about 5 p.m.

## Parents Keep Sons Out Of Jail

TAMPA, Fla. (AP)—Parents of two Tampa boys are giving up their family cars for 90 days rather than let their sons go to jail.

Peace Justice W. Marion Hendry convicted Richard M. Steele, 18, and Bruce C. Everett, 17, of willful and wanton reckless driving.

He postponed sentencing them for 90 days on condition the boys surrender their drivers' licenses and their parents turn in the license plates to the cars used in a race.

The mother of each boy ruled the car would be grounded.

whereas Izvestia had denounced the idea of a Security Council summit meeting on the grounds that "everyone knows the U.S.A. can rely on a mechanical majority in the Security Council."

Khrushchev's answers to the questions called him in the Kremlin Tuesday afternoon were broadcast Wednesday night over Moscow Radio. No direct reply had been received from him in New York.

In his statement to UPI, the Soviet leader made points similar to those contained in his latest reply, British and French leaders.

Q. Would you agree to expanding the composition of the summit conference proposed by you, so that this conference should take the form of a session of the U.N. Security Council in accordance with Article 23 of the Charter, and on condition that the council appoint a subcommittee consisting of the heads of government of the U.S.S.R. and the U.S.A., and with the head of the government of India being invited to take part in discussing the situation in the Near East as an interested party?

A. Your reasons in regard to the method of discussing the question of the situation in the Near and Middle East are of interest. At present, a tense situation has arisen in that area as a result of the intervention of the U.S.A. and Britain, which creates a real threat to peace and security. In these circumstances, further delay in the examination of the question of measures to avert a world-wide conflict would be criminal.

Guided by these considerations, the Soviet government has, in its message of 19th July, proposed the immediate convocation of a conference of the heads of government of the U.S.S.R., U.S.A., Britain, France and India, with the participation of the secretary general of the U.N. This proposal has found the most widespread support in all countries of the world.

You suggest that the meeting of the heads of government take place within the framework of the Security Council of the U.N. This does not constitute a disagreement with our points of view. As emerges from the message of 21st July, the Soviet government considers that one must not act in divergence from the U.N., which is called upon to stand guard over the peace and security of peoples.

We consider that, at present, it is not a question of the form of meeting of heads of government, but of immediately taking measures to avert the danger of an outbreak of war and making it possible for the people of the Arab countries to build their life without interference from outside.

In this sense, the considerations expressed by you are useful and constructive.

I would like to emphasize especially that the participation in this conference of the head of government of India, Mr. Nehru, would without doubt contribute to the achieving of a settlement in the interests of peace.

Q. If the reply to my first question is in the affirmative, would you agree to the session of such a subcommittee taking place in the U.N. Building or in Geneva, not later than the end of the month?

A. The question of the place of meeting of the heads of government is not of essential importance and does not greatly matter. As for the Soviet side, we are ready to meet immediately in any place, including Geneva and New York.

Q. Will you personally take part in such a conference, if other heads of government are present?

A. If Prime Minister Macmillan, Chairman of the Council of Ministers De Gaulle and President Eisenhower take part in the conference, the Soviet Union will be represented at that conference by the chairman of the U.S.S.R. Council of Ministers. Of course, the Soviet government firmly hopes that the prime minister of India, Mr. Nehru, will also participate in the conference.

## Man Declared Hero In Utah

ROOSEVELT, Utah (UPI)—A man named Paulick, who rode the 123 miles here from Salt Lake City on his thoroughbred quarter horse, was the hero of the day here today.

Stewart Paulick, a resident of Tooele, Utah, was the only entrant to finish in a horse versus man marathon which ended here at 7:30 p.m. Tuesday. It began at 9:30 a.m. Tuesday. Three long distance runners and three other horses were unable to withstand the grueling route through twisting, 7,000-foot passes.

Though Paulick was unquestionably the victor, people were talking about the tough New York policeman, Edo Homagroll, whom doctors took from the race 43 miles from the finish line. Romagnoli, 37, ran the first 100 miles in 21 hours and 22 minutes — a mark race officials believed might have broken a world's record.

Paulick finished the route in 29 hours and 33 minutes.

First to drop from the race was Roy McMurtry, 62, Tucson, Ariz., 40 miles south of Salt Lake City.

North Carolina postman Paul "Hardrock" Simpson, 52, persisted to within 20 miles of the finish line, but was forced to stop with bleeding feet.

Two horsemen — Keith Bastian of Neola, Utah, and W. L. Jacobson of West Jordan, Utah — dropped out of the contest 40 and 29 miles from Roosevelt, respectively.

A fourth rider, an unknown called "The Rat" rode his garishly-painted mount to 45 miles from the finish.

The race was sponsored by the Bulberry Boys' Club Boosters of Roosevelt. Another race on the same route last year saw horses beat two track stars from Brigham Young University, Provo, Utah.

## Bystanders Hurt Trying To Aid In Family Spat

INDIANAPOLIS (AP) — What started out as a private family argument rapidly flared into a riotous war of battle cleared these were the results:

Four persons, three of them innocent bystanders, in hospitals.

Three automobiles badly battered.

One man in jail.

Patrolman Herbert E. Tolle gave this account:

Oscar L. Holt, 33, was driving along the bank of White River when he suddenly stopped his car and began beating and stabbing his wife Doris, 33. Mrs. Holt, already cut in the chest and one hand, leaped from the car and ran screaming down the road with her husband driving in hot pursuit.

Richard W. Hawk, 65, came wheeling along in his car, saw what was happening and opened his door to let Mrs. Holt inside.

The enraged Holt promptly swung his car against Hawk's auto, injuring Hawk and his wife and daughter.

Holt's car then bounced against a third car driven by Walter O. Farrell, 40.

Meanwhile, Mrs. Holt took off on foot again. Holt chased his wife, and Farrell chased Holt. Farrell tackled Holt.

About this time the police got into the act, and Holt went to jail on preliminary charges of assault and battery with a motor vehicle, assault and battery with intent to kill, and failure to have an operator's license.

All three members of the Hawk family are in fair condition in Methodist Hospital, and Mrs. Holt is doing likewise at General Hospital.

Peace has returned to the banks of White River.

COURTESY VISIT  
HAMBURG, Germany (AP) — Fourteen U. S. Navy ships sail for Norfolk, Va., today after a five-day courtesy visit.

## Strong Iraqi Support Told

WASHINGTON (AP) — Sen. George D. Aiken (R-Vt.) said today that strong support is building up within the Senate Foreign Relations Committee for early recognition of the new government in Iraq.

That, he said, is the principal reason behind the committee's decision to question Allen W. Dulles, director of the Central Intelligence Agency, at a closed meeting this week, possibly today.

"If the facts are as I understand them to be, I think we should have no hesitancy about recognizing the new government," Aiken said in an interview.

He said other members of the committee with whom he has talked appear to share his view.

The new Iraqi leaders have promised to keep oil flowing to the West, and to honor the commitments of the previous government with the United States and the West," Aiken said, adding:

"If this is true, we should continue to do business with them."

## Assault Charge Denied By Actor

LOS ANGELES (AP) — Actor Hugh O'Brian has denied charges that he made amorous advances toward a model who visited his home last April to discuss a television role.

The model, Zella Melba Bennett, 23, is suing O'Brian for \$65,177 damages, asserting she was injured in a fall while resisting him.

O'Brian, TV's Wyatt Earp, filed the denial yesterday in Superior Court. He asked for an early trial.
