

CRYSTALS MADE FROM RIPE RED CHERRIES ARE
THE SECRET OF ITS REAL FRUIT FLAVOR

New! Pillsbury CHERRY Angel Food Mix

*One of America's favorite flavors—
for the first time in an Angel Food*

These tiny red crystals are made from the whole ripe cherry and, like actual bits of fruit, they spread the real cherry color and flavor all through the cake.

This is a cake that's pure pleasure to make, it's so pretty. As one woman said,

"It fluffed up in my bowl like a beautiful pink cloud!"

And water is all you add. Everything else is right in the mix—the whites of 13 country-fresh eggs, the delicate color, and the real flavor of ripe red cherries. Some family's going to have a real treat tonight. Could be yours!

*Nothing says lovin' like something
from the oven—and Pillsbury
says it best!*
