

DOCKING FACILITIES, both manmade and natural, are filled with boat trailers during the summer months. There are many spots around Upper Klamath Lake, such as this one shown here, where level land adjacent to the lake affords ideal ramp facilities for launching the family runabout. Easy transportability is at least half the answer to the sudden popularity of boating in this country.

IT DOESN'T TAKE A FANCY CRAFT to make boating fun. If you don't think so just take a close look at the "boat"—this group of youngsters is enjoying. Not to mention the faithful old inner tubes the young lady is navigating in the background.

WATER SPORTS CAN BE COOLING for the whole family. Here Diana and Sally Wales, daughters of Mr. and Mrs. William J. Wales, watch while the family dog cools himself off with a quick dip in the lake beside the boat.

WIDEST BRIDGE

PROVIDENCE, R. I. (UPI) — The Crawford Street Bridge here is the world's widest bridge. Composed of six units, its total width is 1,147 feet. Two U.S. highways traverse it.

WHO INVENTED ANTS?

NEW YORK (UPI) — The ancient Greeks are credited with inventing picnics, which means "contributor-feast," an affair to which all who attend bring some of the food and drink.

You May Have TERMITES

Those "flying ants" may be swarming termites. Once or twice each year a few of the termites, the winged reproductives, swarm from their ground nests to start new colonies. Swarmer termites leave behind them thousands of worker termites to eat the wood in your home. Call Terminix for free inspection.

3-WAY GUARANTEE

You can depend on Terminix Service—guaranteed by:

1. Local Bruce Terminix licensee.
2. E. L. Bruce Co., world's largest maker of hardwood floors.
3. Sun Insurance Office, Ltd.

With Sharp Knives, The Ladies Returned!

The National Home Furnishings Show (New York City, 1957) had a display (among many, many others) called "The Celestial Nursery of the Future."

That nursery was really "out of this world." "Heavenly!" and "Divine!" were just two comments frequently voiced by the N.Y.C. ladies attending the show. They asked questions, too.

"What is the floor?" they asked often. (And no wonder; it was a beautiful blue floor — smooth surfaced, quietly resilient, subtly colored, full of glittering metallics! All this and clear vinyl, too!) "Where can we buy one just like it?" (New York ladies speak emphatically.)

They were told the floor wasn't on the market, that it couldn't be matched anywhere. But the ladies didn't give up. They returned again and again to admire the floor. Some even brought sharp little knives and tried to help themselves to sample swatches of it!

The floor is on the market now. It's called Armstrong Vinyl Corlon in the new Futuresq Series. We've got it — the beautiful blue one, plus seven more exciting colors. But please, leave your knives at home! If you like it as much as the ladies at the Home Furnishings Show, we'll give you a little sample.
