Death Of KF Man Reported

A Klamath Falls resident, Dick T. Steppe, 36, was one of four men who lost their lives July 22 when a boat capsized while they were on duty at the Brownlee Dam Project on the Snake River near Weiser, Idaho. All four were employes of the Morrison-Knudson Construction Company as iron workers.

Word of the fatal accident was sent to Steppe's sister, Mrs. Lloyd Samson, 3859 Bristol Street, this city.

The crew, according to the report was working the late shift which retired at midnight. They had entered a 2,800-foot diversion tunnel at the dam site about 10 p.m. when the boat turned over in extremely swift water. Steppe's body was the only one of the four recovered immediately following the drowning.

Mr. Steppe had been a resident of Klamath Falls for 34 years and had followed construction work during his adult lifetime.

Surviving are the widow, Mrs. Edith Steppe, one son Tim, 15, his mother, Mrs. Rose Steppe, a sister, Mrs. Lloyd Sampson, all of Klamath Falls; also five brothers, Del and Bill Steppe, this city, Larry Steppe, Cedar City, Utah, Jim Steppe, Craig, Alaska, and George Johnson, Richmond, California.

Air Force Tells Missile Facts

CANOGA PARK, Calif. (AP)—New facts have been disclosed about the Air Force's powerful Atlas missile.

The missile's propulsion system is a cluster of liquid-propellant rocket engines, the Air Force said yesterday. It consists of a twin-chambered booster engine which sends the Atlas to the edge of space, a sustainer engine which keeps it on course at high altitudes and two small stabilizing engines to control roll.

The thrust power of the system, designed and developed by Rocketdyne, a division of North American Aviation, Inc., was not disclosed.

NEW YORK (UPI) — Youth leaders of the United Church of Christ announced today organization of a special study group on the Middle East at their conference on Christian education next month. They'll call it "Iraq 'n' Roll."

Proclamation Closes Lake Rim

LAKEVIEW — Fremont Forest Supervisor Clayton N. Weaver has announced that Gov. Robert D. Holmes signed a proclamation on July 15 which closed the Summer Lake Rim area effective from and after midnight July 17. Going or being upon this land is prohibited except with a permit for those having business in the area. These permits can be obtained from the district ranger at Paisley. This closure is for the same area as last year, and roughly takes in all the area from the Fremont Highway to the top of the Summer Lake Rim. The closure is made necessary by the extreme high fire hazard in this area.

Regional Forester J. Herbert Stone likewise closed this same area under Regulation T-1, Section 1, from the secretary of agriculture.

There have been a number of disastrous fires under the Summer Lake Rim during the last 50 years. Now the addition of large amounts of slash has made the fire danger critical. This closure will reduce the chance of man-caused fires, Weaver said.

CALL ANSWERED

The South Suburban Fire Department answered a call to the Bessie Gibson residence, 1457 Homedale Road, early this morning, to put out a fire in a bedroom. The bed and bedding were destroyed and there was some damage to other bedroom furniture and the ceiling as well as smoke damage throughout the one-story house. There were no injuries.

Ship Methods Talks Slated

SAN FRANCISCO (AP)—West Coast longshore leader Harry Bridges yesterday accepted an invitation to meet with leaders of the Teamsters Union and the International Longshoremen's Assn. to plan common policy on new techniques in the shipping industry.

Bridges, president of the International Longshoremen's and Warehousemen's Union, said the Aug. 14 conference in Washington would help avoid "jurisdictional disputes and ruinous inter-port competition."

The AFL-CIO ousted the ILWU in 1950 for alleged Communist domination; the ILA, and East Coast dock workers organization, in 1953 on charges of racketeering; and the Teamsters last December on corruption charges.
