Given in marriage by her father, the bride wore a blue two piece sheath of heavy brocaded taffeta lined with sea blue taffeta. A white bow held a short veil. The bride's bouquet was of white lillians and

BUGS, BEWARE

ITHACA, N. Y. (UPI) — Insect repellents, once nearly as repelling to people as to insects, are much more pleasant to use nowadays, the New York State College of Home Economics is happy to report.

Noting that some are as agreeable as hand lotion, the school reports that one of the newcomers—developed through U.S. Department of Agriculture research—is non-greasy and possesses a fresh, delicate fragrance. This repellent, diethyltoluamide, is very effective against mosquitoes and numerous types of biting insects, ticks and mites and gives protection for several hours.

COLORFUL WINGS

Wings of the butterfly are colorful because they are crossed by many minute ridges which break up the light into iridescent colors.
