

Secretary Of Commerce Sees Recovery Speedup

Editor's Note: The passing of Labor Day traditionally marks the beginning of a general upturn in trade, industry and employment. The question this year appears to be whether the autumn will bring a marked acceleration in the recovery from recession that has been in progress for several months. United Press International asked Sinclair Weeks, secretary of commerce, to appraise the outlook. His analysis follows.

By SINCLAIR WEEKS
U.S. Secretary of Commerce
Written for UPI

WASHINGTON (UPI) — Many time-tested signs indicate the pace of recovery should speed up even faster now than Labor Day marks

Beauty Test Opening Set

ATLANTIC CITY, N. J. (AP) — The 52 beauties vying for the title of Miss America make their first official public appearance tonight in a parade down this city's famed boardwalk.

Actual competition won't begin until tomorrow night, when the girls will be judged in three categories—swim suit, evening gown and talent. Personality will be rated in interviews with a panel of 11 judges.

The climax of the contest comes Saturday, when the judges will select the successor to Marilyn Van Derbur of Denver, Colo., Miss America 1958.

Yesterday, while most of the nation enjoyed a holiday, the girls met at pageant headquarters to register for the weeklong contest, then reported for their first rehearsal.

They represent 46 states, New York City, Chicago, the District of Columbia, Canada, Alaska and Hawaii, Wyoming and Montana are the only states not represented this year.

With the crown of Miss America 1959 goes a \$3,750 scholarship fund.

Union Chief Promises Aid

NEW YORK (AP) — George Meany says "the American people can count upon the AFL-CIO to help expose whatever corruption yet exists" in the labor movement.

The AFL-CIO president, who spoke on a recorded NBC radio broadcast last night for Labor Day, also said: "There can be no place in our ranks for those who misplace the members' trust and whose misdeeds serve to bring the entire union movement into disrepute."

Meany noted that the AFL-CIO constitution bans corruption, and he added that leaders of the merged labor movement "are carrying out the responsibility invested in them by this mandate."

"We don't, of course, have police powers," Meany said. "We cannot subpoena witnesses or bank records. But we have acted." He cited expulsions of offending unions and current investigations of others.

Whooping Cranes Have Been Found

OTTAWA (AP) — Three baby whooping cranes have been spotted in the northwestern Canadian breeding grounds of the nearly extinct bird, boosting known population of the rare species to 35.

The Northern Affairs Department says two young cranes were spotted with another adult pair in Wood Buffalo National Park. The park covers sections of northwestern Alberta, northwestern Saskatchewan and the south central Northwest Territories.

Since 1945, when their numbers had been reduced to 17, efforts have been made to preserve the cranes in Canada, where they winter. The 35 now living include six in captivity.

Irate Chimp Beats Owner

PHOENIX, Ariz. (AP) — Rita, a 150-pound chimpanzee, broke out of her cage at a zoo crowded with Labor Day visitors—and knocked the stuffings out of her owner.

"When I saw her I chased her," said Les Lindvig, 42, operator of the small zoo. "With all those people there, something had to be done."

But the 5-year-old chimp was too much for Lindvig.

"I was like putty in her hands," he said. "She dragged me all over the ground."

Lindvig grabbed a pop bottle and slugged her across the face.

It broke. He grabbed another, and then Rita covered. He forced her back into the cage. Sheriff's deputies had to shoot the animal, valued by Lindvig at about \$800.

"I'm no hero," said Lindvig. "I'm still scared."

TV Quiz Show Producers Level Blackmail Charges

NEW YORK (AP) — The coproducers of the TV quiz show Twentyone have accused former contestant Herbert Stempel of trying to blackmail them.

Last week Stempel told newsmen he was given answers in advance of appearing on the program and that he was instructed to mislead other questions.

The producers, Jack Barry and Dan Enright, said last night they had evidence in which "Stempel confesses that these same charges were baseless and untrue, and were part of a blackmail scheme Stempel had concocted in order to extort a large sum of money from

the firm of Barry & Enright."

Stempel denied the blackmail accusation when asked about the Barry-Enright statement.

The producers said they had turned over the evidence to Manhattan Dist. Atty. Frank S. Hogan. Stempel said of the Barry & Enright statement: "Their statement is entirely false and malicious. I never attempted blackmail. I've never confessed to anything except that Twentyone was fixed."

Hogan declined to confirm that

Since 1951, newspaper run-of-paper color advertising has more than doubled in lineage.

material given him by Barry & Enright contained a confession from Stempel. Stempel was questioned by investigators from Hogan's office last week.

Hogan said he had received material in addition to an affidavit signed by Stempel 18 months ago in which the contestant said no answers were given him on the program.

Hogan said Stempel would be questioned further about the affidavit.

Stempel has been quoted as saying he signed the affidavit after Enright promised him a job on "Tic Tac Dough," another quiz show produced by the Barry & Enright firm.

Stempel, 31, is working on his doctorate at New York University and is a trainee in the City Department of Welfare.

He won \$49,000 on Twentyone before losing to Charles Van Doren Dec. 5, 1956.
