STOCKS

WALL STREET
NEW YORK (AP) — The stock market closed higher today after a wave of buying delayed the ticker tape for 11 minutes and pushed prices another step closer to their all-time peaks. Industrial were strong.
The rally came near the end of a somewhat cautious session. Volume for the day was estimated at 2,900,000 shares compared with 2,820,000 Wednesday.
Leading stocks rose from fractions to around a point. There were scattered losers.
Drugs, steel, some motors and rubbers as well as assorted issues throughout the list gave the market a higher tone. A few rails and chemicals also made progress.
Merck added around two points. Pfizer and Schering were ahead about one. American Cyanamid advanced more than a point. Zenith added more than three.
Gains of around a point were made by Jones & Laughlin, Caterpillar, Goodyear, Eastman Kodak and General Electric.
Small gains were posted by U.S. Steel, Ford, Chrysler, American Motors, Northern Pacific, Baltimore & Ohio, Texas Co., Libby, McNeill & Libby, Anaconda and Radio Corp.
U.S. government bonds rallied sharply.

Stolen Animal Is Diseased

McALLEN, Tex. (AP) — A guinea pig taken from a laboratory here a few nights ago may not be such a good pet, Dr. Hershel Whigham believes.
Dr. Whigham said the animal had been inoculated with tubercular bacilli for experimental purposes and that the new owner stands a good chance of infection. It was suggested that the new owner might want to leave the animal in a box at the rear of Dr. Whigham's laboratory.

Murder Case Court Jury Releases Man

A circuit court jury required just two and a quarter hours' deliberation Thursday evening to find Joe Paries innocent of second degree murder in the death of his casual acquaintance, Carl Holliday.
Foreman Thomas Lacey of Merrill returned the six-man, six-woman jury's verdict at 8:15 p.m. Five minutes later Paries was free to return to the Spruce River cabin where he lived alone—and where Holliday was shot March 15.
The angular, quiet-spoken defendant showed little more emotion upon hearing the verdict than he had during the four day trial when he sat almost motionless, his hands clasped on his lap, as testimony was being given by a sizable string of witnesses.
He went home last night — a free man.
Testimony had ended about the noon recess Thursday and opposing attorneys devoted the afternoon to final statements. Again, the position of Holliday's body was a principal factor in the arguments. The defense argued that it proved conclusively that Paries had shot in self defense; the state maintained that Holliday had been killed willfully.
David R. Vandenberg Jr. re-emphasized that Paries had shot only after Holliday, a much larger man, had started at him with a fire poker. He reviewed events of the night, as presented in testimony, and said Holliday as he moved toward Paries, glanced at a loaded shotgun near the bed.
"That look, ladies and gentlemen," Vandenberg said, "was what implanted fear in Joe's mind."
"If a man who weighs 250 pounds hits you with this," he said as he held the poker in his hand, "... it would take only one blow."

He said Paries was alone with the man he had seen only three or four times in 10 years, that there were no police and no neighbors near.
"If Paries had intended to kill Holliday," he said, "he wouldn't have attempted to shoot him in the leg, and he would have shot again. There was a live cartridge in that gun."

Vandenberg combed carefully over all the evidence presented in the case during a summary that lasted more than an hour and a half.
"Why had Paries told officers that Holliday had committed suicide?" Vandenberg asked. "He was scared, ladies and gentlemen," Vandenberg reminded the jurors that Paries had sought law officers, and he added:
"All of us are made of human emotion—all of us are made of fear."
District Attorney Arthur A. Reddick, addressing the jurors for the last time, questioned Paries' initial statement of suicide.
"Suicide!" he said. "Why in the Lord's name—when he knows the people with whom he is dealing—why didn't he tell the truth when he was at it?"
"What the answer for this shooting is, I'll never know," he said, "but this is a case of second degree murder if ever there was one."

The jury did not agree. After hearing Lane County Judge Frank B. Reid explain three possible verdicts—murder in the second degree, manslaughter or not guilty—it retired to the jury room at 5:30. After a dinner break of an hour and a half, and another hour and three quarters of deliberation, it had found its answer.

James O. Tilson Last Rites Held
ALTURA — Funeral services were held in Orland September 8 for James Otis Tilson, son of Mrs. Tilda J. Tilson of Altura and brother of Mrs. May Edwards of Davis Creek. Tilson, 48, a native of North Carolina, was killed in a woods accident near Orick, Humboldt County, September 3.
He is also survived by two daughters, Virginia and Marie of Nashville, North Carolina; a sister, Mrs. Minnie Davis of Oregon; and six brothers, Herbert of North Carolina, Wiley of Kentucky, Floyd of Anderson, Shasta County, Joe, Claude and James of Sacramento. Burial was in the Orland Masonic Cemetery.

Obituaries
PARKE
Joseph Ralph Parke, 73, native of Cassia County, Idaho, resident of Pioneer, California, died here September 11, 1958. Survivors include sons, Harvey and Ira of Cedarville, California, Fred of San Francisco; daughters, Thelma Pearl of Ritsband, California, Pearl Saunders of Castro Valley, California, Ethel Howard of Sonoma, California and Irene Manning of Rose Springs, California; brothers, Bill of Concord, California and Ira of Seattle; his mother, Mrs. Sarah Parke of Concord; a sister, Mrs. Nettie Lowe of China, California. Funeral services will be held under the direction of the Kerr Mortuary, Alturas, at a later date. Ward's Klamath Funeral Home in charge of the arrangements.

State's Governor Holmes Blasted By Power Firm

By THE ASSOCIATED PRESS
A case of erosion started the chain of events which led to the accusation that Idaho Power Co. stopped the flow of water in the Snake River.
The first public disclosure of the charge came when Pacific Northwest Wildlife Agencies said the company stopped the river's flow for 12 hours.
Idaho Power Co. promptly denied it.
And then Thursday, Gov. Robert Holmes said in Salem that the company had blocked the Snake for 24 hours and thus endangered thousands of fish.
The power company then promptly said Holmes was mistaken.
The crux of the controversy is this:
Holmes, and the conservationists, said the power firm stopped the river's flow when fish facilities broke down at its Brownlee Dam.
The governor said the stream was dried up for 50 miles—from the dam to the mouth of the Imnaha River.
This, said the governor, endangered thousands of fish—including a fall run of salmon.
After the governor's charge, the power company issued this statement:
"Governor Holmes has been grossly misinformed regarding the damage to the Oxbow fish trap facilities, as well as the charges he makes."
"To the best of our knowledge, there has been no loss of anadromous fish as a result of the emergency repair work now underway."
Representatives of both the company and the contractor will be glad to meet with him at a mutually convenient time to clear up those misunderstandings.
Anadromous fish are those, like salmon, which migrate inland from the sea.
Later Thursday night, Robert Ball, an assistant to the president of Idaho Power Co., said nothing more about the fish facilities damage would be said for the present.
However, in Boise, Forrest Hauck said he attended a meeting earlier this week in Portland at which the company and wildlife officials discussed the damage.
Hauck, fisheries research director for the Idaho Fish and Game Department, gave this account of the damage, as related by those at the meeting:
The rushing waters of the Snake had dug a large hole in rock foundations beneath a retaining wall which protects fish traps at the dam.
To prevent the wall's collapse, the flow was shut off for as long as it took water to start pouring over the top of a cofferdam.
Workmen Thursday were pumping water from one of the fish trap pools to investigate damage beneath the wall, which had threatened to collapse.
Repair of the traps and the wall probably would take about two weeks, Hauck related.
He described the fish traps as a series of successively higher pools, through which the salmon travel until they are transferred to trucks which carry them above the dam site.
Fish now blocked in the project area could be caught by nets he said.
Officials of the power company said they had received federal government permission to slow the stream flow to 2,000 feet a second to repair its fish facilities.
And they denied that any fish had thus been harmed.
Holmes had asked the president of the company to meet with him at Salem Tuesday. No meeting, however, has been arranged.
At his press conference, Holmes said he had ordered several state agencies to investigate what he said was the "cutoff."
Holmes also accused Portland newspapers of earlier suppressing news of the cutoff.
Both daily newspapers in Portland promptly said Holmes was completely wrong.
Said Arden X. Pangborn, editor of The Journal: "As far as the Journal is concerned, there is no truth to the statement of the governor's 'unimpeachable' source."
And Richard Nokes, city editor of The Oregonian, said "There has been no suppression of news by The Oregonian."

C Of C Chief Dies At 56

LAKEVIEW — Raymond A. Johnson, 56, president of Lake County Chamber of Commerce and Westside rancher, died Thursday in Lakeview after an illness of only a few days. He had experienced a heart warning more than a year ago.
He was born at Loveland, Colorado, on July 13, 1902 and came to Lake County from Lane County in 1946. He was married in 1921 in Benton County to Mary Ardelle Watson, who survives.
He was an alumnus of Oregon State College, a member of Hillside Shrine Temple, Masonic, Blue Lodge No. 11 of Eugene, the Elks and Eagles lodges, Lakeview Rotary Club, Westside Grange, Oregon State Grange, a past master of Pomona Grange, Farm Bureau member, past president of Oregon Seed Growers Association and a member of the Lutheran Church of Loveland.
Also surviving are three daughters, Mrs. Kenneth Wilson and Mrs. William Fuls, both of Eugene and Mrs. Harold Dove of Rainier, Oregon, and nine grandchildren.
Funeral services will be held from the Lakeview Presbyterian Church at 2 p.m. on Saturday with Ouseley-Osterman Funeral Home in charge. Burial will be in Resthaven Cemetery, Eugene, with graveside services conducted by the Masonic Blue Lodge No. 11 of Eugene.

Firemen Notice Cooler Weather
Indications of cooler weather could be found in reports from area fire departments Thursday.
The Suburban Fire Department was called to the home of Larry Stanley, 3526 Hilyard Avenue, at 3:57 p.m. where an overheated stove had burned several holes in a rug. Damage was small, firemen reported.
The department earlier answered a call to the parish house of Peace Memorial Church, 4431 South Sixth Street, where a stove-type trash burner overheated and burned a hole in the wall behind the stove.
The county department, with help from the OTI Department, battled a persistent grass fire near the N. E. Kooker residence at Waco at 2:43 p.m. Damage to the half-acre lot was small, firemen said, but nearby buildings were considered in danger early in the two-hour battle.

Klamath Man Plans Suit
Harold Donald Christy filed suit against the State Industrial Accident Commission seeking 85 per cent disability as a result of a fall December 3, 1957, while employed by the Swan Lake Moulding Company. Christy now has a 25 per cent disability rating.
David W. and Marjorie J. Seutter have sued Leo H. Burgett for payment of a \$4,000 promissory note issued January 21, plus 6 per cent interest, plus \$1,000 attorney's fees.

Youth Winner In Chess Play
PORTOROZ, Yugoslavia (AP) — Bobby Fischer, the 13-year-old Brooklyn wonder kid, has the distinction today of being the youngest Grand Master in the long history of chess.
Bobby achieved the title Tuesday night when he wound up fifth in the six-week international chess tournament set up to determine six potential challengers for the world title.

Singer Becomes Mother
NEW YORK (UPI)—Singer Sunny Gale, wife of Noel Kramer, a theatrical executive, gave birth Thursday to a seven-pound seven-ounce girl.

Researcher (Continued from Page 1)

ommendations of its own committee. The question of rebuilding the institution at or near its present site, or elsewhere, is expected to come before the 1959 Legislature.
The Fletcher report agrees with the interim committee's recommendation that OTI be transferred from the jurisdiction of the State Board of Education to that of the State Board of Higher Education. However, its status under the new recommendations would be that of a school within OSC, rather than that of an institution of higher learning alongside those already existing. Fletcher's recommendations include one according to which a second technical institute, beside the one in Corvallis, could be created, "when needed," in Portland.
An additional recommendation of the Fletcher report is that OTI coordinate its medical and dental technician courses with the programs of the University of Oregon's medical and dental schools, both of which are in Portland.
The section dealing with OTI concludes with the following interim recommendations:
"That until such time as OTI can be located at the OSC campus, it observe the following recommendations, many of which will be applicable also to OTI in its new setting at OSC:
1. That the number of major objectives of OTI as currently operating be appropriately reduced.
2. That the catalog of Oregon Technical Institute more clearly define the student admission requirements in terms of objectives of the institute.
3. That the terminology used in curriculum titles be more meaningful and more in keeping with national usage.
4. That the institute discontinue the practice of combining students who are scheduled in a course for elective or service purposes with those who are majors in the particular area of instruction.
5. That the institute make provision for more equipment of the engineering type to be used by students in the science and testing laboratories.
6. That the selection of teaching personnel be continued on the basis of the educational, occupational, and professional qualifications required by the level and type of instruction to be provided.
7. That academic degrees be considered more frequently as a prerequisite for teaching in the technical institute type programs.
8. That a greater effort be made to encourage faculty members to work toward either their first or advanced college degree during summer months and leaves of absence."
These recommendations, which will be included in a final report to be released in a few weeks, were presented in draft form to the State Board of Education last week. The board has given no indication whether it would approve or reject the recommendations.

Fletcher, hired expressly for this study, is director of the School Survey Service of Ohio State University, Columbus.

Russia Reply Set By Chief
NEWPORT, R.I. (AP) — President Eisenhower plans to reply within 24 hours to Soviet Premier Khrushchev's message demanding that the United States pull its forces out of the Formosa Strait area.
The President's plans were announced today by press secretary James C. Hagerty shortly after Eisenhower flew back to his vacation headquarters from Washington.

In the capital Thursday night the President made a nationwide television-radio address telling Red China to negotiate over the situation in the Far East, or be prepared to fight.
Now he intends to follow up that speech with a reply to Khrushchev.
In his message which was made public last Monday, Khrushchev said any attack on Red China would be regarded as an attack on the Soviet Union.
He also called on the United States to recognize the Chinese Communist regime. This country always has refused to do so and there is no present likelihood of any change in that policy.

NO WHISKY
KOUNTZE, Tex. (AP) — For years there has been a rumor pranksters put a bottle of whisky in the cornerstone of the Hardin County Courthouse. Yesterday the cornerstone, placed in 1904, was opened. There was no whisky.
Citizens said whisky or no, the whole thing fits in with the Kountze slogan: "The town with a sense of humor."

REVISSED TIMBER SALE
September 19, 1958 at 2:00 P.M.
NOTICE IS HEREBY GIVEN that the State Highway Commission will sell at oral public auction to be held at the State Highway Maintenance Building, Chemult, Oregon, at 2:00 P.M. on September 19, 1958, the following:
All of the merchantable ponderosa and lodgepole pine logs marked with the OSMC brand and yellow paint piled in log decks alongside Oregon State Highway 68 (Willamette Hwy.) on the Middle Unit, Crescent Lake Jct.—The Dalles-California Jct. Section, Klamath County, Oregon, between approx. 8 1/2 miles S. of Crescent Lake Jct. and 585 00. The logs are property of the Oregon State Highway Comm. and are situated on lands belonging to the U.S. Government (Deschutes National Forest). The minimum bid which will be accepted is \$2,420.00. Sealed bids will be accepted in place of oral bids if received at the office of W. H. Haskin, Property Mgr., State Hwy. Dept., Salem, Oregon, by Sept. 18, 1958, plainly marked on the envelope "Timber Sale, Sept. 19, 1958", accompanied by a certified check of not less than \$500.
TERMS OF SALE: Cash. The above timber to be sold to the highest bidder at public auction with the right reserved to accept or reject any or all bids. The successful bidder will be required to enter into a Timber Sales Agreement.
All timber must be removed on or before October 8, 1958.
FOR DETAILED INFORMATION: W. H. Haskin, Property Mgr., State Hwy. Dept., Salem.

Red Cross, CD Volunteers Planning Disaster Drill

Over 60 Red Cross and civil defense volunteers are holding meetings this week and reading plans for a disaster drill to be held at the county fairgrounds from 4 to 7:30 p.m. Monday, September 15, as a prelude to the annual meeting of the Klamath Basin Chapter of the American Red Cross. Decision of the local chapter to feature disaster preparedness at its annual meeting was prompted by the need for local training in meeting disaster.
Under the leadership of Mrs. Charles Dakin, canteen chairman of the local Red Cross, 21 women volunteers are enrolled in a mass canteen feeding class which has been meeting this week in the lecture room of the county library, with Mrs. Carl Stolpe serving as volunteer instructor.
Dr. Seth Kerron, public health officer and M.Sgt. Robert Long, Kingsley Field, have presented sections of the training. The field exercise September 15 will be supervised by Sergeant Long. The Oregon State Civil Defense has supplied all equipment necessary for cooking and serving the food under disaster conditions, and this equipment will remain permanently in the community.
Staff aids have selected members to serve as registration and information workers under the chairmanship of Mrs. Lary Watkins and Mrs. Cardula Eels. First aid volunteers will serve under the direction of Dr. R. Wayne Esperson, head of the medical section of civil defense.
Communications will be provided by local civil defense volunteers. Contact will be established with disaster volunteers in Medford, and the Jackson County Chapter of the Red Cross has indicated great interest in participating in the drill through the communication service of ham operators, as the first step in working out plans for mutual aid in case of disaster occurring in either community.
Anthony Cardello, staff member of the Oregon State Civil Defense Department, will attend from Salem to observe the drill. Visitors are expected from outlying towns including Tulelake. Over-all planning for the exercise has been directed by Otto L. Smith, disaster chairman of the local Red Cross chapter, and M. A. Gordon, civil defense director for Klamath County.
Election of new officers and board members and recognition of volunteers are slated for the general meeting which will conclude the disaster drill.
