Prison Plot Under Probe

SACRAMENTO, Calif. (AP)—State and federal officers are investigating a scheme through which six Folsom Prison inmates are reported to have received tax refunds on nonexistent 1957 earnings. Richard A. McGee, state director of corrections, said at least one of the convicts had been in prison since 1932. Tentative estimates are that the fraudulent refunds totaled \$1,600. The convicts' names were not released.

Warden Robert A. Heinze of Folsom said federal internal revenue agents will check all refunds made to prisoners this year.

The scheme involved filling in a W2 form, used by employers to report earnings and withholding tax, and reporting earnings up to \$300.

The phony forms were attached to regular income tax returns and forwarded to the Internal Revenue Service. The refund claims were based on statements that income tax was deducted for the first few months of the year, and the income stopped when the man went to prison, thus entitling the convict to a refund of money taken out for taxes.
