**Editor's Note:** The market reports listed below are yesterday's markets, not today's, and are carried as a service to those subscribers in early delivery zones which make publication of daily markets impossible within the route schedule.

## STOCKS

**NEW YORK (AP)**—A late selling wave knocked many stocks down \$1 to \$4 in very heavy trading today. The selling mounted in the last hour and at the finish the ticker tape lagged 13 minutes behind floor transactions.

Until the last hour the market churned about indecisively with oils mostly a little stronger and metals weaker. Then the weakness in metals became more pronounced and spread to other sections.

Volume for the day was estimated at 4,700,000 shares compared with 4,550,000 Monday.

Gains and losses of fractions to about 2 points were posted for key stocks.

The ticker tape was late repeatedly as cross-currents of buying and selling pressure swirled with the market at or near an historic peak.

Studebaker-Packard was active and up close to a point. Bethlehem went ahead more than 2 and then slipped nearly a point from the rise.

Coppers, wide gainers recently, were clipped by profit taking. Magma and International Nickel were each off 2 points or so and Kennecott's loss was close to the same range. Anaconda fell about a point.

## Mexican Actress Given Film Role

**HOLLYWOOD (AP) —** A little known Mexican actress, Pina Pellicer, has won the coveted leading role opposite Marlon Brando in his next picture.

Miss Pellicer, a tawny-eyed brunette, is 22, unmarried and speaks hesitant English.

Producer Frank Rosenbergl spotted her starring as Anne in the stage and television versions of "The Diary of Anne Frank" in Mexico City. A screen test brought her to the role in Brando's "One-Eyed Jacks."

## LUNCHEON

**MONTAGUE —** A potluck luncheon opened the afternoon's events for the joint meeting of the Shasta Valley and Edgewood Farm Bureau Women in the club room of the Montague auditorium on Saturday afternoon, October 4, with Mrs. Ellen Tupper, county chairman, president. This was the semi-annual meeting of the Shasta County Farm Bureau Women.

## Local Firms Join Drive

In anticipation of the weekly report meeting, scheduled for next Wednesday, of the current United Fund-Red Cross drive, Chairman Dick Landenschlager released the names of the following establishments which have qualified for Oscars through their employees' giving:

Chris' Moulding.  
Pine Industrial Relations Council.  
Klamath Machinery Company.  
Allamont Junior High School.  
Klamath Disposal, Inc.  
Valley Pump and Equipment.  
Dick Reeder's Store For Men.  
Mann Piano Company.  
Shaw Stationery.  
Oregon Food Stores.  
Dye Insurance Agency.  
Lyle Kellstrom Real Estate.  
Schroeder Realty.  
Southern Oregon Realty.  
Basin Motors.  
General Petroleum Distributors.  
Standard Oil of California.  
Firestone Service Store.  
Ballou and Wright.  
Klamath County Welfare Department.  
P. e. c. e. Memorial Presbyterian Church.  
Dale's Barber Shop.  
Allamont Elementary School.  
Simplo-Devoe, Chilquin.  
O'Connor Livestock Company.  
Bly elementary and high schools.  
Gilchrist elementary and high schools.  
Twyila Ferguson Elementary School.

## Yreka PTA Holding Drive

**YREKA —** Membership chairman of the Yreka Parent Teachers Association current campaign, Mr. and Mrs. Fred Meambler Jr., Yreka, released a report that so far in the membership drive the Yreka PTA has attained 324 members out of the set goal of 600.

The members are urging that parents "Join today for their tomorrow," placing particular emphasis on the participation of fathers as well as mothers this year. At present the membership boasts 137 mothers, 79 fathers, and 18 teachers.

Monies derived from the dues and the annual carnival are used for organization expenses of PTA; a yearly project for the school; welfare of needy children; flowers and corsages at graduation; and help toward the seventh and eighth grade student parties.

This year's school project is to purchase playground equipment for the Gold Street School.

Welfare includes provision of luncheons, usually for four or five students at the cafeteria throughout the school year. There is a used clothing room at school, the clothing being donated by parents, but shoes are purchased by the PTA when the need arises.

There is also a health fund, which provides dental care, and at times food baskets are provided.

Although it has been urged that as many parents as possible join PTA this week, the rolls will remain open and those wishing to do so may join at a later date.

Mrs. Morris Friedman is this year's president of the Yreka PTA.

## Ham Locates Sputnik IV

**KANSAS CITY (AP) —** Is there a new electronic voice in the sky? Sputnik IV?

"It's a new satellite," says amateur radio operator Elmo Melton, "or else someone mighty weird thinks he's happening."

The 59-year-old Melton said he heard a new signal Tuesday night at intervals of 100, 105 and 117 minutes. Melton, who listens almost nightly for Sputnik No. 3, insists it is a new signal. "Sputnik 3 sounds like a slow letter A," he said. "This one resembles a fast T, about four dashes a second."

He said he first heard the radio signal Monday morning and it has been growing stronger. The Naval Research Laboratory in Washington said it had not received any new signals.

Melton said one of Tuesday night's signals came two minutes after the expected "beep" of Sputnik III. The signal comes in on the same frequency as Sputnik III — 20,005 megacycles, he said.

Ullman is opposed in the 2nd Congressional District by Republican Marion T. Weatherford of Arlington.

## Upturn Lags On 2 Fronts

**WASHINGTON (AP) —** Recovery from the recession slowed down a bit last month on two vital fronts—industrial production and housing. But the statistics showed continued improvement.

The output of factories and mines advanced one point last month on the Federal Reserve Board's seasonally adjusted index of industrial production.

This put the index at 137 per cent of the 1947-49 average in what the board described as the smallest monthly increase since production began rising from the recession low of 128 per cent in April.

The index figure for August originally was set at 137 also but the board said this was revised downward to 136. For August of last year the index hit a 1937 high of 143.

The board attributed part of the smallness of the September production increase to work stoppages and model changes over in the automobile industry.

It said production of nondurable goods and minerals continued to increase in September while production of durables was unchanged.

## Warden Lauds Britton Bastille

The warden of the State Penitentiary at Salem went out of his way to visit Klamath County's jail over the weekend and left immensely pleased that he did so.

Sheriff Red Britton said Warden Clarence Gladson wanted to visit the jail because he had heard so much about it and because prisoners sent to the penitentiary from here "were so easy to handle and no discipline problem at all."

Gladson stopped here Saturday on his way home from a Napa, California, vacation and purposely went out of his way to stop at Klamath Falls, the sheriff said.

The warden expressed pleasure with the jail's management, security conditions, meals and-to be sure — its television sets. Britton said.

## Idaho Demo Plugs Ullman

**PENDELTON, Ore. (AP) —** Sen. Frank Church (D-Idaho) was in Pendleton Tuesday to campaign for the reelection of Rep. Al Ullman (D-Ore).

Church, who fought for construction of a high federal dam in Hells Canyon, said he has asked the Federal Power Commission to investigate the loss of migrating salmon at the Idaho Power Company's Oxbow Dam.

Oxbow is one of three low price dams authorized by the FPC in place of the high Hells canyon project.

At least 1,000 salmon were stranded at Oxbow earlier this month when Idaho Power shut off the flow in one section of the river bed to put its damaged fish trap back into operation, Oregon fish authorities said.

Ullman is opposed in the 2nd Congressional District by Republican Marion T. Weatherford of Arlington.

## Idaho Demo Plugs Ullman

**LAKEVIEW —** Seven out-of-town bidders and three local men were successful in the bidding for Christmas trees at the auction held by the Fremont National Forest, Monday afternoon, October 13, according to Jack Saubert, timber management officer.

A total of 11,000 white fir and 1,500 lodgepole pine trees were sold. All of the latter went to A. L. Breuner of San Lorenzo, California, at prices from 20 to 30 cents each. These were in the Silver Lake District.

Prices on the white fir ranged from 75 cents to \$1.20 a tree. The buyers of these were Jerry Barry and Ervin Moulton of Lakeview; Paul E. Brattain, Paisley; George Yockel, Ashland; William Berit, South Gate, California; Ross Dodge, Los Altos; Paul Barger, Bakerfield; Ross White, Keelville; and Leslie Wing, Los Angeles.

Not all bids were accepted in the 23 areas of the forest that were included. Bidders were required to deposit \$250 in order to qualify for the sale, and this was returned to those unsuccessful.

Saubert reports that the Forest Service will increase its patrol and supervision of the commercial Christmas tree cutting this year.

**THE 1959 PLYMOUTH** will be on the showroom floor at Jim Olson Motors, 522 South Sixth Street, beginning Thursday morning, October 16. Show here is Jim Olson with the Sport Fury, the top line of the 1959 Plymouth models. New styling includes double barrel front fenders, new rear sport deck, swivel seats, and other exclusive features never before available in the low price field. It will be available for inspection Thursday morning at Jim Olson.

## Unveiling Set For New Ship

**LOS ANGELES (AP) —** A rocket-ship designed to carry man to outer space and back will be rolled out for public view today.

Vice President Nixon and a shiny array of governmental brass will be on hand for the ceremony, the first public debut ever staged for an experimental plane.

The new spaceship, the X15, is expected to make its maiden flight in January. Soon thereafter it will begin streaking through the sky—a stainless steel needle with its tail on fire—on test hops at speeds that may range up to 4,500 miles an hour.

One day, if all goes well, the X15 will blast up to its maximum altitude, estimated at 400 miles above earth, and man will have reached the threshold of the stars.

There, in the satellite zone, the pilot will push his ship's nose over and try to get back to earth—alive.

As the thickening atmosphere begins to drag at his craft, this spaceman will see something no human has ever seen before: The polished metal skin of the X15 will glow, then turn cherry red from the thousands of degrees of heat building up along the surfaces of its stubby wings.

If the ship holds together—if the pilot does everything just right—he will land safe. If ship or pilot fail, a smoking cinder high in the sky will mark the spot where another hero died.

When will this all-out effort take place?

Nobody knows. Space boss Roy W. Johnson recently disclosed plans to shoot a man into space within the next 24 to 36 months and many assumed he was talking about the X15.

**Eastern Oregon—**Partly cloudy in north, fair in south tonight and Thursday; slightly cooler in extreme north. Highs 65-75 in north, 75-80 in south; low tonight 35-45.

**Western Oregon—**Mostly foggy or cloudy nights and mornings with some morning drizzle along coast, clearing in afternoons; slightly cooler over interior. Low tonight 42-52; high Thursday 62-74. Coastal winds northerly to northeasterly, 5-15 m.p.h.

**Northern Oregon beaches—**Mostly fair through Thursday except late night and morning fog or low clouds. Temperature range 45-64 degrees. Winds gentle, variable.

**Grants Pass and vicinity—**Fair through Thursday except some high clouds. Highs near 80; low tonight 40-45.

**Baker-La Grande area—**Fair but somewhat cooler through Thursday. Low tonight 26-32; high Thursday 68-73.

## Christmas Tree Auction Held

**LAKEVIEW —** Seven out-of-town bidders and three local men were successful in the bidding for Christmas trees at the auction held by the Fremont National Forest, Monday afternoon, October 13, according to Jack Saubert, timber management officer.

A total of 11,000 white fir and 1,500 lodgepole pine trees were sold. All of the latter went to A. L. Breuner of San Lorenzo, California, at prices from 20 to 30 cents each. These were in the Silver Lake District.

Prices on the white fir ranged from 75 cents to \$1.20 a tree. The buyers of these were Jerry Barry and Ervin Moulton of Lakeview; Paul E. Brattain, Paisley; George Yockel, Ashland; William Berit, South Gate, California; Ross Dodge, Los Altos; Paul Barger, Bakerfield; Ross White, Keelville; and Leslie Wing, Los Angeles.

Not all bids were accepted in the 23 areas of the forest that were included. Bidders were required to deposit \$250 in order to qualify for the sale, and this was returned to those unsuccessful.

Saubert reports that the Forest Service will increase its patrol and supervision of the commercial Christmas tree cutting this year.

## Philosopher Goes To Jail

**HOUSTON, Tex. (AP) —** A philosopher, who traveled through the Northwest with Plato and a pistol as companions, brooded in a hospital cell Tuesday over his dead dream of becoming a writer.

James B. Campbell, 34, is recovering from bullet wounds suffered during an attempted robbery last Thursday.

Campbell said he embarked on a six-month, cross-country odyssey of crime to finance a stay in Mexico where he planned to study writing and philosophy. He admitted robberies in Tacoma, Wash. and said he at one time lived in Grants Pass, Ore.

He said his criminal career began in New Jersey in 1947, that he went to prison for seven years for armed robbery.

Campbell said he read a lot in prison and got interested in writing about the time he was released.

"It's very difficult to make someone understand how good and evil can occupy a man's mind," he said. "I do believe in God and yet go out and commit a crime."

So now he is in a hospital cell and meditates on where and how he went wrong.

"I guess," he said, "I never followed Plato's advice — 'know thyself.'"

## Strike Called By Rightists

**ALGIERS (AP) —** Rightist politicians in Algeria called for a general strike Thursday afternoon during demonstration protesting Premier de Gaulle's order banning the French army from politics in the North African territory.

In Paris, Gen. Raoul Salan, military governor of Algeria, and Gen. Paul Ely, commander of all French forces, met with De Gaulle and the Cabinet. It was assumed the Premier was impressing on them his determination to reimpose the government's authority over the army in Algeria.

Civilian members of the Central Committee of Public Safety for Algeria, who touched off the May 13 revolt against the Fourth Republic that brought De Gaulle back to power, raised the threat of a similar rebellion against De Gaulle.

The Algerian politicians, already openly dissatisfied with De Gaulle's overtures to the Algerian Muslims, said they would "continue their fight for the objectives of May 13" — integration of Algeria into France, which would preserve French control.

## Funeral

**WADE**  
Napoleon B. (Bert) Wade, 75, native of Clackamas County, Oregon, resident of Klamath Falls for 30 years, died here October 13, 1958. Survivors include sons, Ben of Newport, Oregon, William W. and George of Orofino, Idaho; daughters, Leona Ware of Idanha, Oregon, Sadie Baker of Spokane, Dolly Morton of Snohomish, Washington; a sister, Anna Ziegler of Oswego, Oregon; also 11 grandchildren and two great-grandchildren. Mr. Wade was a member of Klamath Lodge No. 137, IOOF. Funeral services will take place from the Ekman Funeral Home in Silverton, Oregon, with interment in the Maple Grove Cemetery at Scotts Mills, Ward's Klamath Funeral Home in charge of the arrangements.

## Atheism School Opens In USSR

**MOSCOW (AP) —** The Soviet Union has opened a University of Atheism in Ashkhabad, capital of its Central Asian republic of Turkmenia.

Tass today reported the opening lecture was entitled "Marxism and Leninism on Religion and Ways of Overcoming It." The course will consist of 60 lectures. Ashkhabad is in a predominantly Muslim part of the Soviet Union.

One day, if all goes well, the X15 will blast up to its maximum altitude, estimated at 400 miles above earth, and man will have reached the threshold of the stars.

There, in the satellite zone, the pilot will push his ship's nose over and try to get back to earth—alive.

As the thickening atmosphere begins to drag at his craft, this spaceman will see something no human has ever seen before: The polished metal skin of the X15 will glow, then turn cherry red from the thousands of degrees of heat building up along the surfaces of its stubby wings.

If the ship holds together—if the pilot does everything just right—he will land safe. If ship or pilot fail, a smoking cinder high in the sky will mark the spot where another hero died.

When will this all-out effort take place?

Nobody knows. Space boss Roy W. Johnson recently disclosed plans to shoot a man into space within the next 24 to 36 months and many assumed he was talking about the X15.

## Special! Johns-Manville Colorbestos Siding Sheets

**Regular \$35 Per Square. Somewhat Damaged but Still Useable for GOOD SIDING. While it Lasts \$16.00 Per Square.**

This is your opportunity to get a High Class Asbestos Product at Less Than The Price of Ordinary Asbestos Shingles.

## Klamath Knife, Fork Club Given Lesson In Physics

Glenn L. Morris, a Wisconsin science teacher, brought elementary physics to the dinner table Tuesday night during the second in the fall-winter series of the Klamath Knife and Fork Club.

To the faithful group, meeting in the Willard Hotel, Morris demonstrated the geiger counter and how it measures radioactivity; a solar battery and radio beams as an aid to instrument flying.

He noted during his first demonstration dealing with the counter, that scientists have learned through earth satellite experiments, there is more radiation in the outer atmosphere than believed.

Morris said that cosmic rays may affect space travel longer than first imagined.

Sun power is probably the coming thing he said, because our supply of oil is diminishing. He reported that on a sunny day the amount of sunlight falling around a home is equal to 150 pounds of coal, but, as yet, only a small percentage of this sun has been put to practical use.

The solar battery demonstration was conducted by connecting a small (2x3 inch) solar battery to his portable radio and using the energy provided by a sun lamp, making the radio play.

As a teacher, Morris pleaded for more teachers of science and in the field of engineering. He commented that in the late 1800s, near the turn of the century, approximately 20 per cent of high school graduates had had courses in physics. Today, he said, less than five out of every hundred pupils who leave high school are acquainted with that subject.

He commented that industry is taking away many prospective science teachers because teachers are not paid as highly as physicists, chemists, biologists or engineers.

## Lalo Case Dismissed

Circuit Judge David R. Vandenberg dismissed Tuesday the state's case against Grace Lalo of Chiloquin, charged with contributing to the delinquency of a minor.

The judge acted favorably upon a motion for dismissal made by Mrs. Lalo's attorney, Glenn D. Ramirez, in the course of a circuit court trial.

Mrs. Lalo was accused of buying a case of beer at a South Sixth Street tavern and placing it in the car of a then 17-year-old, last April 24. She was convicted of the charge in a district court jury trial September 9. Ramirez appealed the decision.

Judge Vandenberg, in dismissing the charge after four hours of a frequently interrupted circuit court trial Tuesday, told the 10 women and two men of the jury that the state was obligated to show that Mrs. Lalo had given the case of beer to the minor, that he was 17, and that he was not a member of her family.

"In the testimony you have heard," the judge said, "at no time has there been a statement made that Grace Lalo gave any beer—not a case, but any beer—to him."

He said he had checked the record three times but found it "absolutely void of admissions that she gave beer to the minor."

On the basis of the evidence, he told the jury, "if you had brought in a verdict, I would have had to set it aside... it is my duty to take this case away from you."

"The motion is granted," he said, "the case is dismissed."

## High Schoolers Plan Bowl Trek

**YREKA —** The officers of the Yreka chapter of the California Scholarship Federation of the Yreka High School held a council meeting on Friday afternoon, October 10.

The council voted to make a trip to the Mt. Shasta Ski Bowl for Privilege Day. This is a day set aside each semester for students to take a day off from school and participate in an educational tour.
