By FRANK JENKINS

Nuclear weapons note:  
The Geneva conference on policing a nuclear ban has recommended the use of earth satellites in the detection of nuclear explosions. The satellites would be equipped with special instruments to study radio and light waves. This method is the FIFTH detection method recommended at the conference, which is participated in by scientists of many nations, including Russia and the U.S. The other methods included air waves, earth shock waves and atomic fall-out.

What is it all about?  
Well, the peoples of all the earth are uneasy about nuclear weapons. They fear not only the actual military use of atomic and hydrogen bombs, they fear the consequences of the TESTING of these weapons, which release dangerous radiations. There is strong pressure from all over the world for a BAN on further testing.

But—  
Suppose we stop nuclear weapons tests. Suppose the British stop nuclear tests. Suppose the French, who claim to be near the first explosion of an atom bomb, agree to forego further tests. Suppose Russia agrees to the ban. That leaves the world in this situation:

The British could be trusted to keep their word if they signed such an agreement. The French could undoubtedly be trusted. We know we could be trusted to keep such a solemn agreement if we signed it.

But what of Russia?  
Russia's record for keeping her word isn't very good.

So—  
The SCIENTISTS went to work on the problem. The problem was to devise tests so delicate and so accurate that if some nation BROKE ITS SOLEMN WORD and went on with sneak testing of nuclear weapons all the other nations that had signed the agreement to ban nuclear tests would KNOW ABOUT IT IMMEDIATELY and could take whatever steps were necessary under the circumstances.

That is the sum and substance of the deliberations of the scientists at Geneva.

What next needs to be done?  
It stacks up about like this: The scientists seem to have done their part. They say there are ways by which sneak tests of nuclear weapons could be detected. The PEOPLE of the world are ready to follow wise, sound, HONEST leadership in the direction of a possible agreement to ban nuclear testing. If the RULERS OF NATIONS—including the despots who rule Russia—will ALL provide the kind of leadership that is needed, we might have a world in the future that would be good for people to live in.

Never before was there such a challenge to LEADERS.

## ILWU Okays New Contract

SAN FRANCISCO (UPI)—West Coast longshoremen have approved a new contract calling for a wage increase of 10 cents an hour and cutting the work shift from nine to eight hours. The agreement between the International Longshoremen's and Warehousemen's Union and the Pacific Maritime Association is retroactive to June 16. The contract was negotiated July 3. The ILWU said that voting among 18,000 longshoremen and clerks approved both ends of a split ballot. The shift reduction was separated from the rest of the contract, which included a 10-cent hourly raise for longshoremen and 11 cents for clerks. Although the shift reduction was approved in the coastwide tally, San Francisco Local 10 opposed it by a 429-vote margin while favoring the rest of the agreement. In Seattle, the reduced hours were approved by a vote of 903 to 367 and in Portland by a vote of 555 to 401. Seattle dockworkers approved the rest of the contract 891 to 361 and Portland dockworkers by a vote of 395 to 364.

## Haiti Rebs Wiped Out In Seizure Try

PORT AU PRINCE, Haiti (AP)—A band of exiled army officers seized barracks next to the National Palace early Tuesday but the rebels were reported wiped out in a swift government counterattack. The hand, believed to number no more than six, landed by launch under cover of darkness, commandeered trucks and seized the yellow stucco Casernes Desalines back of the palace shortly after midnight. The hand captured 50 soldiers after a brief clash in which the army said three soldiers and an artillery officer were killed. Government forces counterattacked, liberated the soldiers, then killed the last holdout rebel in a burst of machinegun fire, the army reported. The Port Au Prince radio said the rebels were supporters of former President Paul Magloire, now in exile in New York. Magloire denied there he was involved in any plot against the government. The radio charged two Ameri-

# New Soviet Proposal Set For Denouncement By Ike

WASHINGTON (AP)—President Eisenhower is reported set to denounce Soviet Premier Khrushchev's new proposal for a quick Middle East summit conference outside the United Nations. Eisenhower is understood to be ready to reaffirm his willingness to attend a summit parley—but only within the 11-member U. N. Security Council in New York.

Barring a sudden Soviet flip-flop, Khrushchev's angrily worded letter appeared virtually to kill chances for any emergency heads-of-government meeting in the near future on the Middle East crisis. Officials assailed Khrushchev's message to Eisenhower as vicious and insulting. The harsh tone, they said, was clearly that of a man more interested in making propaganda than in meeting calmly with Eisenhower. Eisenhower will most certainly, they said, reject as unacceptable Khrushchev's bid for immediate five-power talks in Moscow or any other European city.

Some authorities felt Eisenhower should counter Khrushchev's blast by announcing he will show up for a high-level Security Council meeting, whether or not the Soviet leader shows up. The three, all members of the Senate Foreign Relations Committee, are Senators Mike Mansfield (D-Mont), Hubert Humphrey (D-Minn) and Homer Capehart (R-Ind.). They expressed the opinion in separate interviews it would be a mistake to agree to the five-power conference outside the U.N., as suggested by Soviet Premier Khrushchev.

However, Mansfield, a U.N. delegate-nominee, said the United States should go part of the way by agreeing to a Security Council meeting in Geneva. Khrushchev, noting that French Premier Charles de Gaulle has urged a meeting in Europe away from the publicity glare of the U.N., said he was ready to meet in Moscow, Geneva, Vienna, Paris or any other place. "This would be away from the glare of publicity in New York and it would not involve the security problems that might be encountered on any visit of Khrushchev there."

## Solons Urge Ike To Stick By Demands

WASHINGTON (AP)—Three senators urged the Eisenhower administration today to stick to its demand that any over-all Middle East settlement be attempted only through the United Nations. The three, all members of the Senate Foreign Relations Committee, are Senators Mike Mansfield (D-Mont), Hubert Humphrey (D-Minn) and Homer Capehart (R-Ind.). They expressed the opinion in separate interviews it would be a mistake to agree to the five-power conference outside the U.N., as suggested by Soviet Premier Khrushchev.

## Baghdad Pact Discussions Continuing

LONDON (AP)—The United States continued Baghdad Pact discussions today in the new role of a virtual partner with Turkey, Iran, Pakistan and Britain against Soviet threats to the Middle East. Secretary of State Dulles pledged Washington to defense of the three Asian nations still active in the alliance to bolster the group after the apparent loss of its only Arab member, Iraq.

## ILWU Okays New Contract

SAN FRANCISCO (UPI)—West Coast longshoremen have approved a new contract calling for a wage increase of 10 cents an hour and cutting the work shift from nine to eight hours. The agreement between the International Longshoremen's and Warehousemen's Union and the Pacific Maritime Association is retroactive to June 16. The contract was negotiated July 3. The ILWU said that voting among 18,000 longshoremen and clerks approved both ends of a split ballot. The shift reduction was separated from the rest of the contract, which included a 10-cent hourly raise for longshoremen and 11 cents for clerks. Although the shift reduction was approved in the coastwide tally, San Francisco Local 10 opposed it by a 429-vote margin while favoring the rest of the agreement. In Seattle, the reduced hours were approved by a vote of 903 to 367 and in Portland by a vote of 555 to 401. Seattle dockworkers approved the rest of the contract 891 to 361 and Portland dockworkers by a vote of 395 to 364.

## Never Coming

DETROIT (AP)—Walter Ellison was granted a divorce after telling the judge he was satisfied his wife "will never come back." Ellison said his wife Sybelle left him after two years of marriage—in 1927.

## Three Klamath Falls Youths Rescue Six-Year-Old Boy

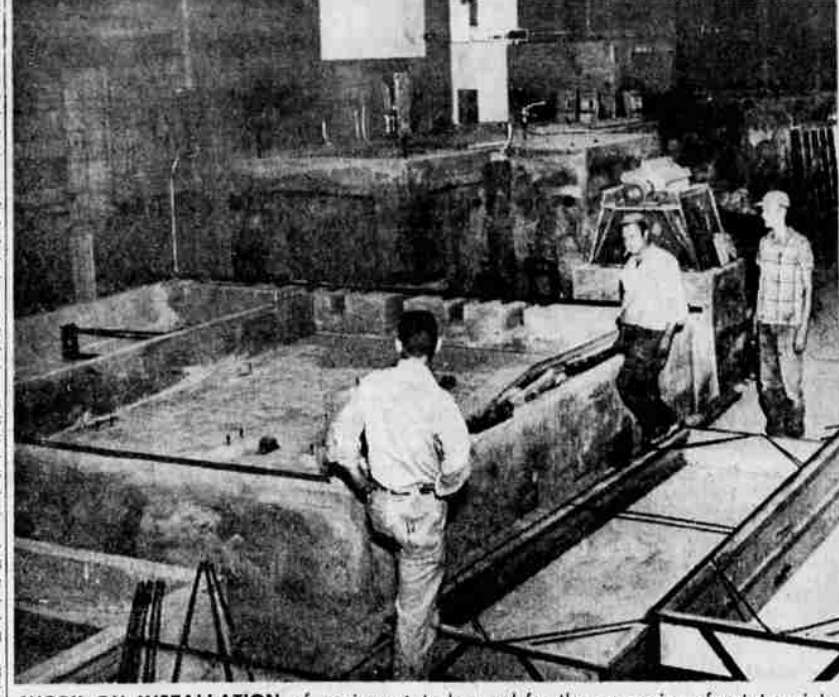

Three 16-year-old Klamath Falls youths were credited Monday with saving the life of 6-year-old Johnny Taylor, son of Mr. and Mrs. Wayne Taylor, 517 East Main Street, after he had gotten into waters of Upper Klamath Lake that were over his head. The near-drowning occurred just off the south end of the Fremont bridge at about 4 p.m. In reconstructing the events, Fire Chief Roy Rowe reported that Mrs. Taylor and an older son were in the vicinity. He reports that both boys were apparently wading in the water, and Johnny was using a rubber inner tube. The mother cautioned both boys about wading into deep water, but the older lad got into water over his head. In the excitement, Johnny jumped off his inner tube and he, too, was in water over his head. Jack Van Orman, 1845 Lawrence; John Vaagen, 1314 Crescent, and Donald Luessen, 79 Washington, were swimming in the vicinity of Monroe's Moorage at the time. Hearing the commotion, they

WORK ON INSTALLATION of equipment to be used for the processing of potatoes into starch is moving on schedule and the plant will be ready to open in time for the fall potato harvest. These concrete tanks are for washing starch during the process of converting potatoes to the by-product. The plant, to be located at Hatfield, California, is the Western Starch Company. Marvin J. Aslett, St. Anthony, Idaho, is president. Left to right in the picture are Garth Powell, recently of Moses Lake, Washington, plant manager; Ben Gorton and LeRoy Moulds, assisting with setting up the machinery. The dry starch produced here will be used in the production of glass paper.

## Goldfine Faces Congress Contempt Charges Today

WASHINGTON (AP)—Bernard Goldfine faces the first step toward a contempt citation today for spurning as irrelevant some questions of a House subcommittee probing his relations with Sherman Adams.

Chairman Owen Harris (D-Ark) called a special meeting of the subcommittee to act on the matter. Rep. John B. Bennett (R-Mich) said, "I believe the vote will be to cite him unanimously." The subcommittee carefully laid the groundwork for its action several weeks ago, demanding answers to a series of 23 questions about the Boston millionaire's financial dealings.

Goldfine with equal firmness refused to answer, contending the questions had nothing to do with the subcommittee's inquiry on whether improper influence had been brought on federal agencies. Goldfine readily answered numerous other subcommittee questions, claiming a long personal friendship as the basis for his frequent contacts with Adams, President Eisenhower's top aide. But he contended, as Adams

## Knight Okays Gilroy Man

SACRAMENTO (AP)—George W. Milias of Gilroy, former president of the California Republican Assembly, appeared today to be the front runner in the race for chairmanship of the GOP State Central Committee. Milias won the endorsement of Gov. Knight Monday, and a Knight aide said the choice was agreeable to Sen. William F. Knowland, Republican gubernatorial candidate.

## Stockton Firms Given Contract

SACRAMENTO (AP)—Two Stockton firms won a \$1,150,000 contract to build 1.9 miles of freeway along with frontage roads, ramps, and interchanges on the Bayshore highway at the Mountain View-Alviso road in Sunnyvale. The contract was awarded to Dan Caputo Co. and M.J.B. Construction Co., Inc., by the State Public Works Department Monday. The project includes short stretches of four and six lane freeway and a 323 foot bridge to carry the Mountain View-Alviso road over the Bayshore highway (U.S. 101 bypass).

## Italy Boss, Ike In Conference

WASHINGTON (AP)—Premier Amintore Fanfani of Italy begins emergency Middle East talks with President Eisenhower today after two speeches before Congress. Fanfani is reported ready to stress a combined European-American aid program as a means of easing the Middle East crisis. He has no single spectacular plan to unveil, aides said, but is eager to win American backing for the objective.

## Injunction Suit Confusion Develops

LAKEVIEW—Confusion developed Monday in the injunction suit proceedings filed July 23 by the Lakeview Mining Company to prevent picketing of the White King Mine and a reduction plant near Lakeview. The company had filed an injunction suit against Andrew J. Bananto, field representative for District 50, United Mine Workers of America, Elwin S. Grier, president of the local at Lakeview, and a number of other men reportedly active in the local union activities in addition to Local 14195. Hearing on the injunction request had been set for 9:30 a.m. Monday in Circuit Judge Charles Foster's court in Lakeview. However, at 9 a.m. Monday, Bananto petitioned the U.S. District Court in Portland to take jurisdiction in the dispute, and the court agreed to do so. It was the union's contention that the questions involved in the suit brought by the mining company in Lake County are subject to interpretation only by the federal court. However, Circuit Judge Foster had already taken action in his

## Weather

FORECAST—Klamath Falls and vicinity: Partly cloudy with not quite so warm, with scattered afternoon thundershowers. Highs 85-95; low Tuesday night, 55-60. High yesterday 93. Low last night 62. Precip. last 24 hours 0. Since Oct. 1 19.47. Same period last year 15.18. Normal for period 12.63.

## Fire Danger Today

HIGH  
Fire, start readily from match or glowing cinders, tend to spread rapidly and to crown in young growth.

## Mercy Flight Attempt Fails

SAN FRANCISCO (AP)—A 600-mile mercy flight was in vain and a pregnant woman patient aboard the President Grant died, the Coast Guard said Tuesday. The woman was identified by the American President Lines as the wife of a Filipino doctor named Flores, one of two doctor brothers aboard. The President Grant radioed Monday afternoon for saline solution for the woman, hemorrhaging from a ruptured fallopian tube. An RD5 plane manned by Lt. (j.g.) David Bosomworth of San Bruno, Calif., and Lt. (j.g.) Bruce Greenlee of San Mateo, Calif., took off from San Francisco International Airport at 5:03 p.m. The coast guardsmen radioed at 10:08 p.m. they had dropped the needed material to the President Grant. They learned on their return to San Francisco it had been too late. The President Grant left here Saturday en route to Guam.

## Pinball Games Held Legal

SAN DIEGO (AP)—It's legal to own pinball machines if they are not used for gambling under a decision of the State Fourth District Court of Appeals. The court's unanimous decision, on record today, upheld an Imperial County Superior Court decision. This decision has ordered four machines, seized by officers in 1956, returned to Claude Sharpsteen, Winterhaven cafe owner. Eight machines were seized at the time. Superior Court Judge L. J. Mouser upheld seizure of four, on the ground they were used for gambling, but ordered the other four restored. He held there was no evidence they had been used for gambling. The Imperial County district attorney's office appealed that part of the judgment ordering return of the four machines.

## Assassin Kills 8, Misses Premier

BEIRUT, Lebanon (AP)—An attempt to assassinate Premier Sami Solh missed by a split second Tuesday. This and heavy exchanges of gunfire in Beirut emphasized that Lebanon's 81-day crisis is still on despite some expressed hopes for early peace. The incidents coincided with 15 new demands by the opposition National Front just as it seemed possible a compromise might be reached on election of a new president, which some thought might lead to an easing of this nation's problems. The opposition and supporters of the pro-Western government were reported practically agreed on the Army commander, Gen. Fu'ad Shehab, as a compromise. But the National Front turned thumbs down on any candidate unless he would agree to demand immediate withdrawal of American troops. It also demanded the immediate resignation of President Camille Chamoun, whose term does not expire until late September. The U.S. Embassy announced that American troops would be

## Auto Dealers Face Charges Of Conspiracy

WASHINGTON (AP)—Forty-two car dealers in the Washington area faced charges today of conspiring to jack up the price of new cars in violation of antitrust laws. Indictments returned yesterday by a federal grand jury also accused the dealers of collusion in setting artificially high prices for parts and repairs. The indictments were the first returned in a Justice Department probe of car pricing practices. Other grand juries are investigating the car markets in New York, San Francisco, Cleveland and Detroit. Indicted here were the area's 17 franchised Ford dealers, the 14 Chevrolet dealers and the 11 Oldsmobile dealers. In addition, the Ford Motor Co. and the Greater Washington Chevrolet Dealers Assn. cooperative were charged with joining the conspiracy to fix prices to the detriment of open competition. The basic charge was that each of the three groups of dealers conspired to set minimum prices "substantially in excess" of those recommended by manufacturers. The charges were denied by several of the dealers and by the Ford Motor Co. The dealers said the only agreement ever entered into was one setting up a suggested asking price for cars. The asking price, they said, was never the selling price because of varying trade-in allowances and discounts. In Detroit, William T. Gossett, vice president and general counsel of Ford, denied that the car manufacturer had entered into agreements with its dealers to set the price of parts and accessories.

## Ferry Fleet Ends Tonight

SAN FRANCISCO (UPI)—The historic ferry fleet that once carried 40 million passengers a year across San Francisco Bay will be no more after tonight. The last of the ferry boats, the aging San Leandro, makes her last round trip between the San Francisco Ferry Building and the Oakland Mole at 11:30 p.m. Then she will head for retirement. Last year only the San Francisco-Oakland ferry service was in operation of the dozen or more lines that used to ply the bay. It carried 610,000 passengers, most of them Southern Pacific and Western Pacific train passengers. The SP received permission from the state to discontinue the expensive operation. Both railroads from Wednesday on will transport their train passengers across the Bay Bridge by bus. A capacity crowd of 1,400 was expected aboard the San Leandro tonight for her farewell trip. On the Oakland side, she will pick up a few rail passengers from SP's incoming Shasta Daylight and return to San Francisco. The San Leandro will then go deadhead back to Oakland Mole. The man who designed the San Leandro paid her a farewell visit Monday. He was John B. Matthews, 70, Oakland. "She's just as good now as she was when I built her in 1923," Matthews said proudly. "Her turbines and generators are in wonderful condition. And she's economical to run. . . . I remember when she was finished down in San Pedro," he mused. "She was the first turboelectric ferryboat in the world. I never thought I'd see the day when there were no more ferryboats, not even one."

# Assassin Kills 8, Misses Premier

BEIRUT, Lebanon (AP)—An attempt to assassinate Premier Sami Solh missed by a split second Tuesday. This and heavy exchanges of gunfire in Beirut emphasized that Lebanon's 81-day crisis is still on despite some expressed hopes for early peace. The incidents coincided with 15 new demands by the opposition National Front just as it seemed possible a compromise might be reached on election of a new president, which some thought might lead to an easing of this nation's problems. The opposition and supporters of the pro-Western government were reported practically agreed on the Army commander, Gen. Fu'ad Shehab, as a compromise. But the National Front turned thumbs down on any candidate unless he would agree to demand immediate withdrawal of American troops. It also demanded the immediate resignation of President Camille Chamoun, whose term does not expire until late September. The U.S. Embassy announced that American troops would be

withdrawn only if Lebanon's internal security is re-established and the United Nations provides adequate guarantees of Lebanon's independence. Eight persons were killed and a 5-year-old girl hurt, but Prime Minister Solh was not touched in the assassination attempt. A car parked along the road was blown up as he was driving into Beirut. Detonator wires from the car ran up a hillside to a spot from which two men were seen to run. Had they delayed the detonation a split second longer the prime minister would have been blown to bits. The dead included a policeman on a motorcycle, three gendarmes in a jeep and four persons in a car just ahead of the prime minister. The heavy firing in Beirut occurred around the main government building, in Capital Square near the post office, and in the Zerif quarter near the Associated Press office. Security forces fired guns from armored cars in reply to rebel small arms and automatic rifle fire. Dynamite explosions were heard. Another sharp battle between pro-rebel and pro-government tribal families was fought in North Lebanon near Tripoli Monday. Assaults also fired on U. S. Marine positions at two points in the capital Monday night. Bullets hit the Marine positions, but there were no casualties and the Marines did not return the fire. A speeding car fired one round into a company command post in the dock area. The attempted assassination occurred on the Beirut road nine miles outside Beirut. The prime minister passes here daily en route to his Beirut office from his suburban home. The road here runs along a sheer drop down to the Beirut River in the valley below. An American-style car, thought to be a taxicab, had been parked there three days, with a rock under a wheel. The prime minister is a Moslem by custom in this half-Christian, half-Moslem nation and the president a Christian. Reasons for the attack on Solh were not immediately clear since most rebel animosity in the nearly three months of rebellion has been against President Chamoun.
