

# Police Catch Speedy Solon

WOODBURN (AP) — State Rep. Richard E. Groener (D-Milwaukie), militant foe of the Oregon State Police high command, was convicted and fined \$25 Thursday for violating the basic speed law.

The fine was imposed by Justice of the Peace Irving Brown. Groener said he would appeal to the district court.

Groener was arrested by a state police officer at Brooks. He was charged with driving 65 miles an hour in a 35-mile zone on Pacific Highway East.

Groener has demanded the ouster of State Police Supt. H. G. Mason.

Gov. Robert D. Holmes has stood by Mason, calling him one of the best police officers in the country.

The State Department of Motor Vehicles said Groener has been arrested seven times for traffic violations, and was convicted of each time.

Three of the convictions were for speeding, one having been in Feb. 1934, and another in last March. He also has 13 accidents listed against his record.

Groener claims the state police are persecuting him by arresting him.

Officials of the Department of Motor Vehicles said they expect to interview Groener about his record. It could lead to suspension of his driver's license, they said.

# CITY BRIEFS

**Henley Bethel No. 51** — International Order of Job's Daughters will meet at 7:30 p.m. Monday, October 20, at the Henley Grange Hall. Take money from candy sales.

# Better Telephone Service Starts Today In Montague

MONTAGUE — New telephone numbers with improved dial service for subscribers in Montague and surrounding communities, encompassing an area of some 400 square miles, came about when the newly installed telephone dial central office went into action at 12 noon on Friday.

The new system carrying some 300 lines, was installed in the newly constructed building located at Twelfth and Webb streets in Montague, under the supervision of Edwin T. Aschow of Sacramento, supervisor with the Western Electric Company, and Frank Nugent, senior wire chief of the Yreka office of the PT and T Company.

Construction of the building to house the new equipment was completed in December, and installation of equipment was started July 30.

One interesting feature, pointed out by Nugent, the carriers which are designed solely for rural areas. The carrier, as explained by Floyd Dill, manager of the Yreka telephone office, is a high-frequency radio, entirely transistorized, and superimposed over a pair of wires that serves 40 families. There are five such channels for the Montague office, which will handle service in Little Shasta, Big Springs, Beswick and Willow Creek.

Dill said "If it wasn't for the carriers it would be almost impossible to give service to all outlying areas." Nugent stated that this new carrier is the first of its

# GOP Nudged By Democrats

WINDOW ROCK, Ariz. (AP) — It's hard for Navajos to understand the difference between the Republican and Democratic parties.

So Mrs. Annie Waukeka, a member of the Navajo Tribal council, decided to simplify her political teaching by using the party symbols—the Democratic donkey and the GOP elephant.

But, she said, this procedure gave the Democrats a big edge with the Navajos.

Navajos much preferred the donkey because donkeys are good workers "and you could eat the young ones." One the other hand, the Navajos had seen elephants only at circuses "and even then their hides were repulsive."

# Pretzel Man Lauds Snack

PHILADELPHIA (AP) — The latest twist in the pretzel industry is the push to get the pretzel out of the saloon into the saloon—the reducing saloon, that is.

"The pretzel is a low calorie, high protein diet item," said Donald McCollough, Lancaster, Pa., pretzel maker today. "Wonderful way to fill your stomach without adding pounds."

"Let's face it. In the old days, the pretzel was strictly for beer drinkers. It's no longer a barroom item. It's a family snack. Why, around Lancaster, doctors prescribe pretzels and ginger ale for babies with upset stomachs."

McCollough was elected to a second term Thursday as president of the National Pretzel Bakers Institute at its 18th annual convention.

McCollough figures there's going to be a boom in pretzels if they catch on with folks trying to reduce.

"It's a hundred million dollar a year business," he said. "But it'll be up to between three and five hundred million dollars in the next five years. Why, business has increased 25 per cent in the last five years."

Pretzel makers are trying to get hotels to put pretzels on their dining room tables, next to the bread and cracker baskets.

"They're great with tomato soup," said McCollough. "But number one item among the new uses for pretzels is pretzel pie crust. Crumble them up, use it to top a pie, Great."

# 20-MINUTE 10

HIGH POINT, N. C. (UPI) — Deputies searched 20 minutes for missing jurymen Thomas L. Jackson and Jirally found him at home. Jackson said he had misinterpreted the judge's order for a 10-minute recess and had thought he was excused for the day.
