The Whole Story of Man

WARS, plagues, barbarian invasions—no disaster in man's 6000 years of history has been able to halt his irresistible march of progress. Here, in two big illustrated volumes, is H. G. Wells' fabulous story of those 6000 years, brought right up to modern times.

The *Outline of History* vividly portrays the whole broad scope of human struggle and achievement—from the earth's beginning and the coming of man to the first civilizations; from the fall of Rome and

the birth of Christianity to the spread of Islam and the Age of Great Powers; from the first modern revolutions to two World Wars and their aftermath! Here, in short, are all the epic events that have swept the world from the age of dinosaurs to the age of the atom!

H. G. Wells' *Outline of History* is one of the most acclaimed works of the 20th century. Although a 2-volume set, it counts as just one book in this amazing 3-books-for-99¢ offer to new members.
