

PEARL POLISHES for the nails are becoming increasingly popular. Whether you are doing your nails at the beach or at home, you'll find the subtle iridescence of the new pearl polishes adds the final touch of glamour. There's an entire treasure chest of these precious pearls for your finger tips—in gold, silver and orange gold by Cutex.

The Midas Touch

A king's ransom in pearls is at your finger tips, waiting to be "claimed" . . . and it's all in Pearl Polish by Cutex.

Yes, a complete treasure chest of beauty, packed with gold, silver, and orange gold.

What could be more exotic or flirtatious than finger tips with a Midas-like touch of gold—or more sparkling than the diamond-like brilliance of silver . . . polishes that are so "right" for the fashion styles now in vogue. And, for that touch of distinction there is sun-setting "Fire" in orange gold. Your costume will be highlighted by these Pearls on your finger tips; Pearls that will radiate their brilliance while you bask in the sun, attend household chores, or dance in the moonlight.

Never underestimate the value of a good manicure. Those broken, chewed and split nails can be your "gilted asset" with a little attention and care; and a weekly manicure will do wonders. Remove the old polish, attend to ragged cuticle, attend to roughed old oily cuticle remover and then apply basecoat. After the foundation has been laid, apply the glamour . . . with the Pearl polishes some people prefer three coats to give the added sparkle. And the final touch, a film

overcoat to protect the color from the wear and tear of everyday chores.

However, there is another 10-point tip to good grooming, and it begins at the toe level, with that all important pedicure. This season the footlight will be trained on the toes as they glitter from thong sandals, strap shoes, and through the fairy-tale "plastic" slippers, so let that glitter be gold, silver, and orange gold. Cutex has placed these gems right at your feet.

And for the "gliding around the edges," we've really got an idea . . . over the top of your favorite colors, try the thin veil of one of these Pearls. Just a shimmer of Gold lacing over the vibrant pinks makes an exotic coral, or a trace of silver over the lively blue-reds gives them a distinctive iridescence. With these jewels an entire wardrobe of iridescent colors can be created and marked "personally yours."

FISH
For a look of pace in summer menus, hang at the frozen fish packages at your grocer's. Many of the items are broader and most of them are just ready to put into the pan and cook. They do not need thawing before putting into the oven or skillet.

INSTANT RELIEF for tired, aching feet is found in Max Factor's spray bottle of Foot Light. Introduced for foot comfort for everyone, this wonderful liquid sprays right through your hosiery and pampers the feet for hours. Men like it, too.

Foot Light

Max Factor will keep you walking on air all summer with his wonderful foot spray, Foot Light. This remarkable product was especially developed by the famed beauty authority to relieve that familiar, plaguing problem in warm weather, of burning, aching feet. There is nothing more delectable to glamour, of course, than this type of foot discomfort. For the career girl and housewife, alike, it makes every step an effort, and affects the posture as well as the disposition. But with Foot Light, tired that become overheated and tired can be made to feel twenty degrees cooler in seconds.

Foot Light is as cooling and conductive to an airy step as an old-fashioned foot bath, but it is much more convenient to use. It comes in a handy, aerosol spray form, and can be sprayed right through nylons, pampering aching feet back to an airy step with a single, soothing application.

Because there is no need to remove hosiery, and it is so easy and quick to use, the container can be tucked into a summer handbag to assure protection every step of the day. It's ideal to take along on an all-day shopping spree, an afternoon out-of-doors, or a job that

requires eight hours' standing time. In addition, there is a glamour bonus that helps keep feet fresh and wonderfully deodorized, for Max Factor has incorporated hexachlorophene in the Foot Light formula. Used immediately after the bath or shower each morning, this new spray solves the problem of keeping feet completely deodorized even on long, hot summer days. It will also keep dainty feminine shoes fragrantly new all summer.

Don't forget Foot Light for the men, too. They have the same plaguing foot problems and will bless the day this new product was invented. A can of Foot Light placed in the glove compartment of a car, or provided for the driver in the desk at the office, to be used when feet are burning and tired, will add new hours of energy to a long working day.

Max Factor's Foot Light is now available at the cosmetic counters of leading drug and department stores.

EYELET BLOUSES

Iron eyelet blouses on the wrong side and preferably over a turkish towel. The texture of the towel raises the eyelet pattern and makes it look much richer than if pressed flat. Use the same idea to bring up hand embroidery on fingertip towels.

ORANGE RICE IMPERIAL is a wonderful new dessert. Pictured here on a cloud of whipped cream, it is elaborate to look upon and delectable to eat. It's easy and quick to make with five-minute packaged precooked rice as its base. Photo and recipe courtesy of Minute Rice.

Beauty Briefs

Many women gain the impression from fashion photography that it is smart to stand in a position similar to a question mark. They do not recognize the difference between an extreme pose and posture, says Max Factor, world-famed Hollywood beauty authority. Yet, the top models who pose for these pictures have unexcelled posture.

Stooped shoulders and curved spines are not only unattractive but aging. They can bring webs of lines into otherwise youthful faces. Always stand to your full height. Imagine a straight line from the top of your head down to your feet and line yourself up with it. Then, you will look smart in all of your clothes and your beautiful years will increase.

- ORANGE RICE IMPERIAL**
2 1/2 cups milk
1 1-3 cups (4 1/2-ounce box) packaged precooked rice
1/2 teaspoon salt
1 envelope (1 tablespoon) gelatin
3 tablespoons cold water
2 egg yolks
1/2 cup sugar
1 teaspoon orange extract
1 1/2 teaspoons grated orange rind
3 tablespoons Cointreau or orange juice
1 cup whipping cream
Scald milk in saucepan. Add rice and salt. Mix just to moisten all rice. Cover; remove from heat. Let stand about 5 minutes, fluffing occasionally with a fork. Meanwhile, soften gelatin in cold

water. Combine egg yolks and sugar. Add a few spoonfuls of the hot rice mixture to egg yolks and sugar; mix well. Then add egg yolk mixture to hot rice in saucepan. Add the softened gelatin, orange extract, grated orange rind, and Cointreau; mix well. Chill until mixture begins to thicken.
Whip cream and fold into thickened rice mixture. Pour into 4-cup mold to set. Chill until firm. Makes 8 servings. Garnish with additional whipped cream, if desired.
