

Father Saves Daughter, 3

BAKER, Ore. (AP)—Donnell Jean Roper, 3, was under water in the city reservoir about five minutes Thursday before she was rescued.

Tom Roper, 31, her father, had driven home for lunch. He left his pickup truck, with a door open in front of the house. The child was playing in the yard, climbed in and apparently released the brake.

Roper and his wife heard a crash. They went outside and found that the truck had gone down a 100-foot hill, hurtled through a wire fence and plunged into the reservoir.

Roper dove into the 14-foot-deep reservoir but its waters were so muddy he could not see. He said that the second time he went down, "it was so cold, I couldn't reach the bottom."

But this time his daughter had floated to the surface when he reached it. Roper towed her to shore. His wife applied artificial respiration until an ambulance arrived.

After fireman Leonard Baker, the ambulance attendant, applied a resuscitator, the girl regained consciousness in 35 minutes. She was taken to a hospital, where she apparently was recovering.

The reservoir had to be drained because of gasoline and oil from the truck. An auxiliary reservoir was used to supply water to the city.

MICHAEL J. STARR

Sailor Enters Music School

A Klamath Falls youth recently entered the Navy School of Music in Washington, D.C., which is noted for its stiff entrance requirements and excellent instruction.

Seaman Apprentice Michael J. Starr, USN, son of Mr. and Mrs. Walter H. Starr, 2528 Vine Avenue, took the school's entrance examination in San Diego, and passed with outstanding grades in all phases of the test.

He has now entered the school, after a two-week leave in Klamath Falls, having completed his Navy recruit training late last month.

Starr, who graduated from Klamath Union High School in June, played with the KU band and has been studying the clarinet with LaMar Jensen for the past five years.

After completing his six-month course in Washington he will be assigned to one of the many Navy bands.

Young Starr had already had a taste of Navy band playing before he signed up at the local recruiting office.

When the Navy band visited here last spring he played with it during one performance.

Starr, who is a member of the National Association of Young Musicians, is the first Klamath Falls youth to enter the Navy School of Music.

Starr is the son of Mr. and Mrs. Walter H. Starr, 2528 Vine Avenue, Klamath Falls.

Long Crusade Is Abandoned

NASHVILLE, Tenn. (AP)—Fyke Farmer, whose efforts for a world government brought fleeting fame but scant success, abandoned his 12-year crusade Thursday to go to work. He's broke.

"I've sacrificed everything and have nothing else for the struggle," said Farmer. He is resuming his law practice here.

Farmer tangled with ex-President Truman over the Korean war, won a brief respite for doomed atomic spies Julius and Ethel Rosenberg and even promoted a world constituent assembly at Geneva in 1950.

"I had to stop fighting for world government to make a living," said Farmer resignedly. "I can't voluntarily resign from life."

At an end to the lean Tennessee lawyer's two major attempts to further peace—through a world government and by getting nations to accept international law.

The latter try ended June 9 when the U.S. Supreme Court refused to review lower court rulings that Farmer must pay his 1949 income tax of \$4,750.

Farmer had declined to pay the tax, arguing much of it would be used to finance the Korean War. He maintained wars were illegal under international law.

Farmer failed in two attempts to subpoena former President Truman to appear in court for questioning on the conduct of the Korean conflict.

The 37-year-old attorney's attempt to establish an international government drew some 500 persons from 45 countries to the world constituent assembly at Geneva. Farmer was elected president and a proposed world constitution was drawn up. Little more was heard from this group.

Mail Service To Be Better

CINCINNATI (AP)—Postmaster General Arthur E. Summerfield says there will be better mail service in the future despite a lack of facilities and an increasing volume of mail.

Summerfield was scheduled to be the principal speaker Thursday at the closing convention banquet of the National Assn. of Postmasters, but a strained throat prevented him from giving the speech in person.

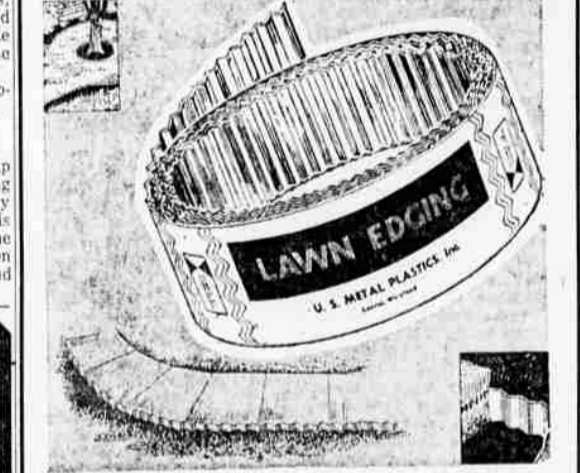

Dep. Postmaster General Edward O. Sessions read it for Summerfield as his boss sat alongside him.

Summerfield said that recent increases in postal rates have not solved the postal deficit.

Judge Favors Prostitution

WALNUT GROVE, Calif. (AP)—Judge Milo E. Dye, who will be 76 Nov. 12, says he favors state controlled houses of prostitution.

The judge made that statement to newspapermen Thursday after assessing a total of \$850 in fines from a man and four women who had been arrested in a brothel raid.

He had to enforce the law even if he did not agree with it, he declared.

State-controlled houses, he contended, would protect "our juveniles and virtuous women."

The judge mentioned the large numbers of transient workers in his area, which is about 70 miles northeast of San Francisco. He said they "should have the opportunity, perhaps, of obtaining personal satisfaction."

The judge is retiring Dec. 31 to go fishing and said his statement was an "idea I want to leave with the boys."

Jet Tanker Sets Record

SPOKANE, Wash. (AP)—A KO135 jet tanker plane streaked to nine unofficial world speed records for cargo craft Wednesday, the Air Force announced Friday.

The four-jet tanker, a version of Boeing Airplane Co.'s 707 commercial jet airliner, zoomed through the skies at an average of 587.13 miles an hour.

It traveled a 5,000 kilometer (3,107 miles) course, consisting of five closed circuit laps, from a point near Spokane to Hoquiam, Wash., on the Pacific Coast and the return, said Col. D. E. Hillman, 92nd bomb wing commander at Fairchild Air Force Base, the pilot.

It carried a payload of 10,000 kilograms (22,046 pounds).

The speed records, computed in relation to the cargo carried, included one for a plane traveling a 5,000 kilometer course with a payload of 5,000 kilograms at an average speed of 587.13 miles an hour, and another for a plane carrying a payload of 10,000 kilograms on a measured course of 1,000 kilometers attaining a speed of 598.6 miles an hour.

The flight marked the longest non-refueled closed circuit flight distance for jet aircraft. Normally the plane is used for mid-air refueling of Boeing B52 jet bombers.

The flight was unofficially verified by the National Aeronautics Assn. It awaits official recognition by International Aeronautics Assn. It lasted little more than five hours, Col. Hillman said.

News of the records was withheld until Friday for unofficial verification by the NAA. Hillman said.
