### Shore Batteries Hold Off Despite Commie Threats

TAIPEI, Formosa (AP)—Communist shore batteries facing the Quemoy held their fire into the afternoon today despite a loud-speaker threat to resume shelling on even-numbered days.

By the rules announced over Peiping radio on Oct. 25, the Reds have not shelled the landing beaches and airstrip on Quemoy on even days but might shell the rest of the offshore islands. In practice there has been no shelling on the last five even days.

Red loudspeakers six miles across the bay from Quemoy had indicated Tuesday that shells would fall today. The Chinese Nationalist defenders of the islands took an unconcerned wait-and-see attitude.

The Communists fired 93 shells at the Quemoy Tuesday, an odd number on which they permit themselves to shoot at anything. Volume of fire in the Red bombardment which began Aug. 23 has been light lately.

The touring commander in chief of the American Pacific Fleet went to visit the U.S. Pacific Fleet Group 11 based at Pingtung.

On Formosa a meeting at Nationalist headquarters commemorated the 92nd birthday of the late Sun Yat-sen, founder of the Republic of China. President Chiang Kai-shek was chairman but his No. 2 man and heir apparent, Premier and Vice President Chen Cheng, did the talking.

Cheng said the Nationalists "are determined to shed our blood and sacrifice our lives if need be to counterattack the mainland" to end Communist rule.

Meanwhile, U.S. Adm. Herbert G. Hopwood flew to southern Formosa.
