Pope's Medic Under Probe

ROME (AP)—The Rome Medical Assn. will conduct a formal inquiry to determine if the personal physician of Pope Pius XII violated his professional obligations by selling articles describing the pontiff's last illness and death agonies.

The inquiry on Prof. Riccardo Galeazzi-Lisi, the Pope's personal physician for 19 years, will take about three weeks. A finding of guilty could result in a reprimand, suspension for a time or even ouster from the medical profession.

The association's governing council voted the inquiry Monday night at an urgent meeting to consider a storm of public demands that Galeazzi-Lisi be disciplined.

The Roman Catholic Church's College of Cardinals had earlier accepted Galeazzi-Lisi's resignation as Vatican Health Services director.

Galeazzi-Lisi has contended that his articles betrayed no professional secrets because his obligation of secrecy ended with his patient's death. He attributed the criticism to jealousy of doctors who were not called to treat the Pope before he died Oct. 9.

Articles signed by the doctor were sold to a number of Italian and foreign publications, but some Italian newspapers decided they were too explicit for publication. Rome papers also raised pointed questions about published photographs of the dying pontiff taken with a miniature camera.

Pilots Study Escape Plan

DALLAS (AP)—A couple of experimental test pilots here hope one of them will ride a rocket out into space, whirl around the earth in 18,000 miles an hour and land again, all in a couple of hours and back for tea or dinner.
