

Reds Extend Cease-Fire

TAIPEI, Formosa (AP) — The Chinese Nationalists pushed their restocking of the Quemoy today as Red China stretched its cease-fire from one week to three.

Two LSTs discharged their ammunition and supply cargoes on Quemoy's beach a few hours after Peiping announced that the one-week cease-fire expiring last midnight was being extended for two more weeks.

Quemoy's civilians relaxed. More farmers went to their fields than at any time since the Communists started their massive artillery siege Aug. 23.

The activity center may now shift to diplomatic talks in Warsaw between Red China and the United States. The eighth meeting of ambassadors is Wednesday.

The Chinese Nationalists hailed the second stage of the cease-fire as another Communist defeat, but were suspicious both of Communist intentions and of the talks in Warsaw.

Sampson Chen, government spokesman, declared "we should not let down our guard" because the Communists probably would use the next two weeks to prepare their next move.

There was speculation that the Nationalists were now prepared to reply with a massive bombardment of their own if the Red Chinese again open up.

Col. Douglas Lane, chief U.S. military adviser on the island, said on leaving for Formosa for conferences that Quemoy now was "in as good or better position" supply-wise as on Aug. 23.

SF Bay Yields Escapee Body

SAN FRANCISCO (UPI) — The body of convict Aaron Burgett was recovered from the water near Alcatraz Island Sunday, just 13 days after the Missouri bandit made his bid to escape "The Rock."

His badly decomposed body still was clad in prison clothes, and officials at Alcatraz said one clear thumb print verified the identity.

Burgett's escape effort was not a desperate try, but apparently a well-planned bid for freedom.

Slabs of plywood had been bound to his feet with wire as substitutes for swim fins to help conquer the turbulent one and a quarter miles of bay between Alcatraz and San Francisco.

Burgett had extra socks under his heavy brown boots, and his trouser legs were bound at the ankles with black plastic tape — presumably to prevent them from ballooning during the long swim.
